6. FY25 BUDGET

Chair Schwarze turned the meeting over to Ms. Zerwin. A presentation was shared on-screen to supplement a memorandum that had been distributed to the Members. The slides of the presentation are attached to these minutes. Ms. Zerwin provided a review of the slides which showed a decrease of \$1.9M to the overall budget. She explained, however, that last year an additional \$2M had been carried over for the IGA so once that amount is removed, the budget is in line with the effects of some of the contracts and operational decisions still to be determined. The second slide demonstrated that costs are primarily focused on the systems and support of the 9-1-1 system, as opposed to personnel. Ms. Zerwin continued with detailed explanations of each of the slides including personnel, commodities, and contractual lines of the budget.

Discussion ensued as Members asked questions about specific costs and line items. These discussions included the FY23 headcount that was added pending the Attorney General opinion regarding the focus groups and whether they fall under the purview of the Open Meetings Act (OMA) and whether the role of additional personnel could instead fall under contractual services or services rendered by artificial intelligence, whether there is enough work for an additional full-time employee, or if the focus groups should be brought back under the agenda of the Policy Advisory Committee (PAC). ASA Winistorfer recommended that Board consider moving forward with staffing based guidance from OMA standards. Ms. Zerwin indicated that there would be no problem having sufficient work for an additional staff member as no one at ETSB puts in less than 40 hours per week.

There was discussion regarding the movement of servers from capital contingencies to small value, PSAP training costs, contract maintenance costs, RapidSOS Premium, the CAD-to-CAD project and its efficiencies and the potential effect of NextGen 9-1-1, and the history of the contingencies account and the question of whether a budget amendment could instead be utilized, if necessary.

Chair Schwarze asked if the next Ad Hoc Finance Committee meeting was scheduled after the August 14 board meeting, would be sufficient time to prepare for discussions on capital projects.

Ms. Zerwin felt that a lot of outstanding questions would be answered by that time to make the meeting productive. Member Guttman asked that a future meeting include details on staff time spent on agency requests that dedicate staff time beyond what was expected and his concern that agencies should be charged for staff time spent on such projects.
