| Reason for Procurement | The Law Enforcement training from Police Legal Sciences is reality-based online training for 9-1-1 Telecommunicators. TCs experience actual 911 calls each month and then participate in an analysis of the call through visualizing the scene, professionalism, customer service, and outcome of the call. The PSAP supervisors previously vetted this online training which provides for appropriate interactive training for the Telecommunicators, and the PSAP directors have communicated they prefer to continue with this service. | | | | | | | |
