

- D. If the animal confined is determined not to be infected with rabies at the end of the period of confinement it shall be released to the owner of such animal upon presenting proof of a current rabies inoculation certificate for cats and dogs and payment of any fee, charge or penalty including any fee for veterinary services. If the animal is not redeemed by the owner, the animal may be disposed of in accordance with Illinois State Law.
- E. Whenever a case of rabies has occurred in a locality, or whenever the proper officials of a government unit are apprehensive of the spread of rabies, the administrator shall act as directed by the rules and regulations of the Illinois Department of Agriculture.

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020)

5-7: STRAY ANIMALS.

- A. Whenever an animal control warden observes or is informed that an animal is roaming freely and not under the control of the owner, the animal shall be immediately apprehended and impounded. Any person may apprehend a stray animal and inform the local police or the administrator so that the stray animal can be impounded.
 - 1. All stray animals impounded shall have a record. The record shall include the owner's name, address and telephone number, if known; species or breed, color, sex and physical condition of the animal; license or tag number, if known; and the time and date impounded.
 - 2. When owners of stray animals impounded are known, notice shall be given by mail to the last known address. Stray animals shall not be held less than seven (7) business days, with the exception of feral cats which shall not be held less than three (3) days. All reclaimed dogs and cats shall be implanted with a microchip approved by the administrator prior to release. All unclaimed apprehended animals shall be placed for adoption, humanely euthanized or otherwise disposed of in accordance with the Illinois state law.
 - 3. The stray animal owner is responsible for all costs relating to the apprehension and impoundment of the animal found not under control.
 - 4. Owners of any dog or cat adopted from DuPage County Animal Services shall have the animal examined by a veterinarian within ~~seven-fourteen (7) (14)~~ days of adoption and receive any necessary vaccinations and medications. The adopting owner shall not sell the animal nor use it in any way as a source of revenue. The adopting owner shall not give away or dispose of in any manner the animal within one (1) year of the date of adoption without the approval of the administrator.

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020)

5-8: RESTRICTIONS ON CONTROLLED CATS AND DOGS.

- A. Cats and dogs shall not be permitted to enter any place where food is processed for human consumption. Guide dogs and guard dogs used in food establishments are exempt from this restriction.
- B. Cats and dogs, except guide dogs, shall not be present at or upon any school premises, public playground or public swimming pool unless official written permission has been granted by the public agency or its agent owning the property. At no time shall cats and dogs be permitted in any sand box or sand piles in which children play.

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020)

on the DuPage County Rabies Observation and Confinement of Biting Animal Form. The form shall be mailed, emailed, or faxed to DuPage County Animal Services within twenty-four (24) hours of the examination.

- C. **Fifth day examination:** A fifth day examination is required for a biting animal not current on its inoculation for rabies. Veterinarians shall indicate on the DuPage County Rabies Observation and Confinement Release of Biting Animal Form if the biting animal owner did not return the not currently inoculated animal for examination on the day as directed in the rabies observation home confinement agreement with the notation "Failed to Return" placed thereon. The form shall be mailed, emailed, or faxed to DuPage County Animal Services within twenty-four (24) hours of the fifth day examination date.
- D. **Final veterinary examination; failure to return:** Ten (10) days after the bite, if known, or ten (10) days after the first examination, the veterinarian shall complete the DuPage County Rabies Observation and Confinement of Animal Bite Form. If an owner of a biting animal fails to return on the final day of the rabies observation period, the veterinarian shall return the signed form with the notation "Failed to Return" placed thereon. The form shall be mailed, emailed, or faxed to DuPage County Animal Services within twenty-four (24) hours of the final exam/release date.

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020; Ord. No. AS-O-0047-21 , 6-22-2021)

5-33: SPECIAL PROCEDURES FOR GROUPS OF UNUSUAL BITING ANIMALS.

- A. **Family bites; family defined:** Owners of animals capable of transmitting rabies that have bitten members of the immediate family are encouraged to submit the biting animal for veterinary examination. Immediate family is defined as mother, father, children, husband or wife residing at the same address. The biting animal shall be confined so as not to expose people or other animals.
- B. **Caged animals:** Owners of caged rabbits, guinea pigs, hamsters, gerbils, rats and mice that have been owned over thirty (30) days shall not be required to obtain a veterinary examination when their caged animal has bitten a person, but shall report the health of the biting animal by telephone or in person to the DuPage County Animal Services on the first and tenth day following the bite.
- C. **Guard dogs:** Owners of guard dogs that have bitten a person in performance of guard duty and have been officially registered shall not be required to obtain a veterinary examination of the dog, but shall report the health of the biting animal by telephone or in person to the DuPage County Animal Services on the first and tenth days following the bite.
- D. **Large animals:** Cattle, sheep, swine and horses that have bitten a person shall be confined to the owner's property and examined by a veterinarian on the first and tenth days after a bite.
- E. **Stray animals:** Stray animals that have bitten a person shall be apprehended and held for ten (10) days or less. When the biting stray animal is not held for ten (10) days, it shall be humanely euthanized unless otherwise directed by the administrator.
- F. **Death before confinement period expires:** An animal that has bitten a person and dies, is accidentally killed or is humanely euthanized before the tenth day following the bite shall be reported to DuPage County Animal Services to determine if~~have~~ the head requires removed removal and sent transport to the local public health laboratory for rabies virus analysis (FRA test).

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020)

5-34: GUARD DOG REGISTRATION CERTIFICATES.

- A. **Eligibility; application form:** Owners of dogs used in commercial business for the purpose of patrol and protection may send a request to the DuPage County Animal Services for an application form for a "guard
-

4. Distemper inoculation fee for cats and dogs.

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020)

5-38 through 5-50: RESERVED.

ARTICLE III. ANIMAL BITES

5-51: GUIDELINES FOR OWNERS OF BITING ANIMALS.

- A. **Law enforcement; legal requirements:** The DuPage County Animal Services is the organization that is given the authority to enforce the laws relating to biting animals. The basis for these laws is protection of the health of the bite victim through the control of rabies. The health of the biting animal is determined by an examination and through the observation of the biting animal by a veterinarian for ten (10) days following the bite.

A more direct and effective method of determining rabies in the biting animal is through the examination of the brain of the killed animal. This method is less than pleasing to most animal owners.

- B. **Report each bite:** Owners of biting animals, regardless of the reason for the bite, must recognize that all bites must be reported to protect the bite victim's health. All confirmed cases of rabies in man, with one (1) exception, have been fatal. All bite report forms are forwarded to the DuPage County Animal Services. When the department receives an animal bite report form without the additional veterinary health evaluation of the biting animal, the biting animal owner is contacted by telephone or by mail and informed of this requirement.
- C. **Exceptions:** Owners of biting caged rabbits, hamsters, guinea pigs, gerbils, rats and mice (if ownership can be established over thirty (30) days' duration) and biting registered guard dogs are only required to call the DuPage County Animal Services on the first and tenth day after the bite and report the health of the biting animal.
- D. **Death of biting animal:** Whenever a biting animal dies within ten (10) days of the bite, the head of the animal must be submitted to the local public health laboratory for rabies virus analysis. If the death of a biting animal other than a dog or a cat occurs for any unspecified reason within thirty (30) days of a bite, it is advisable for the animal owner to submit the animal head for laboratory evaluation.
- E. **Court appearances:** Owners of biting animals shall be required to appear in court for violation of the law whenever any of the following occur:
 1. If the biting animal is not currently vaccinated against rabies.
 2. If the biting animal is allowed to bite a person when under the ten-day home confinement.
 3. If the biting animal is not submitted for the required veterinary examination after the bite.

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020)

5-52: GUIDELINES FOR BITE VICTIMS.

- A. **Home care of bite wounds; medical advice:** Awareness of the importance of the care of animal bite wounds will help prevent infection and rabies and relieve much of the anxiety about animal bites. It is essential that

all bite wounds receive immediate attention. An immediate thorough flushing of the wound with water while allowing the wound to bleed freely, followed by a scrubbing with soap or a good disinfectant agent will minimize serious side effects of a bite. Following the first aid treatment of the animal caused wound, medical advice should then be sought to determine the most effective final treatment.

- B. **Report all bites to local police; capture of the biting animal; scratches:** All bites (breaks in the skin) should be reported to the local police, but those bites caused by at large (stray) animals and high risk kinds (species) of wild animals, such as the skunk and bat, should be immediately reported to the local police while it is possible to capture the biting animal. Because of the risk involved, the at large (stray) or wild animal should be continually observed until it is captured by the local police or authorized officer. When a break in the skin is caused by an animal's nails or claws (scratch) without contamination by the animal's saliva, the police or other officer should be informed of this fact.
- C. **Reduce threat of rabies:** The threat of rabies to the life of the bite victim also will be minimized if the biting animal is captured and placed under observation of a veterinarian. The bite victim must recognize that the medical decision to administer antirabies injections (shots) is based mainly on these facts:
1. Capture and clinical evaluation of the health status of the biting animal by a veterinarian.
 2. Kind (species) of biting animal.
 3. Circumstances surrounding the biting incident.
 - a. Was the bite provoked?
 - b. Was the wound caused by the animal's nails or claws without contamination by the animal's saliva?

~~In addition the bite victim must understand that any break in the skin caused by an animal should not be regarded lightly. Death, except in one (1) instance, is the result of clinical rabies in persons.~~

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020)

5-53: GUIDELINES FOR MEDICAL DOCTORS AND ASSOCIATED MEDICAL PERSONNEL.

- A. **Requirement to report animal bites; contents of animal bite report form:** All medical personnel are required under the DuPage County Animal Services Ordinance to report all animal bites. Within DuPage County the animal bite incident is reported to the police or other authorized personnel in the area in which the biting animal owner lives. If the biting animal was a stray or wild animal, the bite report should be given to the police or other authorized personnel in the area in which the bite occurred. The animal bite report form requires this information:
1. Name, address and telephone number of the animal owner;
 2. Name, address and telephone number of the bite victim;
 3. Address ~~when~~ where the bite happened;
 4. Type, breed, sex and color of the biting animal;
 5. Rabies vaccination status of the biting animal including rabies vaccination tag number from the county where the animal resides;~~(DuPage County Rabies Vaccination Tag Number is necessary);~~
 6. ~~Community animal license number (not a DuPage County Requirement);~~
 - ~~76.~~ The name of the veterinarian who examined or will examine the biting animal;
 - ~~87.~~ Date the bite occurred;

~~98.~~ Notation if a ticket was issued for any violation, if known.

- B. **Rationale of treatment for bitten persons (as adapted from the U.S. Public Health Service):** Every exposure to possible rabies infection must be individually evaluated. Over five thousand (5,000) animal bites are reported each year in DuPage County. The following factors should be considered before antirabies treatment is initiated:
1. **Species of biting animal:** Carnivorous animals (within DuPage County - skunks, stray dogs and stray cats) and bats are more likely than other animals to be infected with rabies. Bites of rabbits, squirrels, hamsters, guinea pigs, gerbils, chipmunks, rats, mice or other rodents have never resulted in human rabies in the United States and almost never call for antirabies prophylaxis.
 2. **Circumstances of the biting incident:** An unprovoked attack is more likely to mean the animal is rabid. Bites inflicted on a person attempting to feed or handle an apparently healthy animal should generally be regarded as provoked.
 3. **Type of exposure:** Rabies is commonly transmitted by the inoculation of infectious saliva through the skin. The possibility that rabies infection will result from exposure to a rabid animal varies with the nature and extent of exposure. Two (2) categories of exposures should be considered:
 - a. Bite, any penetration of the skin; and
 - b. Nonbite; scratches, abrasions, open wounds or mucous membranes contaminated with saliva.
 4. **Vaccination status of the biting animal:** A properly immunized animal has only a small chance of developing rabies and transmitting the virus.
 5. **Presence of rabies in the area:** DuPage County is endemic for skunk and bat rabies. In most years cases are reported only in these species. However, within the County of DuPage only an occasional bat has been reported rabid. No human has died of rabies that was contracted within DuPage County.
- C. **Management of biting animal:** The DuPage County Department Animal Services is the department that administers the DuPage County Animal Services Ordinance. Each animal, except as noted below, that bites a person must be examined within twenty-four (24) hours of the bite and placed under observation of a veterinarian for ten (10) days. Owners of laboratory type animal pets (rabbits, guinea pigs, hamsters, gerbils, rats and mice) owned over thirty (30) days and registered guard dogs are required to call the DuPage County Animal Services on the first and tenth day following a bite. Strays or unwanted cats or dogs may be killed immediately and their heads submitted for rabies examination by fluorescent microscopy. Signs of rabies in wild animals cannot be interpreted reliably; therefore, any wild animal that bites or scratches a person shall be killed at once (without unnecessary damage to the head) and the brain examined for evidence of rabies.
- D. **Rabies case procedure:** Whenever a biting animal develops signs suggestive of rabies, the animal will be killed and the head removed and taken to the Illinois Public Health Laboratory or the Chicago Public Health Laboratory. In all cases positive for rabies the medical personnel or health facility reporting the bite will immediately be notified through a telephone call from the administrator.
- E. **Post exposure prophylaxis:** The latest recommendations for post exposure prophylaxis published by the United States public health service advisory committee on immunization practices is found in the "Morbidity And Mortality Weekly Report" of the U.S. Department of Health, Education and Welfare. The report is dated 31 December 1976, volume 25, number 51. If questions persist after reviewing these recommendations, consultation can be sought at the DuPage County Health Department.
- F. **Local treatment of wounds:** Immediate and thorough local treatment of all bite wounds and scratches is perhaps the most effective rabies preventive. The wound should be thoroughly cleansed with soap and water. When the wound treatment is under the direction of a physician, tetanus prophylaxis and control of bacterial infection should be given as indicated. Experimentally, the incidence of rabies in animals can be markedly reduced with local therapy alone.

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020)

5-54: GUIDELINES FOR POLICE PERSONNEL.

- A. **Method of enforcement:** All police officers are sworn to uphold all federal, state and local laws. Within DuPage County the local police are usually designated to investigate each animal bite. In some communities special officers are assigned this duty.
- B. **Purpose of animal bite reports:** The purpose of the animal bite investigation is to determine if a bitten person has been exposed to rabies. The question of rabies exposure can best and most quickly be determined by killing the biting animal, removing the head and submitting it to an approved public health laboratory for rabies virus analysis. Killing of all biting animals, particularly domestic pets, is not generally acceptable. Therefore, the biting animal that is not killed and checked at the laboratory must be examined by a veterinarian within twenty-four (24) hours of the bite.
- C. **Animal bite procedure:**
 - 1. Assist the bite victim to a medical facility or advise the victim to seek medical advice.
 - 2. Inform the owners of biting animals that the animal must be examined by a veterinarian within twenty-four (24) hours of the bite.
 - 3. Capture or keep under continuous surveillance all wild animals and all other biting animals that are at large (stray).
 - 4. Complete and mail within twenty-four (24) hours an animal bite report form to the DuPage Health Department and to the DuPage County Animal Services.
- D. **Contents of an animal bite report form:** Information required to complete the animal bite report form is as follows:
 - 1. Name, address and telephone number of the animal owner;
 - 2. Name, address and telephone number of the bite victim;
 - 3. Address ~~when~~ where the bite happened;
 - 4. Type, breed, sex and color of the biting animal;
 - 5. Rabies vaccination status of the biting animal including rabies vaccination tag number from the county where the animal resides; (DuPage County Rabies Vaccination Tag Number is necessary);
 - ~~6. Community animal license number (not a DuPage County requirement);~~
 - ~~7.~~ The name of the veterinarian who examined or will examine the biting animal;
 - ~~8.~~ Date the bite occurred;
 - ~~9.~~ Notation if a ticket was issued for any violation, if known.
- E. **Facts about animal bites and rabies:** All animal bites involving a person should be reported, but this breakdown into high risk bites and low risk bites is intended to aid the police officer in determining the need for animal capture and the urgency for rabies treatment of a bitten person.
 - 1. **High risk bites:** (Victims commonly receive shots.)
 - a. Stray (at large) animals where ownership is not known.
 - b. Wild animals. Within DuPage County the bat and the skunk are the species most often involved.
 - c. Sick animals not under the care of a veterinarian.

- d. Any pet animal that attacks a person for no known reason (unprovoked bite).
2. **Low risk bites:** (Victims rarely receive shots.)
- a. Pet animals that bite as a result of an action of a person (provoked bite.)
 - b. Bites inflicted by rabbits, squirrels, guinea pigs, hamsters, gerbils, chipmunks, rats, mice and other rodents. Within the United States human rabies has never resulted from a bite from these animals.
 - c. Bites that in fact are wounds caused by the animal's claws or nails (scratches) without contamination by the animal's saliva.

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020)

5-55: GUIDELINES FOR VETERINARIANS.

- A. **Vet exam required; exceptions:** All biting animals except those listed below must receive a veterinary examination within twenty-four (24) hours of a bite. Guard dogs registered with DuPage County Animal Services and laboratory type pet animals (rabbits, hamsters, guinea pigs, gerbils, rats and mice) owned over thirty (30) days are exempt from veterinary examination, but their owners must contact the department within twenty-four (24) hours after the bite.
- B. **Procedure for rabies observation home confinement agreement; special procedures:**
- 1. Instruct the animal owner to read the "rabies observation home confinement agreement."
 - 2. Complete the forms.
 - ~~3. Have owners sign the "rabies observation confinement notice."~~
 - 43. Mail or email the rabies observation confinement notice within twenty-four (24) hours after the time of the examination.
 - 54. Mail or email the "rabies observation release notice" within twenty-four (24) hours of the date listed as the tenth day on the "rabies observation confinement agreement."
 - 65. Details regarding special procedures are incorporated in sections 5-32 and 5-33 of the DuPage County Animal Services Ordinance.
- C. **Rabies in animals:** Rabies in animals is sporadic and found mainly in bats. Whenever wild animals lose their natural fear of people in the wild state and are involved in an animal or person bite, rabies should be considered a possibility. Specific symptoms of rabies in wild animals are varied so that there is not one (1) reliable symptom to assist in the diagnosis. All biting wild animals should be killed, the head removed and sent to the public health laboratory for rabies virus analysis.

Symptoms of rabies in dogs and cats are more reliable and include the following: incoordination, lethargy, dilated pupils, futile attempts to eat and drink, excessive salivation with froth accumulation about the mouth, change in voice, change in disposition, restlessness, progressive aggression, paralysis and death. When rabies transmission is possible because of a bite, in most cases, the cat or dog is showing symptoms one (1) or two (2) days after the bite and is dead by the fifth day.

(2005 Code; Ord. No. AS-O-0094-20 , 11-24-2020)

5-56 through 5-70: RESERVED.

ARTICLE IV. FEES

5-71: FEES.

DEFINITIONS.

Financial hardship is defined as a circumstance where an individual's household annual income falls within one hundred twenty-five percent (125%) of the current year's national poverty level per the U.S. Department of Health and Human Services' guidelines, or the individual is receiving governmental, need-based assistance.

The following fees and charges for services of Animal Services shall apply:

GENERAL SERVICES:

1. Registration:

1-Year Registration tag per altered canine or feline 15.00
1-Year Registration tag per unaltered canine or feline \$40.00
3-Year Registration tag per altered canine or feline 40.00
3-Year Registration tag per unaltered canine or feline 90.00
State of Illinois Anna's Law Differential for intact animals (already included in above) 10.00
Registration tag, new resident with current out of county 6.00
Replacement tag 5.00

2. Impoundment:

Impoundment penalty per animal with valid identification 75.00
Impoundment penalty per animal without valid identification 100.00
Impoundment out of county fee with or without valid identification 125.00
Subsequent occurrence impoundment fee - within one year 100.00
Board for each impounded canine or feline per day 15.00
Board for each impounded other animal per day 15.00
Pick up per animal during hours 75.00
Pick up per animal after hours 100.00
Vaccination for distemper per animal 15.00
Vaccination for kennel cough complex per animal 15.00
Vaccination for rabies per animal 15.00
Other miscellaneous vaccination per dosage 15.00
Microchip implant for impounded animal 10.00
Microchip registration fee for impounded animal 10.00
Reclaim per feral/un-socialized feline Fee waived

EXHIBIT A

Public health euthanasia & biohazard disposal fee per animal (under 30 lbs.) 150.00

Public health euthanasia & biohazard disposal fee per animal (over 30 lbs.) 200.00

~~3. Euthanasia (no longer provide this service):~~

~~Euthanasia per dog, cat or other animal (under 30 lbs.) n/a~~

~~Euthanasia per dog, cat or other animal (over 30 lbs.) n/a~~

~~Euthanasia per animal, non-resident of County n/a~~

~~Euthanasia for small animals (rabbits, guinea pigs, hamsters, etc.) n/a~~

43. Adoption:

Adoption per feline <6 months of age 100.00*

Adoption per feline ≥6 months to 10 years of age 50.00*

Adoption per feline >10 years of age or older 1.00*

Adoption for two felines <6 months of age adopted together 150.00*

Adoption per canine <6 months of age ~~200.00*~~ \$250.00*

Adoption per canine ≥6 months to 6 years of age 100.00*

Adoption per canine >6 years of age or older 50.00*

Vaccination adoption animals See *

Microchip implant for non-impounded adoption animal See *

Adoption per small animal (no vaccination or microchip required; fee excludes ferrets, rabbits, exotic birds, reptiles) 5.00

Adoption per ferret, exotic bird, reptile 25.00

Adoption per rabbit 40.00

Adoption any feline >10 years or canine >6 years for senior citizen (65 and over, 1 per year) 1.00

Adoption per feral/un-socialized feline Fee Waived

Adoption per any animal classified as hospice only Fee Waived

Microchip registration fee (dogs & cats, add to above adoption fees incl'd 65+) 10.00

54. Relinquishment:

Surrender fee per ~~altered~~ canine or feline - county resident ~~25.00~~ 50.00

~~Surrender fee per unaltered canine or feline - county resident 35.00~~

Surrender fee per ~~altered~~ canine, ~~altered~~ feline or any other animal - non-county resident ~~50.00~~ 100.00

~~Surrender fee per altered canine, unaltered feline - non-county resident 60.00~~

Surrender fee per rabbits, ferrets, exotic birds, reptiles ~~10.00~~ 25.00

Surrender fee all other small animals ~~5.00~~ 10.00

Surrender fee per canine or feline under eight weeks 5.00

65. Microchipping (misc.):

Microchip implant for non-impounded animal for the general public 10.00

Microchip registration fee for non-impounded animal for the general public 10.00

~~76.~~ Rabies observation:

Rabies observation per animal, per exam 25.00

Rabies observation per canine (reclaimed animal - resident) 250.00

Rabies observation per canine (reclaimed animal - non-resident) 300.00

Rabies observation per feline (reclaimed animal - resident) 235.00

Rabies observation per feline (reclaimed animal - non-resident) 285.00

Rabies observation under 30 lbs. (surrendered animal) 150.00

Rabies observation over 30 lbs. (surrendered animal) 175.00

~~87.~~ Penalty:

General violation penalty 175.00

*Adoption payment may include any applicable microchip implant fee, vaccination fee(s), and/or rabies registration fee.

MUNICIPALITIES AND VETERINARY SERVICES

~~98.~~ ACO assists:

Pick-up per animal 75.00

Pick-up charge for group of small animals contained in single housing structure (excluding ferrets, rabbits, exotic birds, and reptiles) 75.00

Police department assist of 1 Animal Control Officer during business hours for up to 2 hours (M through F between 8:00 a.m. and 4:30 p.m.) 100.00

Additional Animal Control Officer during business hours for up to 2 hours (M through F between 8:00 a.m. and 4:30 p.m.) 25.00

Hourly rate for police department assist during business hours over 2 hours (per ACO/per hour, M through F between 8:00 a.m. and 4:30 p.m.) 25.00

Police department assist of 1 Animal Control Officer after hours for up to 2 hours (weekends, holidays and outside hours referenced above) 200.00

Additional Animal Control Officer after business hours for up to 2 hours (per ACO/per hour, weekends, holidays and outside hours referenced above) 50.00

Hourly rate for police department assist after business hours over 2 hours (per ACO/per hour, weekends, holidays and outside hours referenced above) 50.00

Tranquilized animal (non-euthanasia) 50.00

Cancelled calls during hours (once ACO is in the van, en route to call) 50.00

Cancelled calls after hours (once ACO is in the van, en route to call) 100.00

~~109.~~ Stray holding:

Boarding per animal, per day 15.00

Vaccination for distemper per dog or cat 15.00

Vaccination for kennel cough complex per dog 15.00

Vaccination for rabies 15.00

Other miscellaneous vaccinations per dosage 15.00

Euthanasia ~~per canine, feline, or other animal~~ & mass cremation under 30 lbs. 75.00

Euthanasia ~~per canine, feline, or other animal~~ & mass cremation over 30 lbs. 100.00

1110. Rabies observation and specimen:

Processing of any animal requiring rabies testing (already prepped) 125.00

Processing of any animal requiring rabies testing (requiring specimen and prep) 200.00

Specimen pick-up (charged in addition to processing fee)50.00

Rabies observation (includes euthanasia fee) under 30 lbs. 225.00

Rabies observation (includes euthanasia fee) over 30 lbs. 250.00

1211. Deceased on arrival:

Drop off D.O.A. canine, feline or other small animal 0-75 lbs. 25.00

Drop off D.O.A. canine or similar domestic large animal 76-125 lbs. 50.00

Drop off D.O.A. deer or similar large animal 125 lbs or larger 75.00

1312. Vet Services for Licensed Rescue and Animal Welfare Agencies:

Feral feline spay or neuter (in DuPage County) 30.00*

Feral feline spay or neuter (out of County) 60.00*

Friendly feline spay or neuter 30.00*

Canine spay (based on weight) 60.00 to 85.00*

Canine neuter (based on weight) 45.00 to 60.00*

Cryptorchid canine or feline neuter 10.00

Pregnant or In-Heat canine or feline spay 10.00

IV Fluids 10.00

Special surgical (i.e. tail amputation, mass removal, hernia repair) 45.00

Feline shave/comb matted fur 5.00

Dental routine/cleaning 100.00

Dental minor ~~50.00~~ 125.00

Dental major ~~100.00~~ 150.00

Pain medications/anti-inflammatory 30.00

Antibiotic (Convenia) 15.00

Microchip implant and optional registration 10.00

FIV/FELV snap 20.00

Vaccination FVRCP ~~15.00~~10.00

Vaccination rabies 15.00

Euthanasia & mass cremation (under 30 lbs.) ~~75.00~~25.00

Euthanasia & mass cremation (over 30 lbs.)~~100.00~~50.00

Basic examination 25.00

Sedation 40.00

Anesthesia (based on time)40.00 to 100.00

* Procedures include eartipping (ferals only), dewormer, revolution, cleaning of ears and wounds.

1413. Authority to reduce or waive fees: The Administrator, or his or her designee, shall have the power to temporarily reduce or waive a fee located in this section, including, but not limited to the following reasons:

- (a) An adoption program sponsored by the Animal Services Department, promoted to the public, intended to adopt as many animals that are currently the property of the County of DuPage within a predetermined specific period of time (example: "Clear the Shelter" event);
- (b) A microchip program sponsored by the Animal Services Department, promoted to the public, intended to microchip many animals owned by the public within a predetermined specific period of time;
- (c) A vaccine program sponsored by the Animal Services Department, promoted to the public, intended to vaccinate many animals owned by the public within a predetermined specific period of time;
- (d) Other veterinary wellness initiatives sponsored by the Animal Services Department and promoted to the public at large.
- (e) The individual certifies that they are experiencing financial hardship.

Such temporary reduction or waiver shall be reported to Committee Meetings of the County Board.
