File #: 26-1777

Agenda Date: 7/6/2026

Agenda #: 6.A.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

TO: Linda Zerwin, ETSB Executive Director
FROM: Jennifer Hurd, Motorola System Manager
DATE: June 30, 2026
SUBJECT: STARCOM21 DEDIRS Monthly Report

Projects:

DEDIR System Radio Replacement:

APX Next XN Fire Portables Updates:

Phase 1: Complete as of April 2026

Phase 2: 22 agencies have completed the 2nd update, 7 remain
BLF, ITF, LWF, OTF, WRF, WFF, YCF

Radio Replacement – Hazmat Incident

In May, exposure in a hazmat incident has deemed 17 radios condemned/contaminated. Motorola has received information on the contaminants and is investigating and will be providing a response soon.

Encryption Project:

Deployment is scheduled for: Tuesday, July 7
APX 4000 Portable: To Be Determined

The go-live date for this project was pushed from June 23 to July 7. While the goal was pre-4th of July, in order to have the Motorola resources required available and the rescheduling of STARCOM work to allow for this infrastructure lift the first available date was July 7.

The recent storms delayed the agency deployment schedule. Additionally, the first agencies that have received the double codeplug have did some initial testing which found some things that needed to be corrected.

Motorola completed successful proof of concept testing on June 16.

Codeplug Creation for Encryption: A new double codeplug for the Police APX Next radios has been created. This includes both the current radio zones and channels and a second similar for use after the transition to AES encryption. The duplicate zone and channel names have the letter -E added after each to reference they are encrypted. ViQi has also been updated to reach the current channels with the same name or the duplicate encrypted channels by speaking the additional keyword 'secure' after the existing channel name. The Police Focus group tested and approved the double codeplug.

As of July 1:

31 agencies have received the double codeplug.

22 radios have not completed the download out of 1904 that were sent

All PD agencies have completed the training and requested the double codeplug with the exception of College of DuPage which is scheduled for the week prior to the Encryption Go Live

See the list of portables that need to be updated below, additionally the list has been posted on Monday.com's encryption board and updated daily.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

WINFIELD PD		WOODRIDGE PD	
WFP CLAPPER	WFP KOTLARZ	WOP 129	WOP 97

Codeplug updates: All Fire agencies were sent an initial update that included two changes: NWC FD channels 1-4 to point to NWCD's new encrypted talk groups and a correction to both vFD3 and vFD3 Direct frequencies. The initial update has been completed by all Fire agencies as of April 16. A third change was found at a later date for a Zone 33 FG power correction and has been sent in a second push after the first update was completed on all agency radios. The list below includes radios pending the second push update for the Zone 33 FG power correction, along with other configuration fixes identified through support tickets.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

APX8500 Mobile:

Boxed APX8500s have been returned to Motorola Solutions, Inc. as of March 2, 2026. Installed APX8500 will be returned when replacement units are ready.

APX7500 Mobile:

Motorola is working with ETSB to establish a plan to upgrade the mobiles to support TDMA, multikey encryption, and AES. This project is a low priority because of the move to a different mobile manufacturer.

CommandCentral Aware:

There are sixteen (16) remaining police agencies and sixteen (16) remaining fire agencies that will need to submit their CommandCentral Aware applications through Monday.com.

Radio Alignment: There were none last month.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

STARCOM21 Scheduled Maintenance:

System Maintenance: Starcom maintenance is now being completed quarterly.

- The Starcom21 team and Motorola RSUS team applied security update patches to the Starcom21 system core in all Zones. The Patching efforts were done by the RSUS team on 6/10 and 6/11. These patches caused an impact to the system in all Zones.

It caused RF Site to enter to site trunking and Dispatch Sites to get Red X's on resources

Thursday, June 11, 2026

8:45 am- Site Trunking Event (~5 Minute Event)

Red X's on Consoles for 5 Minutes as well

2:45 pm - Site Trunking Event (~5 Minute Event)

Red X's on Consoles for 5 Minutes as well

- IL STARCOM Monthly Application of Windows Motopatch 2026.04– Patching 6/11/26. Monthly MOTOPATCH for Windows process was performed on applicable clients in your ASTRO System.

STARCOM21 Unscheduled System Outages: There were none last month.

CommandCentral Patches: There were none last month.

CommandCentral unplanned outage: There was a service degradation to CommandCentral Aware reported on June 26 at 12:06 CDT which was reported resolved at 13:17 CDT.

SmartConnect Patches: There were none last month.

Radio Central Patches: There were none last month.

Radio Management / CPS Patches: There were none last month.

Radio Central Migration: One Bensenville PD radio remains outstanding to be transitioned to the new Radio Central. This radio is pending installation of an update.

142CXX0922	H45TGT9PW8AN	R29.00.01	R04.61.00	BEP	BEP CARRERA	Running: Waiting For Device	1/30/2023 5:55:20 PM

Releases:

Fire radios were deployed on firmware R09.40 which was released June 2025. All Police radios have also been sent version R09.40 and have been updated to match.

There are over 30 radios deployed on the newer firmware version numbering system 37.03 or 38.04. These units were updated when sent to the Depot for repair. There are no reported issues on the newer firmware at this time. Updating the fleet radio baseline firmware version for 2026 will be revisited in a few months after the Police Encryption project is completed.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

Meetings:

PAC Meeting: Monday, June 1, 2026

ETSB Podcast: Wednesday June 10, 2026

Training: Initial training and Go Live Training for the Encryption Project has been added to the Encryption DEDIR System Monday.com board. Please check back regularly as this is being updated periodically.

Motorola Project Manager Weekly Synch Report – Project Manager Rich Nita

Motorola Wednesday Morning Status Call – June 3, 2026

AXS Consoles: No new updates this week. DU-COMM console ATP will be scheduled following Encryption effort. Final Acceptance pending for both ACDC and DU-COMM console deployments.

DFSI: DU-COMM, Leonardo updated on 5/29/26 that they are finalizing testing on the new software release, which adds selectable port numbers and resolves the F7E issue. Updated Leonardo SW ETA is on the week of 6/1/26. James E. working with Motorola on port configuration/assignment details, Matt D. working on the firewall, which was blocking the port config. Final revisions to the crossmute tables (Jim C and Matt D) will take place following the Encryption effort.

Encryption: Small group review/test of double codeplugs (ahead of the encryption dry run) in progress. Jen Hurd starting to push double codeplug to first agencies this week. ETSB team met with PSAPs on 5/29/26 to share high level process and timeline for Encryption go live. Matt D. working on checking consolettes at both dispatch centers for OTAR/OTAP. Jen Hurd working with Dan T. on requested console talkgroups name changes, Dan planning to implement on 6/16/26. Team is also looking into encryption for Wave users - timing for this will follow the initial Encryption effort, and is suggested to be coordinated with transition from Wave Tactical to PTX. 06/23/26 is the go live target for Encryption.

Motorola Wednesday Morning Status Call – June 10, 2026 – no call, ETS Board meeting.

Motorola Wednesday Morning Status Call – June 17, 2026 – no call, Octave conference.

Motorola Wednesday Morning Status Call – June 24, 2026

AXS Consoles: No new updates this week. DU-COMM console ATP will be scheduled following Encryption effort. Final Acceptance pending for both ACDC and DU-COMM console deployments.

DFSI: DU-COMM; No new updates this week - current priority is on Encryption readiness. Updated Leonardo SW received week of 6/1/26. James E. working with Motorola on port configuration/assignment details, Matt D working on the firewall, which was blocking the port config. Final revisions to the crossmute tables (Jim C and Matt D) will take place following the Encryption effort.

Encryption: Successful dry run/test encryption completed on 6/16/26. Jen continuing push double codeplug to agencies this week (as of 6/22/26, codeplugs for 22 of 32 agencies have been pushed), target complete for getting all the codeplugs pushed to agencies is 6/26/26. Matt D/team is working on consolettes at both dispatch centers, to prep readiness for AES256. TG name changes implemented on 6/16/26. Working on process for encryption for Wave users - timing for this will follow the initial Encryption effort. Revised go live target for the Encryption is 7/7/26.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

Meeting ID: 883 6794 9331

Passcode: 505017

1. CALL TO ORDER

2:00 PM meeting was called to order by Chair Selvik at 2:00 PM.

2. ROLL CALL

Attendees:

- Eve Kraus, DuPage Emergency Telephone System Board
- Andres Gonzalez, DuPage Emergency Telephone System Board
- Joseph Grage, Lombard PD
- Jennifer Hurd, Motorola
- Nick Kottmeyer, County Board Office
- Scott Bukovic, Westmont PD (Remote)
- Lou Hayes, Jr., Hinsdale PD (Remote)
- Marilu Hernandez, ACDC (Remote)
- James McGreal, Downers Grove PD (Remote)
- Bob Murr, COD (Remote)

On roll call, Members Burmeister, Clark, Fleury, Jansen and Selvik were present which constituted a quorum. Member Benjamin was absent.

PRESENT	Selvik, Burmeister, Clark, Fleury, and Jansen
ABSENT	Benjamin

3. PUBLIC COMMENT

There was no public comment.

4. CHAIR'S REMARKS - CHAIR SELVIK

There were no remarks from Chair Selvik.

5. MEMBERS' REMARKS

There were no Members' remarks.

6. CONSENT ITEMS

6.A. [26-1515](#)

DEDIR System May Maintainer Report

On voice vote, all Members voted “Aye”, motion carried.

7.B. [26-1519](#)

Approval of a Memorandum of Understanding modification between the Emergency Telephone System Board of DuPage County and the Yorktown Center Mall pursuant to Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) and Policy 911-005.9: Access to DEDIRS Non Public Safety/Schools. 14 day notification completed May 29.

Vice Chair Clark made a motion to approve the action item, seconded by Member Jansen.

Chair Selvik noted that a letter of support from Lombard Police Chief Grage was provided to ETSB staff after the posting of this agenda and distributed to the PAC Members at the time of the meeting, in support of the Yorktown Center Mall application. This support letter has been made a part of these minutes. Chair Selvik explained that the request was based on the Lombard Police Department’s history of providing a Starcom radio to the mall, which has reportedly been used in approximately 800 incidents over the past five years.

Vice Chair Clark made a motion to amend item 7.B. to include the letter of support as part of the application, seconded by Member Burmeister. On voice vote, all Members voted “Aye,” motion carried.

Chair Selvik then called for a vote to approve the original motion as amended. On voice vote, all Members voted “Aye,” motion carried.

8.B. [ETS-R-0012-26](#)

Resolution to approve the language of Policy 911-005.6: DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) Use of Emergency Button.

Member Burmeister made a motion to recommend approval to the ETS Board, seconded by Member Jansen.

Vice Chair Clark stated that DU-COMM requested to table the item, as the attorneys had not yet been able to come to an agreement. Chair Selvik asked for a motion to table the item until July 6, 2026 meeting. Vice Chair Clark made a motion to table the item to the July 6 meeting, seconded by Member Fleury.

On voice vote, all Members voted “Aye,” motion carried.

SECONDER: Colin Fleury

9. DEDIR SYSTEM**9.A. Fire Focus Group May 13, 2026 Summary**

Vice Chair Clark said the meeting summary was included in the packet. He said testing still needed to be completed on the orange button functionality and the minimum radio volume level. He also said the group had seen partially programmed mobile radios and that ABeep continued to work on the codeplug for the mobiles. He said another Fire Focus Group meeting was planned for later in the month to follow up on those items. Ms. Kraus reported that another delivery of mobile radios had been received earlier that day.

Chair Selvik said encryption continued to move forward and explained that the codeplugs for the four test agencies with portables were being pushed out that week. He said ETSB had prepared training slides and distributed them through Monday.com and the DuPage Chiefs of Police Association's distribution list. Agencies were being instructed to submit a Zendesk ticket and notify ETSB after completing the training so Motorola could move forward with the dual code plug update to those individual agencies. Chair Selvik said the project remained on track, with the tentative encryption go-live of June 23. Vice Chair Clark clarified that the required double codeplug update applied only to police agencies and did not affect fire codeplugs at that time.

Chair Selvik thanked Motorola and ETSB for their work and said the project was gaining momentum. Ms. Kraus added that the first agency had requested the double codeplug through Zendesk, as instructed.

10. OLD BUSINESS

There was no old business.

11. NEW BUSINESS

There was no new business.

12. ADJOURNMENT**12.A. Next Meeting: Monday, July 6, 2026 at 2:00pm in Room 3-500A**

Member Fleury made a motion to adjourn the meeting at 2:12 pm, seconded by Member Burmeister. On voice vote, motion carried.

Respectfully submitted,

Andres Gonzalez

Emergency Telephone System Board of DuPage County

This Memorandum of Understanding (MOU) is an agreement between the Emergency Telephone System Board of DuPage County (DuPage ETSB) and the **Tri-Com Central Dispatch** allowing for the sharing of talkgroups on the STARCOM21 Radio Network (SC21). The purpose is to allow each party's respective agencies access to talkgroups for interoperating on the SC21 network. Agency agrees to keep this list confidential and only share it with personnel that have a need to know the below-listed information. Agency understands that this document is not public information and should not be disclosed pursuant 5 ILCS 140/7(d)(6) and (v) as well as 20 ILCS 2615/1 and 12.

Agenda #: 8.B.4.

RESOLUTION TO APPROVE THE LANGUAGE OF POLICY 911-005.6: DUPAGE EMERGENCY DISPATCH INTEROPERABLE RADIO SYSTEM (DEDIR SYSTEM) USE OF EMERGENCY BUTTON

WHEREAS, the DuPage County Emergency Telephone System Board (“DU PAGE ETSB”) is an emergency telephone system board, established pursuant to Section 15.4 of the Local Government Emergency Telephone System Act, 50 ILCS 750/15.4 (“Act”); and

WHEREAS, the DU PAGE ETSB is authorized and empowered, pursuant to Section 15.4 (b) of the Act to plan, implement, upgrade, and maintain an Emergency 9-1-1 System; and

WHEREAS, the DU PAGE ETSB shall develop policies in order to plan, implement, upgrade, and maintain the DuPage ETSB 9-1-1 System; and

WHEREAS, the purpose of this resolution is to approve the language of Policy 911-005.6: DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) Use of Emergency Button, initially adopted by DU PAGE ETSB on November 9, 2022; and

WHEREAS, DU PAGE ETSB Policy 911-005.6: DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) Use of Emergency Button has been approved by the DU PAGE ETSB Policy Advisory Committee (PAC) as Section 5.3.B; and

WHEREAS, the Board members of DU PAGE ETSB have reviewed Policy 911-005.6: DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) Use of Emergency Button for the purpose of providing guidance for the Use of Emergency Button on the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System).

NOW, THEREFORE BE IT RESOLVED, that the DU PAGE ETSB Policy 911-005.6: DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) Use of Emergency Button be, and it is hereby adopted.

Enacted and approved this 8th day of July, 2026 at Wheaton, Illinois.

GREG SCHWARZE, CHAIR

Attest: _____

JEAN KACZMAREK, COUNTY CLERK

Emergency Telephone System Board Of DuPage County Policy and Procedures

Policy #: 911- 005.6
Previous Policy(s): 4.2.2
Effective Date: April 10, 2018
Revised: November 9, 2022, July 8, 2026

DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) Use of Emergency Button

Purpose:

The purpose of this policy is to ensure compliance with State of Illinois STARCOM21 and DEDIR System requirements for use and access of DEDIR System talk groups for the purpose of interoperability for emergency communications by acknowledging industry standards for definitions, terminology

Additional Authority:

50 ILCS 750 Emergency Telephone System Act
20 ILCS 2615 Illinois State Police Radio Act

Goal:

It is the goal of the Emergency Telephone System Board of DuPage County (DuPage ETSB) to provide one seamless method of interoperable communication for use by agencies on DEDIR System for non-member agencies.

Scope:

This policy shall apply to all Public Safety Answering Points (PSAPs) in the DuPage ETSB 9-1-1 System, including all Telecommunicators and other employees of the PSAP, user agencies or DuPage ETSB staff, contracted vendors or other authorized agents, DEDIR System users and agencies receiving approval to access DEDIR System talk groups.

I. Policy Statement

DuPage ETSB leases a portion of the Motorola Solutions, Inc. STARCOM21 network in Illinois as an integrated component of its emergency dispatch telephone system. The system permits communication between telecommunicators and the first responding personnel they dispatch in response to calls placed to 9-1-1. The system also permits personnel from public safety agencies throughout the County to communicate with each other during emergency joint response situations.

To achieve seamless interoperable communication, standardization of operation and naming conventions are required to ensure that first responders can effectively operate subscriber units while on duty but especially during critical, active incidents when speed and accuracy are critical.

As defined in Policy #: 911- 005.5, a “Talk group” is the term given to assigned groups on a trunked radio system. Unlike a conventional radio which assigns users a certain frequency, a trunk system takes a number of frequencies allocated to the system. The control channel then coordinates the system so talk groups can share these frequencies seamlessly. The purpose is to dramatically increase bandwidth.

Policy 911- 005.6 shall deal specifically with the use of the emergency button on the subscriber unit.

Emergency Telephone System Board Of DuPage County Policy and Procedures

II. Emergency Button

DEDIR System utilizes two radio technologies, digital trunked and conventional simplex.

This procedure describes the function of and the appropriate use for the emergency button on DEDIR System portable radios. The objective is the proper use of the emergency button as well as a predictable, communicated, course of action by all DuPage County PSAPs and field personnel. It is important to note that the emergency button will operate on trunked talk groups, as well on conventional channels, although those channels might not have the equipment in place to monitor this activity. It should be noted the operation of the radio may differ (even slightly) when the emergency button is activated in the STARCOM21 (trunked) mode and the conventional mode.

III. Trunked Talk Groups

- a. The emergency button is used:
 1. To send an emergency notification when field personnel are in distress, or
 2. When the user is unable to transmit a verbal emergency message due to heavy radio traffic.
- b. Pressing the Emergency Button on a STARCOM21 Talk group:
 1. Emergency button activation will display the 6 digit radio identification number, alias name (e.g. ADSN CHF 100) and the talk group name on the radio consoles.
 2. The affected user's radio will flash "EMERGENCY" on the radio's display screen.
 3. The affected user that activated his or her emergency button will have priority over any other radio transmitting on the same talk group.
 4. During this time, the radio speaker will remain active, meaning affiliated subscriber units will hear all the radio traffic.
 5. The policy of wearing an earpiece will be dictated by the officers jurisdiction.

IV. Conventional Channels

- a. The emergency button is used:
 1. To send an emergency notification when field personnel are in distress.
- b. Pressing the Emergency Button on a conventional channel:
 1. Emergency button activation will display a 4 digit radio identification number and the frequency name on radio consoles that have that frequency. For example, a dispatch console may display an emergency for primary fire dispatch frequency, but not for fire ground red if that frequency is not monitored by the console.
 2. The affected user's radio will flash "EMERGENCY" on the radio's display screen.
 3. Once the affected user pushes the Push-to-talk (PTT), some radios (depending on the model) will be able to decode the emergency signal. They might be able to convert the 4 digit radio ID to an alias name if they have the current aliases programmed in their radio.
 4. The affected user that activated his or her emergency button will be competing with any other radio transmitting on the same channel.

Emergency Telephone System Board Of DuPage County Policy and Procedures

- V. Actions to be taken upon receipt of an Emergency Button activation
- a. The assigned Telecommunicator for a monitored talk group or channel will transmit "William 1 (for instance), you have an E1," (or similar procedure that the PSAP has established for checking the status of a unit). If the alarm is for a non-monitored talk group, any console Telecommunicator can pull up the alarm window and handle the alarm. The level of activity at the communications center will determine which Telecommunicator handles non-monitored talk group alarms.
 - b. The Telecommunicator should attempt to contact the affected user (Police officer, firefighter, or other user). If the user that has activated his/her alarm cannot be reached over the radio after two (2) attempts, the Telecommunicator shall immediately dispatch backup if the location is known, and notify the Watch Commander/Shift Supervisor/Incident Commander. The Watch Commander/Shift Supervisor/Incident Commander shall make every effort to contact the affected person by any means necessary. This action shall be taken whether the user is believed to be on duty or not.
 - c. When the PSAP is notified of emergency button activation from a radio belonging to one of their assigned units currently working with an outside PSAP, the home PSAP will immediately advise the outside PSAP of the emergency button activation. The outside PSAP will advise the home PSAP when the activation has been resolved.
 - d. All units assigned to a channel which experiences an emergency button activation shall remain off the radio, except for emergency communications, until the activation is resolved.
 - e. Once the affected user has been successfully contacted by the Telecommunicator, the affected user shall respond and include the word "**ACCIDENTAL**" in his or her response. If the affected user does not use the word "**ACCIDENTAL**," the Telecommunicator should assume that the emergency activation is valid and immediately dispatch backup and alert the Watch Commander/Shift Supervisor/Incident Commander. If the user provides a response which in any way indicates that the signal was "**ACCIDENTAL**," (without having to remember the specific phraseology), the Telecommunicator shall announce that the activation is accidental and clear the alarm from the console screen.
 - f. If the location of the affected user is not known, the Telecommunicator shall immediately announce the affected user's alarm activation and request that any information about his or her last activity or location be relayed to the PSAP.
 - g. Verification activities may vary from agency to agency, but after an activation, the supervisor or his or her designee should confer with the affected user to confirm that he or she is safe.
 - h. Agencies should establish similar policies for field units operating on conventional and/or tactical channels which might not be monitored by dispatch. In these cases, the Watch Commander/ Shift Supervisor/Incident Commander is responsible for the activities that would have been handled by the PSAP.

Emergency Telephone System Board
Of DuPage County
Policy and Procedures

i. Exigent or Active Situations

- 1. PSAP: Any of the above steps may be accelerated or skipped if the Telecommunicator immediately believes the activation is valid based on all available information. In that case, the Telecommunicator will take any actions believed necessary to assist the officer in need.
- 2. Agency: An agency's command staff or scene commander may request accelerated or skipped steps from the above procedure based on local or acute factors requiring a change and will notify the PSAP/Telecommunicator of such change.
- 3. In either instance, such changes will be deemed temporary to an event or situation and the agency shall rescind the changes and return to the procedural steps at the conclusion of the event or when the threat causing the change has diminished or ceased.

VI. Resetting the Emergency Button Activation

After activation of the emergency button on the APEX radio, the user must reset the button activation, which can be accomplished on one of two ways:

- a. The operator can push and hold the orange emergency button for approximately 3 seconds; he or she will hear a tone and the emergency button will reset or
- b. Turn off the radio, wait approximately 3 seconds and turn the radio back on; this will reset the radio.

Policy #: 911- 005.6: Emergency Button Activation and Reset

As the senior officer/department for my agency, I hereby acknowledge that the DEDIR System users under my command and/or authority have received and been trained on DuPage ETSB Policy #911-005.6: Emergency Button Activation and Reset.

In addition, going forward, this agency will:

1. On an annual basis review and train on DuPage ETSB Policy #911-005.6: Emergency Button Activation and Reset.
2. Provide a copy of this form annually when training of subscriber users has been complete, including a roster of users using ETSB911@dupagecounty.gov the main DuPage ETSB email.

I understand that the conditions set forth above have been implemented to ensure first responder safety and DEDIR System standardization.

Goal:

It is the goal of the Emergency Telephone System Board of DuPage County (DuPage ETSB) to provide one seamless method of interoperable communication for use by agencies on [DEDIRSDEDIR System](#) for non-member agencies.

Scope:

This policy shall apply to all Public Safety Answering Points (PSAPs) in the DuPage ETSB 9-1-1 System, including all Telecommunicators and other employees of the PSAP, user agencies or DuPage ETSB staff, contracted vendors or other authorized agents, [DEDIRSDEDIR System](#) users and agencies receiving approval to access [DEDIRSDEDIR System](#) talk groups.

I. Policy Statement

DuPage ETSB leases a portion of the Motorola Solutions, Inc. [STARCOMMSTARCOM21](#) network in Illinois as an integrated component of its emergency dispatch telephone system. The system permits communication between telecommunicators and the first responding personnel they dispatch in response to calls placed to 9-1-1. The system also permits personnel from public safety agencies throughout the County to communicate with each other during emergency joint response situations.

To achieve seamless interoperable communication, standardization of operation and naming conventions are required to ensure that first responders can effectively operate subscriber units while on duty but especially during critical, active incidents when speed and accuracy are critical.

Emergency Telephone System Board Of DuPage County Policy and Procedures

As defined in Policy #: 911- 005.5, a “Talk group” is the term given to assigned groups on a trunked radio system. Unlike a conventional radio which assigns users a certain frequency, a trunk system takes a number of frequencies allocated to the system. The control channel then coordinates the system so talk groups can share these frequencies seamlessly. The purpose is to dramatically increase bandwidth.

Policy 911- 005.6 shall deal specifically with the use of the emergency button on the subscriber unit.

~~The PSAPs shall establish operational policies for reacting to emergency activations as directed by their respective governing/advisory bodies. The policies will be published and accessible to surrounding PSAPs.~~

II. Emergency Button

DEDIRSEDIR System utilizes two radio technologies, digital trunked and conventional simplex.

This procedure describes the function of and the appropriate use for the emergency button on DEDIR System portable radios. The objective is the proper use of the emergency button as well as a uniform, predictable, communicated, course of action by all DuPage County PSAPs and field personnel. It is important to note that the emergency button will operate on trunked talk groups, as well on conventional channels, although those channels might not have the equipment in place to monitor this activity. It should be noted the operation of the radio may differ (even slightly) when the emergency button is activated in the STARCOM21 (trunked) mode and the conventional mode.

III. Trunked Talk Groups

- a. The emergency button is used:
 1. To send an emergency notification when field personnel are in distress, or
 2. When the user is unable to transmit a verbal emergency message due to heavy radio traffic.
- b. Pressing the Emergency Button on a STARCOM21 Talk group:
 1. Emergency button activation will display the 6 digit radio identification number, alias name (e.g. ADSN CHF 100) and the talk group name on the radio consoles.
 2. The affected user’s radio will flash “EMERGENCY” on the radio’s display screen.
 3. The affected user that activated his or her emergency button will have priority over any other radio transmitting on the same talk group.
 4. During this time, the radio speaker will remain active, meaning affiliated subscriber units will hear all the radio traffic.
 5. The policy of wearing an earpiece will be dictated by the officers jurisdiction.

IV. Conventional Channels

- a. The emergency button is used:
 1. To send an emergency notification when field personnel are in distress.
- b. Pressing the Emergency Button on a conventional channel:

Emergency Telephone System Board Of DuPage County Policy and Procedures

1. Emergency button activation will display a 4 digit radio identification number and the frequency name on radio consoles that have that frequency. For example, a dispatch console may display an emergency for primary fire dispatch frequency, but not for fire ground red if that frequency is not monitored by the console.
2. The affected user's radio will flash "EMERGENCY" on the radio's display screen.
3. Once the affected user pushes the Push-to-talk (PTT), some radios (depending on the model) will be able to decode the emergency signal. They might be able to convert the 4 digit radio ID to an alias name if they have the current aliases programmed in their radio.
4. The affected user that activated his or her emergency button will be competing with any other radio transmitting on the same channel.

V. Actions to be taken upon receipt of an Emergency Button activation

- a. The assigned Telecommunicator for a monitored talk group or channel will transmit "William 1 (for instance), you have an E1," (or similar procedure that the PSAP has established for checking the status of a unit). If the alarm is for a non-monitored talk group, any console Telecommunicator can pull up the alarm window and handle the alarm. The level of activity at the communications center will determine which Telecommunicator handles non-monitored talk group alarms.
- b. The Telecommunicator should ~~hold the air and~~ attempt to contact the affected user (Police officer, firefighter, or other user). If the user that has activated his/her alarm cannot be reached over the radio after two (2) attempts, the Telecommunicator shall immediately dispatch backup if the location is known, and notify the Watch Commander/Shift Supervisor/Incident Commander. The Watch Commander/Shift Supervisor/Incident Commander shall make every effort to contact the affected person by any means necessary. This action shall be taken whether the user is believed to be on duty or not.
- c. When the PSAP is notified of emergency button activation from a radio belonging to one of their assigned units currently working with an outside PSAP, the home PSAP will immediately advise the outside PSAP of the emergency button activation. The outside PSAP will advise the home PSAP when the activation has been resolved.
- d. All units assigned to a channel which experiences s an emergency button activation shall remain off the radio, except for emergency communications, until the activation is resolved. ~~If an alternate frequency has been designated by agency policy, all non-affected units and PSAPs shall switch to the alternate frequency leaving the affected unit and PSAP on the original frequency.~~
- e. Once the affected user has been successfully contacted by the Telecommunicator, the affected user shall respond and include the word "**ACCIDENTAL**" in his or her response. If the affected user does not use the word "**ACCIDENTAL**," the Telecommunicator should assume that the emergency activation is valid and immediately dispatch backup and alert the Watch Commander/Shift Supervisor/Incident Commander ~~who will coordinate the response to the distress call.~~ If the user provides a response which in any way indicates that the signal was

Emergency Telephone System Board Of DuPage County Policy and Procedures

“**ACCIDENTAL**,” (without having to remember the specific phraseology), the Telecommunicator shall announce that the activation is accidental and clear the alarm from the console screen.

- f. If the location of the affected user is not known, the Telecommunicator shall immediately announce the affected user’s alarm activation and request that any information about his or her last activity or location be relayed to the PSAP.
- g. Verification activities may vary from agency to agency, but after an activation, the supervisor or his or her designee should confer with the affected user to confirm that he or she is safe.
- h. Agencies should establish similar policies for field units operating on conventional and/or tactical channels which might not be monitored by dispatch. In these cases, the Watch Commander/ Shift Supervisor/Incident Commander is responsible for the activities that would have been handled by the PSAP.

Exigent or Active Situations:

i. Exigent or Active Situations

1. PSAP: Any of the above steps may be accelerated or skipped if the Telecommunicator immediately believes the activation is valid based on all available information. In that case, the Telecommunicator will take any actions believed necessary to assist the officer in need.
1. Agency: This policy notwithstanding, an agency’s command staff or scene commander agencies may develop their own policies regarding request accelerated or skipped steps from the above procedure based emergency activations due to local or acute factors requiring a change and will notify the PSAP/Telecommunicator of such change.
- 3.

In either instance, such changes will be deemed temporary to an event or situation and the agency shall rescind the changes and return to the procedural steps at the conclusion of the event or when the threat causing the change has diminished or ceased. Changes may be made to the procedure.

VI. Resetting the Emergency Button Activation

After activation of the emergency button on the APEX radio, the user must reset the button activation, which can be accomplished on one of two ways:

- a. The operator can push and hold the orange emergency button for approximately 3 seconds; he or she will hear a tone and the emergency button will reset or
- b. Turn off the radio, wait approximately 3 seconds and turn the radio back on; this will reset the radio.

Agenda Date: 7/8/2026

Agenda #: 8.B.2.

RESOLUTION TO APPROVE ACCESS TO THE DU PAGE EMERGENCY DISPATCH INTEROPERABLE RADIO SYSTEM TALKGROUPS PURSUANT TO POLICY 911-005.2: ACCESS TO THE DU PAGE EMERGENCY DISPATCH INTEROPERABLE RADIO SYSTEM (DEDIR SYSTEM), AS REQUESTED BY DUPAGE PUBLIC SAFETY COMMUNICATIONS (DU-COMM)

WHEREAS, the DuPage County Emergency Telephone System Board (“DU PAGE ETSB”) is an emergency telephone system board, established pursuant to Section 15.4 of the Local Government Emergency Telephone System Act, 50 ILCS 750/15.4 (“Act”); and

WHEREAS, the DU PAGE ETSB is authorized and empowered, pursuant to Section 15.4 (b) of the Act to plan, implement, upgrade, and maintain an Emergency 9-1-1 System for citizens of the County of DuPage and portions of Cook, Kane and Will counties; and

WHEREAS, the DU PAGE ETSB DuPage Emergency Dispatch Interoperable Radio System (“DEDIR System”) was implemented to provide Emergency 9-1-1 radio communication services through STARCOM21 Site 1 for secure and accessible communications for its member users; and

WHEREAS, DuPage Public Safety Communications (DU-COMM) has requested access to certain talkgroups of the DEDIR System pursuant to Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System), and in the spirit of public safety and first responder interoperability; and

WHEREAS, DU-COMM’s application has been recommended for approval by the DU PAGE ETSB Policy Advisory Committee (“PAC”) in accordance with policy; and

WHEREAS, the DU PAGE ETS Board has received and reviewed the application of DU-COMM detailed in Attachment A of this resolution.

NOW, THEREFORE BE IT RESOLVED, that DuPage ETSB hereby grants DuPage Public Safety Communications (DU-COMM) access to the DEDIR System by pursuant to ETS-R-0013-18, Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System), by this resolution.

JEAN KACZMAREK, COUNTY CLERK

June 16, 2026

Ms. Linda Zerwin
Executive Director
DuPage ETSB
420 N. County Farm Road
Wheaton, IL 60187

RE: DU-COMM DEDIR System Application

Director Zerwin,

On May 15, 2025, DU-COMM was approved to become a user of STARCOM21 network. This milestone enhances our ability to provide reliable, interoperable communication between operational staff, support staff, member agencies, and the statewide partners with whom DU-COMM may interface with.

To allow certain DU-COMM staff the ability to interface with our member agencies on STARCOM21, we are submitting our application for access to the DEDIR System talkgroups allocated to the ETSB by STARCOM21.

This agreement provides DU-COMM operational staff access in the event of a critical incident occurring on one of DU-COMM's fourteen (14) dispatch channels. It ensures operations staff can oversee the situation, assist telecommunicators, and respond to assigned duties.

We appreciate your consideration of this request and your continued support in advancing public safety communications for DuPage County.

Sincerely,

Jessica Robb, ENP
Executive Director
