6. **BUDGET TRANSFERS**

6.A. <u>25-0134</u>

Budget adjustment total amount of \$56,284: \$20,000 from 1100-4310-50000 (Regular Salaries); \$4,600 from 1100-4310-50010 (Overtime); \$10,000 from 1100-4310-50040 (Part Time Help); \$11,684 from 1100-4310-50080 (Salary & Wage Adjustments); and \$10,000 from 1100-4310-51040 (Employee Med & Hosp Insurance), to 1100-4310-53090 (Other Professional Services), to pay for the non-budgeted U.S. Imaging film project for the Recorder of Deeds in FY2024.

Mr. Johnson asked Member Chaplin to elaborate on the memo included with the first two

budget transfers on the agenda. Member Chaplin explained that her office received an invoice for approximately \$672,000 for a project that was not budgeted for and not competitively bid last year. She said because of how the project was managed, the film is unusable.

Member Chaplin said she is meeting with the vendor to discuss if anything is able to be salvaged. She noted that the project moved film to film rather than digitizing it. Member Yoo asked if it would be useful for CIO Anthony McPhearson and or Deputy CIO Richard Burnson to be included in the meeting with the vendor. Member Chaplin said that would be a great idea, since there was no consultation with staff previously on this project. Mr. McPhearson said he would love to attend and suggested they can work with the vendor and Procurement to possibly change the scope of the contract and go digital. Guillermo Franco, Recorder IT staff, said they would need to increase their storage in order to go digital.

Member Galassi asked if the meeting is being held to discuss switching to digital. Member Chaplin replied that they will be discussing whether the film is still useable as well as the possibility of digitization. She advised that the 6,000+ images in question are currently with US Imaging.

Member Rutledge asked when the contract was signed. Member Chaplin said it was more of a proposal than a contract and it was signed on February 8, 2024. Mr. Burnson asked that the contract be sent to him and Mr. McPhearson prior to tomorrow's meeting.

County Board Member Andrew Honig asked what film is considered not useable, to which Member Chaplin said all film from 1961 through 2024.

Mr. Johnson stated that the County Clerk's office will be abstaining from the vote on items 6A through 6C.

Chair Covert asked staff to advise how these three budget transfers came to be on the Technology Committee agenda. Committee Secretary Sarah Godzicki advised that the request came from the Finance Department.

- f. Seller acknowledges that the Customer has made no representations, assurances, or guaranties regarding the Customer's legal capacity to indemnify Seller as provided for in this Contract. In the event a court of competent jurisdiction holds that Customer is deemed to lack the lawful authority or ability to indemnify, defend or hold harmless the Seller, or any person or entity claiming a right through Seller, or in the event of changes in the laws of the State of Illinois governing Customer's indemnification authority, such occurrence(s) shall not affect the validity and enforceability of the remainder of this Contract or the parties' rights and obligations provided for therein.

In jurisdictions that limit or preclude limitations or exclusion of remedies, damages, or liability, such as liability for gross negligence or willful misconduct or do not allow implied warranties to be excluded, the limitation or exclusion of warranties, remedies, damages, or liability set forth in these Terms are intended to apply to the maximum extent permitted by applicable law, and these Terms shall be deemed amended to comply with such limitations or exclusions. Customer may also have other rights that vary by state, country or other jurisdiction. 7. Database Access Provisions

- a. In consideration for using the SQL Database format of RTA, RTA is offering this section as a Letter of Understanding concerning the DATA and issues that may arise in connection with an open database system. If COMPANY has requested direct access to the database, be it understood that:
- b. To provide direct connection to the COMPANY SQL database, making it available for connection from SQL Management Studio, Crystal Reports, or integrating with other SQL-aware applications, RTA must place the database on a SQL database server that is connected to the internet. The SQL server connection string listens on a non-standard port and is protected by standard SQL Server security features. A user account specific to COMPANY will be provided and is used solely to access the database. For additional security, a firewall prevents anonymous entities from connecting to the database server. COMPANY will need to provide RTA with the public IP address(es) from which COMPANY will be connecting to the database so that we may allow the connection.
- c. All database connections are read only.
- d. COMPANY is hereby notified that if a data element in a table is deemed to be invalid, RTA will use all diligence to determine the nature of the source of the invalidity. If source of the error is determined to be from an outside query operation or user modification to the data, RTA can assist in correcting the data at our standard professional services rate of \$250/hour.
- e. RTA is requesting that write access to the data be limited (e.g., Not available to non-technical users) to only certain users of the Service.

- f. RTA recognizes the value of using database systems to enhance data availability, access, and reporting. RTA Tech support will support the normal database access questions (field definitions, linkage relationships) but cannot assist in writing queries, forms, or other data-access objects and methods without a formal engagement for those services.
- g. COMPANY will specify static IP addresses that will be connecting to the RTA database by emailing Company Name and IP address(es) to support@rtafleet.com. Connections from all other addresses outside the Service will be blocked.
