#### PROJECT DESCRIPTION

The DuPage County Forensic Science Center (DPCFSC) is a department of the DuPage County Sheriff's Office. Established in 1971, the laboratory is located at 501 N. County Farm Road, Wheaton, IL 60187. The laboratory provides forensic analysis free of charge for any law enforcement agency (approximately 35 agencies) investigating crime in DuPage County, IL. The agencies provide law enforcement for the residents of DuPage County. The current services provided by the laboratory include drug analysis, latent prints, forensic biology, and DNA. Staff testify when needed and the laboratory maintains accreditation to industry recognized standards.

#### Provides a clear, concise summary of the proposal and states outcomes to be gained.

The laboratory seeks to improve quality and timeliness by seeking training, equipment, supplies, and contractual purchases. Over 60% of the fundings' use is related to the testing of suspected opioid and synthetic drugs. Attendance by two staff members at one in-person training event (multiple tracks of presentations) will provide continuing education in the areas of quality assurance, best practices, and management. By providing this continuing education the laboratory is seeking to strengthen staff members' knowledge and identify potential areas of improvement for laboratory operations before they become an issue and impact quality and timeliness of service.

Equipment purchases include a document scanner for drug chemistry preparing data packets for casefiles and two flammable-rated lab fridge/freezer combination units to improve the safety of storage of drug evidence and drug standards.

Most of the supply purchases support the continued testing of suspected opioids and synthetic drugs: thin layer chromatography (TLC) supplies, a digital library update for each operational gas chromatograph/mass spectrometer (GC/MS), anti-fatigue mats, macro camera, micro camera, replacement chairs and automated liquid sampling (ALS) vials and inserts for the preparation of samples to be analyzed using the GC/MS's. Additionally, funding for the latent print section, a camera, color printer and computer with monitors to replace an aging/end of life current workstation.

Contractual funding will be used to support the laboratory's quality assurance program with funding for the annual accreditation fee to the accrediting body, the purchase of 4 proficiency tests for drug chemistry and a minimum of 15 proficiency tests for drug chemistry, latent prints and/or forensic biology/DNA to demonstrate continued competency by staff. For training and meeting registration for two staff members to the American Society of Crime Laboratory Directors symposium, and for two memberships to the National Association of Forensic Science Boards to provide education on best practices for state forensic science boards which relates to laboratory improvement and quality issues. Finally for a custom report for drug chemistry to be created by the Laboratory Information Management System (LIMS) provider Porter Lee.

DuPage County continues to be impacted by the opioid crisis. Between the years of 2015 and 2019, DuPage County experienced an 88% increase in deaths caused by opioid overdose from either heroin, fentanyl, a combination of the two drugs or an opioid prescription medication. Several agencies within DuPage County responded to the rising threat of opioid deaths. The DuPage County Health Department collaborated with the Coroner, Sheriff, State's Attorney, and Chiefs of Police to create the DuPage Narcan Program (now part of HOPEDuPage, <a href="https://hopedupage.org/">https://hopedupage.org/</a>) which put the life-saving opioid reversal drug, naloxone, into the hands of first responders. Despite these efforts, the use of opioids in the county remains high as seen in the consistently high number of opioid related deaths and opioid saves depicted in the below charts as reported in the 2022 DuPage Narcan Program Annual Report (Chart 2).

Chart 2: DuPage Overdose Deaths by Year 2022 DuPage Narcan Program Report

Chart 3: 2021 NARCAN Uses and Saves from the 2022 DuPage Narcan Program Report

The DuPage County Coroner published data for 2022 overdoses on April 3, 2023 ( <u>Public Safety Announcement: DuPage Overdose Statistics 2022 (dupagecounty.gov)</u> ) as shown below. Of interest, many of the overdoses were due to polydrug usage. Fentanyl/Heroin/Opioid Prescription medication accounted for 37% of the total of drugs described below. From the report:

"It was very unusual for an analysis to find one or two drugs in the system. Rather, it was commonplace to find up to 15 drugs making it difficult to determine which drug was responsible for the death. Therefore, this data will be reported only identify which drugs were present in what number of toxicology reports and not to try and state which drug was responsible for the death."

### Overdose Death Data

There were 150 overdose deaths in 2022 with an increase in non-opioid drugs, especially Cocaine and prescription medications causing or contributing to death.

150 = Total overdose deaths

106 = Fentanyl

The Chemistry Section of the DuPage County Forensic Science Center (DCFSC) averages roughly 1,000 assignments a year which generates between 2,000 – 4,000 individual exhibits that are analyzed. The below chart depicts the trends in the number of exhibits tested and reported opioids (Chart 4). Each year, the DCFSC reported approximately a fifth of drug exhibits analyzed as containing an opioid. Typically, these samples are present in lower concentrations due to their potency and are more challenging to analyze. From 2022 to 2023 there was a slight decrease in the number of assignments generated (Chart 1), a decrease in the number of opioids identified, but there was an increase in the number of exhibits found to contain cocaine and reported as 'no controlled substance identified'.

#### Strategies Being Implemented

The DuPage County Forensic Science Center (DCFSC) assisted with the County's response to the opioid crisis in numerous ways. The Chemistry Section, which analyzes seized drug evidence for the presence of cannabis and controlled substances, prioritized cases related to jail seizures and opioid buys and search warrants when typical officer field tests provided inconclusive results for low level drugs or mixtures. Prioritized cases also included instances when officer safety was a concern due to evidence being coated in powder or if the officer suspected personal exposure to an opioid. The laboratory's evidence acceptance policy for seized drug evidence requires there be a suspect in the case upon submission. Due to the rising number of opioid overdose deaths where a suspect may

not yet be identified, the laboratory enacted an exception to the policy and began accepting the submission of one item for analysis to assist with investigations. In July 2018, the Chemistry Section and the Forensic Biology Section of the laboratory began to work closely together to collect DNA from evidence found with the victim in an effort to identify the person delivering the drugs. Through September 2019, the drug evidence obtained from nineteen different opioid related deaths had the packaging (i.e., plastic bag) swabbed for DNA and the contents analyzed for the presence of controlled substances. DNA results were eligible for upload into CODIS (Combined DNA Index System) for three of those cases, with one hitting to a convicted offender after entry. The controlled substance results in those cases are provided to the agency to facilitate testing at the coroner's office or provide probable cause for additional buys/search warrants.

The work product of the DCFSC assists the criminal justice system, in particular the DuPage County State's Attorney's Office (DC-SAO) which has taken an aggressive stance against opioid use in the county. Drug mixtures are more complicated to analyze than pure samples. When a sample is pure, confirmatory results are easily obtained with the instruments available in the laboratory. With mixtures, a separation technique is applied to isolate each drug for identification. In the DCFSC, the primary instrument used for both separation of mixtures and ultimate confirmation of a drug's identity is the Gas Chromatograph/Mass Spectrometer (GCMS). With opioid casework trending towards more complex mixtures and mixtures of low concentration drugs, the laboratory relies heavily on the GCMS to meet testing requirements for identification.

#### **Project Implementation**

The DCFSC would use grant funds for the following opioid related activities:

- Equipment purchases of a document scanner and two flammable laboratory fridge/freezer units for drug evidence and drug standards.
- Supply purchases of TLC supplies, electronic library of mass spectra data, anti-fatigue mats, cameras for macro and micro photography, ALS vials and inserts and chairs.
- A minimum of four drug chemistry proficiency tests.

The DCFSC would use grant funds for the following non-opioid related activities:

- Two staff members to attend for training to the American Society of Crime Laboratory Directors meeting (travel and registration), multiple track presentations.
- Camera and a colored printer for latent prints.
- A replacement computer and monitors for latent prints to replace aging/end of life workstation.
- Annual accreditation fee.
- A minimum of 15 proficiency tests for staff.
- A custom drug chemistry report for LIMS.
- Two memberships to the National Association of Forensic Science Boards.

The DCFSC follows the County of DuPage procurement process (updated for FY21). For goods and equipment up to \$14,999, the purchase can be approved by the department head. For purchases \$15,000 to \$29,999 the purchase has to be approved by the department head and county parent committee (judicial and public safety) with procurement or the department obtaining three quotes or submitting a decision memo. Purchases over \$30,000 require approval by the department head, county parent committee (judicial and public safety), county finance committee and county board. These purchases are competitive unless they meet sole source justification.

4). Equipment (2 CFR 200.439) -- Provide justification for the use of each item and relate them to specific program objectives. Provide both the annual (for multiyear awards) and total for equipment. Equipment is defined as an article of tangible personal property that has a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of the capitalization level established by the non-Federal entity for financial statement purposes, or \$5,000. An applicant organization may classify equipment at a lower dollar value but cannot classify it higher than \$5,000. Applicants should analyze the cost benefits of purchasing versus leasing equipment, especially high cost items and those subject to rapid technical advances. Rented or leased equipment costs should be listed in the "Contractual" category. Explain how the equipment is necessary for the success of the project. Attach a narrative describing the procurement method to be used.

## **Section C** - Budget Worksheet & Narrative

Grant #: 723503

6). Contractual Services (2 CFR 200.318) & Subawards (200.92) -- Provide a description of the product or service to be procured by contract and an estimate of the cost. Applicants are encouraged to promote free and open competition in awarding contracts. Federal rules require a separate justification must be provided for sole source contracts in excess of \$150,000 (See 2 CFR 200.88). However, ICJIA has additional requirements for sole source contracts of other amounts. The applicant must contact the ICJIA grant monitor or program administrator for additional information. This budget category may include subawards. Provide separate budgets for each subaward or contract, regardless of the dollar value and indicate the basis for the cost estimates in the narrative. Describe products or services to be obtained and indicate the applicability or necessity of each to the project.

#### Please also note the differences between subaward, contract, and contractor (vendor):

- 1) Subaward (200.92) means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal/State award, including a portion of the scope of work or objectives. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal/State program.
- 2) Contract (200.22) means a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward.
- 3) "Vendor" or "Contractor" is generally a dealer, distributor or other seller that provides services in support of the project activities. This can include utilities, leases, computing costs, audit costs, and similar types of costs.

16). Indirect Cost (2 CFR 200.414) -- Provide the most recent indirect cost rate agreement information with the itemized budget. The applicable indirect cost rate(s) negotiated by the organization with the cognizant negotiating agency must be used in computing indirect costs (F&A) for a program budget. The amount for indirect costs should be calculated by applying the current negotiated indirect cost rate(s) to the approved base(s). After the amount of indirect costs is determined for the program, a breakdown of the indirect costs should be provided in the budget worksheet and narrative below.

#### §200.308 Revision of budget and program plans

(e) The Federal/State awarding agency may, at its option, restrict the transfer of funds among direct cost categories or programs, functions and activities for Federal/State awards in which the Federal/State share of the project exceeds the Simplified Acquisition Threshold and the cumulative amount of such transfers exceeds or is expected to exceed 10 percent or \$1,000 per detail line item, whichever is greater of the total budget as last approved by the Federal/State awarding agency. The Federal/State awarding agency cannot permit a transfer that would cause any Federal/State appropriation to be used for purposes other than those consistent with the appropriation.

# State of Illinois -- Uniform Budget Template (updated by ICJIA) -- GATA General Instructions

# Section A – Budget Summary

#### FEDERAL/STATE FUNDS

All applicants must complete Section A and provide a break-down by all applicable budget categories. Please read all instructions before completing form.

#### FEDERAL/STATE GRANT FUNDS

Provide a total requested ICJIA Grant amount for each year in the Revenue portion of Section A. The amount entered in Line (a) will equal the total amount budgeted on Line 18 of Section A.

#### BUDGET SUMMARY - FEDERAL/STATE FUNDS

All applicants must complete Section A and provide a break-down by the applicable budget categories.

For each project year for which funding is requested, show the total amount requested for each applicable budget category.

Please see detail worksheet and narrative section for further descriptions and explanations of budgetary line items

Section A - Indirect Cost Information: (This information should be completed by the applicant's Business Office). If the applicant is requesting reimbursement for indirect costs on line 17, the applicant's Business Office must select one of the options listed on the Indirect Cost Information page under Section-A Indirect Cost Information (1-4).

Option (1): The applicant has a Negotiated Indirect Cost Rate Agreement (NICRA) that was approved by the Federal government. A copy of this agreement must be provided to the State of Illinois' Indirect Cost Unit for review and documentation. This NICRA will be accepted by all State of Illinois Agencies up to any statutory, rule-based or programmatic restrictions or limitations. If this option is selected by the applicant, basic information is required for completion of this section. See bottom of "Section-A Indirect Cost Information"

NOTE: The applicant may not have a Federally Negotiated Indirect Cost Rate Agreement. Therefore, in order for the applicant to be reimbursed for Indirect Costs from the State of Illinois, the applicant must either:

- A) Negotiate an Indirect Cost Rate with the State of Illinois' Indirect Cost Unit with guidance from our State Cognizant Agency on an annual basis.
- B) Elect to use the de minimis rate of 10% modified total direct cost (MTDC) which may be used indefinitely on State of Illinois Awards.
- C) Use a Restricted Rate designated by programmatic statutory policy. (See Notice of Funding Opportunity for Restricted Rate Programs)

Option (2a): The applicant currently has a Negotiated Indirect Cost Rate Agreement with the State of Illinois that will be accepted by all State of Illinois Agencies up to any statutory, rule-based or programmatic restrictions or limitations. The applicant is required to submit a new Indirect Cost Rate Proposal to the Indirect Cost Unit within six (6) months after the close of each fiscal year (2 CFR 200 Appendix IV (C)(2)(c). Note: If this option is selected by the applicant, basic information is required for completion of this section. See bottom of "Section-A Indirect Cost Information"

OR

Option (2b): The applicant currently does <u>not</u> have a Negotiated Indirect Cost Rate Agreement with the State of Illinois. The applicant must submit its initial Indirect Cost Rate Proposal (ICRP) immediately after the applicant is advised that the State award will be made and, in no event, later than three (3) months after the effective date of the State award (2 CFR 200 Appendix IV (C)(2)(b). The initial ICRP will be sent to the State of Illinois' Indirect Cost Unit. *Note:* The applicant should check with the State of Illinois awarding Agency for information regarding reimbursement of indirect costs while its proposal is being negotiated

Option (3): The applicant elects to charge the de minimis rate of 10% modified total direct cost (MTDC) which may be used indefinitely on State of Illinois awards (2 CFR 200.414 (c)(4)(f) & (200.68).

Note: The applicant must be eligible, see 2 CFR 200.414 (f), and submit documentation on the calculation of MTDC within your Budget Narrative under Indirect Costs. Note the applicant may only use the 10 percent de minimis rate if the applicant does not have an Approved Indirect Cost Rate Agreement. The applicant may not use the de minimis rate if it is a Local government, or if your grant is funded under a training rate or restricted rate program.

Option (4): If you are applying for a grant under a Restricted Rate Program, indicate whether you are using a restricted indirect cost rate that is included on your approved Indirect Cost Rate Agreement, or whether you are using a restricted indirect cost rate that complies with statutory or programmatic policies. Note: See Notice of State Award for Restricted Rate Programs

# Section B - Budget Summary

#### <u>MATCH FUNDS</u>

MATCH FUNDS: If the applicant is required to provide or volunteers to provide cost-sharing or matching funds or other non-ICJIA resources to the project, the applicant must provide a revenue breakdown of all Match funds in lines (b)-(d). the total of "Match Funds" should equal the amount budgeted on Line 18 of Section B. If a match percentage is required, the amount should be entered in this section.

#### **BUDGET SUMMARY – MATCH FUNDS**

If the applicant is required to provide or volunteers to provide cost-sharing or matching funds or other match resources to the project, these costs should be shown for each applicable budget category of Section B.

For each applicable budget category for which matching funds are provided, show the total contribution. Only use those categories that are visible.

Please see detail worksheet and narrative section for further descriptions and explanations of budgetary line items

# Section C - Budget Worksheet & Narrative

[Attach separate sheet(s)]

Pay attention to applicable ICJIA-specific instructions.

All applicants are required to submit a budget narrative along with Section A and Section B. The budget narrative is sometimes referred to as the budget justification. The narrative serves two purposes: it explains how the costs were estimated and it justifies the need for the cost. The narrative may include tables for clarification purposes. The State of Illinois recommends using the State of Illinois Uniform Budget Template worksheet and narrative guide provided.

- 1. Provide an itemized budget breakdown, and justification by project year, for each budget category listed in Sections A and B.
- 2. For match funds or resources listed in Section B that are used to meet a cost-sharing or matching requirement or provided as a voluntary cost-sharing or matching commitment, you must include:
  - a. The specific costs or contributions by budget category;
  - b. The source of the costs or contributions; and
  - c. In the case of third-party in-kind contributions, a description of how the value was determined for the donated or contributed goods or services.

**Budget Instructions (General)** 

[Please review cost sharing and matching regulations found in 2 CFR 200.306.]

- 3. If applicable to this program, provide the rate and base on which fringe benefits are calculated.
- 4. If the applicant is requesting reimbursement for indirect costs on line 17, this information should be completed by the applicant's Business Office. Specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense. Depending on the grant program to which the applicant is applying and/or the applicant's approved Indirect Cost Rate Agreement, some direct cost budget categories in the applicant's grant application budget may not be included in the base and multiplied by your indirect cost rate. Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied.
- 5. Provide other explanations or comments you deem necessary.

#### Keep in mind the following—

Although the degree of specificity of any budget will vary depending on the nature of the project and State of Illinois agency requirements, a complete, well-thought-out budget serves to reinforce your credibility and increase the likelihood of your proposal being funded.

- •A well-prepared budget should be reasonable and demonstrate that the funds being asked for will be used wisely.
- •The budget should be as concrete and specific as possible in its estimates. Make every effort to be realistic, to estimate costs accurately.
- •The budget format should be as clear as possible. It should begin with a budget narrative, which you should write after the entire budget has been prepared.
- •Each section of the budget should be in outline form, listing line items under major headings and subheadings.
- •Each of the major components should be subtotaled with a grand total at the end.

Your budget should justify all expenses and be consistent with the program narrative:

- •Salaries should be comparable to those within the applicant organization.
- •If new staff is being hired, additional space and equipment are considered, as necessary.
- •If the budget lists an equipment purchase, it is the type allowed by the agency.
- •If additional space is rented, the increase in insurance is supported.
- •If an indirect cost rate applies to the proposal, the division between direct and indirect costs is not in conflict, and the aggregate budget totals refer directly to the approved formula. Indirect costs are costs that are not readily assignable to a particular project, but are necessary to the operation of the organization and the performance of the project (like the cost of operating and maintaining facilities, depreciation, and administrative salaries).

#### §200.308 Revision of budget and program plans

(e) The Federal/State awarding agency may, at its option, restrict the transfer of funds among direct cost categories or programs, functions and activities for Federal/State awards in which the Federal/State share of the project exceeds the Simplified Acquisition Threshold and the cumulative amount of such transfers exceeds or is expected to exceed 10 percent or \$1,000 per detail line item, whichever is greater of the total budget as last approved by the Federal/State awarding agency. The Federal/State awarding agency cannot permit a transfer that would cause any Federal/State appropriation to be used for purposes other than those consistent with the appropriation.

# State of Illinois -- Uniform Budget Template (updated by ICJIA) -- ICJIA Specific Instructions

# Section A – Budget Summary

- I. Section A: Federal/State funds are those that come from ICJIA as part of a NOFO or continuation. The Implementing Agency is the entity that will be responsible for managing the agreement. Please complete all cells in blue. If indirect costs are being included in the budget, don't forget to include the Rate and Base in the left column. The following information can be found on the GATA website or on the Uniform Notice of Funding Opportunity (NOFO): NOFO ID; CFSA Number; CFSA Short Description; State Fiscal Year(s) and Project Period. If this is a continuation grant, please enter the grant number.
- II. Section A Indirect Costs: One of the following must be checked: Item 1; 2a or 2b; 3, 4, or 5. If Option 1 or 2a is selected, then the box at the bottom of the page must be filled out.
- III. Section B: All required match must be included. If you are including additional match (overmatch), do not separate required match from overmatch. Those amounts should be combined together. - IV. Applicant Certification: The Implementing Agency (and Program Agency, if different from the Implementing Agency), must complete this form at the time the grant agreement is signed.
- V. FFATA Form: This should only be filled out if the source of ICJIA funds is federal (ie JAG, VOCA, VAWA, etc.) AND if the implementing agency receives \$25,000 or more in federal funds. To confirm whether federal funds are part of this award, please refer to the <u>CFDA</u> number on the Uniform Notice for Funding Opportunity (NOFO). If there is a CFDA number, then this award includes federal funds.

#### VI. Section C1- Personnel:

- A) If a cost of living increase is anticipated, please reflect the adjusted salary in one line item. In the justification, please state that the salary reflects a cost of living increase and provide the amount/length of time of the initial salary and amount/length of time of the final salary.
- B) If you are budgeting for overtime, please put the overtime amount on the bottom row. In the justification, please state how the overtime amount has been calculated.
- C) Quantity of time will depend on the basis selected.

- A) This page is to be used for all travel costs both daily and out of town. Please put similarly purposed trips together. For example daily mileage reimbursement costs can all be on one line item and daily parking costs on the next line item. Out of town trips should also be listed together. For example, if you will attend two conferences, please put costs associated with the first conference together, and then put costs associated with the second conference together.
- B) Travel expenses can not exceed the State of Illinois rates (or your agency's rate, whichever is lower). Mileage, per diem, and lodging rates can be found here: https://www.illinois.gov/cms/Employees/travel/Pages/TravelReimbursement.aspx (copy and paste this address into a web browser).

#### IX. Section C4 - Equipment:

- A) All equipment must be purchased no later than 90 days after the start of the grant, unless otherwise approved by your ICJIA grant monitor.

Utility or rent costs would be proportional to the space occupied by the grant funded program divided by the total space.

#### **XII. Section C16 - Indirect Costs:**

- A) If a federally-approved or state-approved indirect cost rate is being included, please provide the letter showing the approved indirect cost rate.
- B) If any indirect cost rate is being included (de minimus, federally approved or state approved), the certification must be signed at the time the grant agreement is signed.
