Grantee certifies that it will not use and has not used Grant Funds to influence or attempt to influence an officer or employee of any government agency or a member or employee of the State or federal legislature in connection with the awarding of any agreement, the making of any grant, the making of any loan, the entering into of any cooperative agreement, or the extension, continuation, renewal, amendment or modification of any agreement, grant, loan or cooperative agreement. Additionally, Grantee certifies that it has filed the required certification under the Byrd Anti-Lobbying Amendment (31 USC 1352), if applicable.

8.2. Federal Form LLL. If any federal funds, other than federally-appropriated funds, were paid or will be paid to any person for influencing or attempting to influence any of the above persons in connection with this Agreement, the undersigned must also complete and submit Federal Form LLL, Disclosure of Lobbying Activities Form, in accordance with its instructions.

8.3. Lobbying Costs. Grantee certifies that it is in compliance with the restrictions on lobbying set forth in 2 CFR 200.450. For any Indirect Costs associated with this Agreement, total lobbying costs must be separately identified in the Program Budget, and thereafter treated as other Unallowable Costs.

8.4. Procurement Lobbying. Grantee warrants and certifies that it and, to the best of its knowledge, its subrecipients have complied and will comply with Illinois Executive Order No. 1 (2007) (EO 1-2007). EO 1-2007 generally prohibits grantees and subcontractors from hiring the then-serving Governor's family members to lobby procurement activities of the State, or any other unit of government in Illinois including local governments, if that procurement may result in a contract valued at over \$25,000. This prohibition also applies to hiring for that same purpose any former State employee who had procurement authority at any time during the one-year period preceding the procurement lobbying activity.

8.5. Subawards. Grantee must include the language of this ARTICLE in the award documents for any subawards made pursuant to this Award at all tiers. Grantee must maintain for three (3) years from the date of submission of the final expenditure report, adequate books, all financial records and, supporting documents, statistical records, and all other records pertinent to this Award, adequate to comply with 2 CFR 200.334, unless a different retention period is specified in 2 CFR 200.334, 44 Ill. Admin. Code 7000.430(a) and (b) or **PART TWO** or **PART THREE**. If any litigation, claim or audit is started before the expiration of the retention period, the records must be retained until all litigation, claims or audit exceptions involving the records have been resolved and final action taken.

9.2. Accessibility of Records. Grantee, in compliance with 2 CFR 200.337 and 44 Ill. Admin.

Code 7000.430(f), must make books, records, related papers, supporting documentation and personnel relevant to this Agreement available to authorized Grantor representatives, the Illinois Auditor General, Illinois Attorney General, any Executive Inspector General, Grantor's Inspector General, federal authorities, any person identified in 2 CFR 200.337, and any other person as may be authorized by Grantor (including auditors), by the State of Illinois or by federal statute. Grantee must cooperate fully in any such audit or inquiry.

9.3. Failure to Maintain Books and Records. Failure to maintain adequate books, records and supporting documentation, as described in this ARTICLE, will result in the disallowance of costs for which there is insufficient supporting documentation and also establishes a presumption in favor of the State for the recovery of any Grant Funds paid by the State under this Agreement for which adequate books, records and supporting documentation are not available to support disbursement.

9.4. Monitoring and Access to Information. Grantee must monitor its activities to assure compliance with applicable state and federal requirements and to assure its performance expectations are being achieved. (b) If an audit or review of Grantee occurs and results in adjustments after Grantee submits a Close-out Report, Grantee must submit a new financial Close-out Report based on audit adjustments, and immediately submit a refund to Grantor, if applicable. 2 CFR 200.345; 44 Ill. Admin. Code 7000.450.

10.3. Effect of Failure to Comply. Failure to comply with the reporting requirements in this Agreement may cause a delay or suspension of funding or require the return of improper payments or Unallowable Costs, and will be considered a material breach of this Agreement. Grantee's failure to comply with ARTICLE X, ARTICLE XI, or ARTICLE XVII will be considered prima facie evidence of a breach and may be admitted as such, without further proof, into evidence in an administrative proceeding before Grantor, or in any other legal proceeding.

Grantee should refer to the State Grantee Compliance Enforcement System for policy and consequences for failure to comply. 44 Ill. Admin. Code 7000.80.

Admin. Code 7000.440(b).

(a) Grantee's CYEFR must cover the same period as the audited financial statements, if required, and must be submitted in accordance with the audit schedule at 44 Ill. Admin. Code 7000.90. The due date of all required submissions set forth in this Paragraph is the earlier of (i) thirty (30) calendar days after receipt of the auditor's report(s) or (ii) nine (9) months after the end of Grantee's audit period.

(c) Financial Statement Audit. If, during its fiscal year, Grantee expends less than \$1,000,000 in federal Awards, Grantee is subject to the following audit requirements:

12.5. Performance of Audits. For those organizations required to submit an independent audit report, the audit must be conducted by the Illinois Auditor General (as required for certain governmental entities only), or a Certified Public Accountant or Certified Public Accounting Firm licensed in the State of Illinois or in accordance with Section 5.2 of the Illinois Public Accounting Act (225 ILCS 450/5.2). For all audits required to be performed subject to GAGAS or Generally Accepted Auditing Standards, Grantee must request and maintain on file a copy of the auditor's most recent peer review report and acceptance letter. Grantee must follow procedures prescribed by Grantor for the preparation and submission of audit reports and any related documents.

12.6. Delinquent Reports. When audit reports or financial statements required under this ARTICLE are prepared by the Illinois Auditor General, if they are not available by the above-specified due date, they must be provided to Grantor within thirty (30) days of becoming available. Grantee should refer to the State Grantee Compliance Enforcement System for the policy and consequences for late reporting. 44 Ill. Admin. Code 7000.80.

(b) If terminated by the Grantee, Grantee must include the reasons for such termination, the effective date, and, in the case of a partial termination, the portion to be terminated. If Grantor determines in the case of a partial termination that the reduced or modified portion of the Award will not accomplish the purposes for which the Award was made, Grantor may terminate the Agreement in its entirety. 2 CFR 200.340(a)(3).

(c) This Agreement may be terminated, in whole or in part, by Grantor:

(i) Pursuant to a funding failure under Paragraph 4.1;

representation in connection with the receipt of this or any Award; or

(iii) If the Award no longer effectuates the Program goals or agency priorities and if this termination is permitted in the terms and conditions of the Award, which must be detailed in Exhibit A, PART TWO or PART THREE.

13.2. Suspension. Grantor may suspend this Agreement, in whole or in part, pursuant to a funding failure under Paragraph 4.1 or if the Grantee fails to comply with terms and conditions of this or any Award. If suspension is due to Grantee's failure to comply, Grantor may withhold further payment and prohibit Grantee from incurring additional Obligations pending corrective action by Grantee or a decision to terminate this Agreement by Grantor. Grantor may allow necessary and proper costs that Grantee could not reasonably avoid during the period of suspension.

13.3. Non-compliance. If Grantee fails to comply with the U.S. Constitution, applicable statutes, regulations or the terms and conditions of this or any Award, Grantor may impose additional conditions on Grantee, as described in 2 CFR 200.208. If Grantor determines that non-compliance cannot be remedied by imposing additional conditions, Grantor may take one or more of the actions described in 2 CFR 200.339. The Parties must follow all Grantor policies and procedures regarding non-compliance, including, but not limited to, the procedures set forth in the State Grantee Compliance Enforcement System. 44 Ill. Admin. Code 7000.80 and 7000.260.

(b) Except as set forth in subparagraph (c), below, Grantee must not incur any costs or Obligations that require the use of Grant Funds after the effective date of a suspension or termination, and must cancel as many outstanding Obligations as possible.

(c) Costs to Grantee resulting from Obligations incurred by Grantee during a suspension or after termination of the Agreement are not allowable unless Grantor expressly authorizes them in the notice of suspension or termination or subsequently. However, Grantor may allow costs during a suspension or after termination if:

(i) The costs result from Obligations properly incurred before the effective date of suspension or termination, are not in anticipation of the suspension or termination, and the costs would be allowable if the Agreement was not suspended or terminated prematurely. 2 CFR 200.343.

13.6. Close-out of Terminated Agreements. If this Agreement is terminated, in whole or in part, the Parties must comply with all close-out and post-termination requirements of this Agreement. 2 CFR 200.340(d).

ARTICLE XIV
SUBCONTRACTS/SUBAWARDS

14.1. Subcontracting/Subrecipients/Delegation. Grantee must not subcontract nor issue a subaward for any portion of this Agreement nor delegate any duties hereunder without Prior Approval of Grantor. The requirement for Prior Approval is satisfied if the subcontractor or subrecipient has been identified in the uniform grant application, such as, without limitation, a Project description, and Grantor has approved. Grantee must follow all applicable requirements set forth in 2 CFR 200.332.

14.2. Application of Terms. If Grantee enters into a subaward agreement with a subrecipient, Grantee must notify the subrecipient of the applicable laws and regulations and terms and conditions of this Award by attaching this Agreement to the subaward agreement. The terms of this Agreement apply to all subawards authorized in accordance with Paragraph 14.1. 2 CFR 200.101(b).

14.3. Liability as Guaranty. Grantee will be liable as guarantor for any Grant Funds it obligates to a subrecipient or subcontractor pursuant to this ARTICLE in the event Grantor determines the funds were either misspent or are being improperly held and the subrecipient or subcontractor is insolvent or otherwise fails to return the funds. 2 CFR 200.345; 30 ILCS 705/6; 44 Ill. Admin. Code 7000.450(a).

ARTICLE XV
NOTICE OF CHANGE

15.1. Notice of Change. Grantee must notify Grantor if there is a change in Grantee's legal status, FEIN, UEI, SAM registration status, Related Parties, senior management (for non-governmental grantees only) or address. If the change is anticipated, Grantee must give thirty (30) days' prior written notice to Grantor. If the change is unanticipated, Grantee must give notice as soon as practicable thereafter. Grantor reserves the right to take any and all appropriate action as a result of such change(s).

15.2. Failure to Provide Notification. To the extent permitted by Illinois law (see Paragraph 21.2), Grantee must hold harmless Grantor for any acts or omissions of Grantor resulting from Grantee's failure to notify Grantor as required by Paragraph 15.1.

15.3. Notice of Impact. Grantee must notify Grantor in writing of any event, including, by not limited to, becoming a party to litigation, an investigation, or transaction that may have a material impact on Grantee's ability to perform under this Agreement. Grantee must provide notice to Grantor as soon as possible, but no later than five (5) days after Grantee becomes aware that the event may have a material impact.

15.4. Effect of Failure to Provide Notice. Failure to provide the notice described in this ARTICLE is grounds for termination of this Agreement and any costs incurred after the date notice should have been given may be disallowed.

ARTICLE XVI
STRUCTURAL REORGANIZATION AND RECONSTITUTION OF BOARD MEMBERSHIP

16.1. Effect of Reorganization. This Agreement is made by and between Grantor and Grantee, as Grantee is currently organized and constituted. Grantor does not agree to continue this Agreement, or any license related thereto, should Grantee significantly reorganize or otherwise substantially change the character of its corporate structure, business structure or governance structure. Grantee must give Grantor prior notice of any

such action or changes significantly affecting its overall structure or, for non-governmental grantees only, management makeup (for example, a merger or a corporate restructuring), and must provide all reasonable documentation necessary for Grantor to review the proposed transaction including financial records and corporate and shareholder minutes of any corporation which may be involved. Grantor reserves the right to terminate the Agreement based on whether the newly organized entity is able to carry out the requirements of the Award. This ARTICLE does not require Grantee to report on minor changes in the makeup of its board membership or governance structure, as applicable. Nevertheless, **PART TWO** or **PART THREE** may impose further restrictions. Failure to comply with this ARTICLE constitutes a material breach of this Agreement.

ARTICLE XVII CONFLICT OF INTEREST

17.1. Required Disclosures. Grantee must immediately disclose in writing any potential or actual Conflict of Interest to Grantor. 2 CFR 200.112; 30 ILCS 708/35.

17.2. Prohibited Payments. Payments made by Grantor under this Agreement must not be used by Grantee to compensate, directly or indirectly, any person currently holding an elective office in this State including, but not limited to, a seat in the General Assembly. In addition, where Grantee is not an instrumentality of the State of Illinois, as described in this Paragraph, Grantee must request permission from Grantor to compensate, directly or indirectly, any officer or any person employed by an office or agency of the State of Illinois. An instrumentality of the State of Illinois includes, without limitation, State departments, agencies, boards, and State universities. An instrumentality of the State of Illinois does not include, without limitation, units of Local Government and related entities.

17.3. Request for Exemption. Grantee may request written approval from Grantor for an exemption from Paragraph 17.2. Grantee acknowledges that Grantor is under no obligation to provide such exemption and that Grantor may grant an such exemption subject to additional terms and conditions as Grantor may require.

ARTICLE XVIII EQUIPMENT OR PROPERTY

18.1. Purchase of Equipment. For any equipment purchased in whole or in part with Grant Funds, if Grantor determines that Grantee has not met the conditions of 2 CFR 200.439, the costs for such equipment will be disallowed. Grantor must notify Grantee in writing that the purchase of equipment is disallowed.

18.2. Prohibition against Disposition/Encumbrance. Any equipment, material, or real property that Grantee purchases or improves with Grant Funds must not be sold, transferred, encumbered (other than original financing) or otherwise disposed of during the Award Term without Prior Approval of Grantor unless a longer period is required in **PART TWO** or **PART THREE** and permitted by 2 CFR Part 200 Subpart D. Use or disposition of real property acquired or improved using Grant Funds must comply with the requirements of 2 CFR 200.311. Real property, equipment, and intangible property that are acquired or improved in whole or in part using Grant Funds are subject to the provisions of 2 CFR 200.316. Additionally, Grantee must comply with the standards set forth in 2 CFR 200.317-200.327 to establish procedures to use Grant Funds for the procurement of supplies and other expendable property, equipment, real property and other services.

18.4. Equipment Instructions. Grantee must obtain disposition instructions from Grantor when equipment, purchased in whole or in part with Grant Funds, is no longer needed for their original purpose. Notwithstanding anything to the contrary contained in this Agreement, Grantor may require transfer of any equipment to Grantor or a third party for any reason, including, without limitation, if Grantor terminates the Award or Grantee no longer conducts Award activities. Grantee must properly maintain, track, use, store and insure the equipment according to applicable best practices, manufacturer's guidelines, federal and state laws or rules, and Grantor requirements stated herein.

18.5. Domestic Preferences for Procurements. In accordance with 2 CFR 200.322, to the greatest extent practicable and consistent with law, Grantee must, under this Award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this Paragraph must be included in all subawards and in all contracts and purchase orders under this Award.

ARTICLE XIX PROMOTIONAL MATERIALS; PRIOR NOTIFICATION

19.1. Promotional and Written Materials. Use of Grant Funds for promotions is subject to the prohibitions for advertising or public relations costs in 2 CFR 200.421(e). 19.2. Prior Notification/Release of Information. Grantee must notify Grantor ten (10) days prior to issuing public announcements or press releases concerning work performed pursuant to this Agreement, or funded in whole or in part by this Agreement, and must cooperate with Grantor in joint or coordinated releases of information.

ARTICLE XX INSURANCE

20.1. Maintenance of Insurance. Grantee must maintain in full force and effect during the Term of this Agreement casualty and bodily injury insurance, as well as insurance sufficient to cover the replacement cost of any and all real or personal property (including equipment), or both, purchased or, otherwise acquired, or improved in whole or in part, with funds disbursed pursuant to this Agreement. 2 CFR 200.310. Additional insurance requirements may be detailed in **PART TWO** or **PART THREE**.

20.2. Claims. If a claim is submitted for real or personal property, or both, purchased in whole with funds from this Agreement and such claim results in the recovery of money, such money recovered must be surrendered to Grantor.

ARTICLE XXI
LAWSUITS AND INDEMNIFICATION

21.1. Independent Contractor. Neither Grantee nor any employee or agent of Grantee acquires any employment rights with Grantor by virtue of this Agreement. Grantee must provide the agreed services and achieve the specified results free from the direction or control of Grantor as to the means and methods of performance. Grantee must provide its own equipment and supplies necessary to conduct its business; provided, however, that in the event, for its convenience or otherwise, Grantor makes any such equipment or supplies available to Grantee, Grantee's use of such equipment or supplies provided by Grantor pursuant to this Agreement is strictly limited to official Grantor or State of Illinois business and not for any other purpose, including any personal benefit or gain.

21.2. Indemnification and Liability.

(a) **Non-governmental entities**. This subparagraph applies only if Grantee is a non-governmental entity. PROJECT DESCRIPTION

Summary of the Program

Since 2011, DuPage County has enjoyed a longstanding partnership with the Adult Redeploy program and has utilized funds to reduce the number of probation violators committed to the Illinois Department of Corrections (IDOC). We have valued our partnership with the Adult Redeploy network and continue to learn valuable prison diversion strategies from the leadership, initiatives, and site-specific research provided through this alliance. Our internal data has demonstrated a reduction in the number of probation-involved clients committed to IDOC. As evidenced in the letters of support submitted with our SFY24 grant application, our involvement with Adult Redeploy has also had a positive impact on our department at large and our community. At the onset of our initial planning process, a diverse group of criminal justice stakeholders convened to discuss local criminal justice system needs and opportunities to reduce the incarceration of non-violent clients. A review of local court records and additional available data revealed over half of commitments to IDOC for probation violations occurred because of technical violations. The group determined these non-violent technical violators were likely to be safely supervised in the community when provided adequate levels of supervision and services. The group agreed to pursue implementation of a "probation violator" caseload which was originally structured as an enhancement to the Department's Administrative Sanctions Program. The intensive supervision probation with services (ISPS) model offered at risk clients with technical violations the opportunity to participate in intensive cognitive behavioral services and increased frequency of supervision as an alternative to returning to court. As the program progressed, alternate pathways into the program have been created to extend eligibility to individuals newly sentenced or resentenced to probation and a screening process for those identified by the Court as prison bound individuals.

Target Population For Diversion and Goals

The target population will consist of those who have been identified as at risk for an IDOC commitment. Specifically, medium to high-risk persons sentenced in DuPage County for a felony with either technical violations or those newly sentenced or resentenced with a history of failed community supervision or recent IDOC commitments. Candidates are referred to the program via several pathways. Court referrals are triggered for screening via court order after a person has been identified as potentially prison bound. Current probation clients can elect to enter the program via an administrative sanction as a response to technical violations. Lastly, newly sentenced, or resentenced clients with a recent history of failed community supervision or commitments to IDOC may be referred by presentence investigators or intake personnel. Internal referrals are staffed with program personnel for eligibility.

Enrollment decisions require prospective clients to meet **basic criteria prior to further eligibility consideration**. Due to the frequency and intensity of cognitive based interventions, the following must be met for eligibility:

1. reside in DuPage County (*Consideration can be given to those who reside in close proximity to our geographical boundaries, for whom transportation is not a concern, and if doing so does not compromise supervision standards or create barriers for the client.*);
2. be sentenced in DuPage County to probation for a class felony offense;
3. have at least six (6) months remaining on their probation sentence;
4. at risk for commitment to the Illinois Department of Corrections due to various factors (e.g. current or prior probation violations, on parole or mandatory supervised release, severity of instant offense, lengthy or significant criminal history, substance abuse issues other high-risk factors, or as identified in the court process);
5. have been non-compliant with current or prior community supervision; and
6. not be better served through a specialty program outlined in our original grant agreement.

Upon meeting the basic eligibility criteria outlined above, the enrollment decision is based on an assessment of the

applicant's risk and protective factors identified through a formalized assessment process utilizing the Adult Risk Assessment Community Supervision Tool (ARA-CST).

Our service goal for SFY26 is 114 participants, providing services to 72-96 participants at any given time. The capacity of 96 participants allows us to ensure an individual officer supervises no more than 24 clients at a given time. We commit to minimally divert 32 persons from prison. The 25% reduction goal was calculated considering the midpoint of the program capacity, ICJIA commitment data, the ARI database, and a review of records from our circuit clerk. More specifically, this was calculated by adding the midpoint of our program capacity (84) and the three-year average of our jurisdiction's IDOC commitments via probation violations from calendar years 2022-2024 (43) for a total of 127 people ($127 \times .25 = 31.75$). ARI program staff had previously approved the use of internal data for this calculation after considering our program model. Since the model is a probation violator program and IDOC commitment data reflects commitment of individuals who were never sentenced to probation, it was determined county level and in-house data was the most significant threshold on which to base the goal. We have experienced success utilizing this strategy, which is illustrated in greater detail in the Goals and Performance Metrics section of the application.

Program Model and Evidence-Based Target Interventions,

Our application requests a continuation of funding to support the intensive supervision probation with services (ISPS) model within our jurisdiction. Traditional approaches to intensive probation (IPS) focus on enhanced reporting and accountability-based measures. While our program does offer a higher frequency of supervision to program participants, it centers on collaborative strength-based relationships with clients and requires officers to engage in structured and extensive cognitive behavioral work in group and individual meetings. Unlike elsewhere in our Department, our ARI program has significantly smaller caseloads and the expectation officers work as a team to coach and support participants as they address the thinking and skill deficits which place them at risk of reoffending. Our program also provides enhanced opportunities for social support to help program clients achieve greater independence and success (e.g. employment, education, treatment costs, etc.).

Our program consists of four probation officers assigned to caseloads smaller than traditional high-risk caseloads. Officers integrate the National Institute of Corrections' Core Correctional Interventions (CCI) model which is a sister curriculum to the evidence based Effective Practices in Community Supervision (EPICS) approach utilizing most of the same skills. This protocol is a highly structured, cognitive behavioral supervision model in which meetings with participants target anti-social thinking patterns and strive to teach and reinforce pro-social skills. CCI is an evidence-based curriculum in that three bodies of research form the foundation and justification for the approach. These include Motivational Interviewing, Core Correctional Practices, and Stages of Change. In our program, participants meet with an officer two to four times per month based on phase in the program. Meetings target anti-social thinking patterns and strive to teach and reinforce pro-social skills. Officers facilitate several evidence-based group curriculums with participants including *Moral Reconation Therapy (MRT)* and *Moving On*. Historically we also utilized *Thinking for a Change (T4C)* and will evaluate whether to resume doing so in SFY26. Individual and smaller group sessions seek to address dynamic criminogenic needs using Carey Guides and tools from The Change Companies. Although participants have a primary officer, much of the work is done as a team which enhances the continuity of interventions and addresses responsivity factors. Program graduates and those who participate in our recognition ceremony for positive behavioral change consistently note they feel they have a supportive team behind them whether they are succeeding or struggling to get back on track. Many have commented on how helpful this has been in making changes.

Key Partners and Stakeholders:

We continue to benefit from strong support for our program from the Public Defender and State's Attorney's Offices. They have been key partners in identifying program eligible clients. Our program also enjoys support from a variety of community agencies. Some of those agencies include treatment providers within our region, Path to Recovery Foundation, workNet DuPage and College of DuPage. Community partnerships have been a focus of our

efforts in the current fiscal year and we seek to expand our community partners if granted the opportunity in SFY26.

Proposed Budget:

Based on these calculations and a total proposed budget of \$429,853.00 the estimated cost per person served is \$3,770.64 ($\$429,853/114 = \$3,770.64$).

Statement of the Problem – Unmet Needs

Many of the unmet needs our program seeks to address relate to current justice system practices and social supports. Our department offers a variety of programs, however many of these interventions are specialty programs designed for specific offense types or responsivity factors. This leaves a large pool of probationers who pose a risk to the community on caseloads offering fewer resources. Officers who work with medium and high-risk individuals, who do not meet specialty court criteria, have significantly higher caseloads than the Redeploy team. While they perform excellent work, the traditional structure and caseload size limits officers' ability to focus on probationer's needs. Our Redeploy team has a specific program capacity; caseloads are significantly smaller and in line with research from the American Probation & Parole Association's (APPA) best practice recommendations. In June of 2024, APPA released the National Standards for Community Supervision. The standards cited research indicating "reduced caseload sizes, in conjunction with implementation of RNR (risk, need and responsivity) practices, can lower recidivism by increasing the time officers have to provide meaningful interventions". APPA recommended a client to staff ratio of twenty (20) to one (1) for intensive supervision. We recognize there are times when participants are not available to fully utilize program services, such as when detained or fugitive. Taking both the APPA recommendation and the realities of casework into account, we set the capacity of each officer at 24 participants. This allows specialized attention to individual needs and a greater capacity for relationship building. Our ARI program has promoted the success of participants by providing a more individualized probation experience targeting criminogenic needs which place them at risk. This is delivered in a strength-based team approach offering the ability to attend to responsivity factors and to create a community of support for the client. A heavy emphasis is placed on the officers coaching the client and building upon their assets while minimizing some of the financial barriers to receiving services. The Redeploy network invested in a program evaluation conducted by Southern Illinois University in 2018. This evaluation noted the strengths of the officer-client rapport citing, "the ISPS program resulted in a strong commitment to program tenets as well as combining frequent contact with relationship building and addressing specific needs."

The gap filled by this program is supported by declining IDOC admissions, resulting from probation violations, as outlined below in the Goals and Performance Metrics section. Consistent with the goals and philosophy of Redeploy, our jurisdiction believes many individuals are best served in their communities surrounded by and building upon natural support in lieu of incarceration. Compared to traditional probation experiences, our program aligns with the research around effective correctional programming in that there is a strong focus on addressing criminogenic risks using cognitive behavioral programming. Officers are trained in both individual and group curricula and strategies for working with clients. We also offer the ability for greater financial support for treatment, education, vocational training, employment resources, transportation and other social supports which are common barriers for this population. This fills some health and human service gaps widely supported in the research to boost effective outcomes and promote success. Officers are frequently in the community which also differs from traditional supervision and minimizes barriers for clients. We have made significant progress in building and maintaining relationships with court partners to identify program candidates prior to sentencing and with educating probation personnel and modifying internal policies to respond to persons struggling on a general probation caseload more promptly. Stronger partnerships with the Public Defender's Office and within our department have assisted with referrals, but we continue to focus on establishing a stronger mechanism to identify and divert individuals from IDOC through program participation.

Program Activities

We are requesting continued funding to employ four full-time program officers providing direct supervision to program participants and .25 funding for the program supervisor, as well as monies allocated to program materials, training for staff and social supports (treatment, recovery coaches, housing, and record accession). In addition, we hope to maintain the growth of our education, vocational and employment supports for participants and enhance strength-based approaches outlined in our narrative and budget. The following serves to highlight differences between the current grant and the continuation request in the various budget categories. The basis for those changes is also provided, as requested. Please see the proposed itemized budget for descriptions of all activities for which funding is being requested.

Equipment

Laptops and tablets utilized by officers were purchased during the current grant year and therefore removed from our continuation request.

Supplies

Our program has utilized gift cards to restaurants or stores to recognize and reward progress made by participants. While we will continue to do this, we will utilize funding through an alternate source, the Foundation for Change.

Bus service in DuPage County is limited and is not often a viable means of transportation for our participants needs. We have sufficient bus passes for those persons who can utilize this service and have removed this cost for the upcoming year. Our funding request continues to include other transportation services, such as LYFT, to remove transportation barriers.

MRT journals are utilized in the delivery of Moral Reconciliation Therapy, an evidence-based curriculum utilized by our program. The journals are sold in certain quantities. As the number of persons served in the last two grant years was lower than anticipated, we have sufficient journals to utilize with new enrollees if our continuation request for SFY26 is granted. As such that expense was removed.

Our current funding request included licensing and network costs for computers utilized by Adult Redeploy, which are purchased through the county. The fees were to be passed onto the user; however, we were not invoiced for those costs. As such, we have removed those costs from our SFY26 request.

Training and Education

We requested expanded funding in SFY24 for education and vocational programs which would enhance participants' ability to obtain employment in roles and fields which pay higher wages and have more consistent work opportunities. The combination of employment services and education/vocational skill development is a more comprehensive strategy to meet the varying needs of program participants. Though we have been successful in utilizing alternate funding sources during SFY25, those entities may not receive the same level of funding in future years and some participants may not qualify for those which are available. There remains a need for funding support in this area, but we have reduced the amount of funding requested for education or vocational training for SFY26.

For SFY25, we requested funding for new members of our ARI team to receive training to facilitate MRT. As those officers are now trained, the training costs have been removed from our funding request for the coming year.

Project Implementation**Target Population**

The target population will consist of those who have been identified as at risk for an IDOC commitment. Specifically, medium to high- risk persons sentenced in DuPage County for a felony with either technical violations or those newly sentenced or resentenced with a history of failed community supervision or recent IDOC commitments. Candidates are referred to the program via several pathways. Court referrals are triggered for screening via court order after a person has been identified as potentially prison bound. Current probation clients can elect to enter the program via an administrative sanction as a response to technical violations. Lastly, newly sentenced, or resentenced clients with a recent history of failed community supervision or commitments to IDOC may be referred by presentence investigators or intake personnel. Internal referrals are staffed with program personnel for eligibility.

Enrollment decisions require prospective clients to meet **basic criteria prior to further eligibility consideration**. Due to the frequency and intensity of cognitive based interventions, the following must be met for eligibility:

1. reside in DuPage County (*Consideration can be given to those who reside in close proximity to our geographical boundaries, for whom transportation is not a concern, and if doing so does not compromise supervision standards or create barriers for the client.*);
2. be sentenced in DuPage County to probation for a class felony offense;
3. have at least six (6) months remaining on their probation sentence;
4. at risk for commitment to the Illinois Department of Corrections due to various factors (e.g. current or prior probation violations, on parole or mandatory supervised release, severity of instant offense, lengthy or significant criminal history, substance abuse issues other high-risk factors, or as identified in the court process);
5. have been non-compliant with current or prior community supervision; and
6. not be better served through a specialty program outlined in our original grant agreement.

Intake and Assessment Process

Upon meeting the **basic eligibility criteria outlined above**, the enrollment decision is based on an assessment of the applicant's risk and protective factors. The selection process includes:

1. A review of the applicant's criminal history to ensure they are program eligible.
2. A review of the applicant's risk and protective factors identified through a formalized assessment process utilizing the Adult Risk Assessment Community Supervision Tool (ARA-CST). A review of ancillary documentation is also completed, if available.
3. A meeting with the applicant to discuss the program and their motivation to complete the program. The meeting with the applicant explores their goals, strengths and supports, and potential barriers.
4. An administrative staffing with program staff, and when applicable the referral source, to consider the applicant's level of compliance with court orders, current violations, offense pattern and individual service needs.

After reviewing the aforementioned information, a decision is made regarding eligibility and conveyed to the referral source. For court ordered screens, this is communicated to the Court. If the person is currently on probation and entering the program via an administrative sanction the same selection process is followed, with one additional step. The client will also attend an administrative sanction conference with the current officer and a Redeploy team member. After the program is discussed, the person will decide if they would like to enroll in the program or have the alleged technical violation heard in court and reflect their decision on sanction paperwork.

Once a client joins the program a primary caseworker is assigned. The officer conducts an initial meeting with the client and then signs the participant up for an Orientation to Redeploy session. Each session is facilitated by a team member and is a forum to reinforce the team aspect of the program, introduce other officers to the program participant, and emphasize the collaborative nature of the program. The conditions of phase 1 are reviewed with participants and a journal from the Change Companies is utilized to begin to explore individualized risk factors, motivation to change, and forward thinking. In conjunction with the risk assessment and participant feedback this tool forms the foundation for exploring next steps with case planning around strengths and criminogenic needs.

Target Interventions

Our application requests a continuation of funding to support the ISPS model within our jurisdiction. Our program centers on collaborative strength-based relationships with clients and requires officers to engage in structured and extensive cognitive behavioral work in group and individual meetings. Officers integrate the National Institute of Corrections' Core Correctional Interventions (CCI) model, a highly structured, cognitive behavioral supervision model which is based upon the evidence based Effective Practices in Community Supervision II (EPICS) approach utilizing core correctional practice skills. Three bodies of research form the foundation and justification for the approach. These include Motivational

Interviewing, Core Correctional Practices, and Stages of Change. Research identifies skills and practices that are consistently related to reduced recidivism and identifies these as pro-social modeling and reinforcement, problem solving, the use of cognitive behavioral techniques, and strength-based officer-client relationships. Our program employs these strategies in our daily supervision of clients.

Although participants have a primary officer, much of the work is done as a team to coach and support participants which enhances the continuity of interventions and addresses responsivity factors. In our program design, participants meet with an officer two to four times per month based on phase in the program. Redeploy staff are in the field several days each week and complete home and field visits throughout the county. Meetings target anti-social thinking patterns identified through the assessment process and strive to teach and reinforce pro-social skills. Officers facilitate several evidence-based group curriculums with participants including *Moral Reconation Therapy (MRT)* and *Moving On*. Historically we also utilized *Thinking for a Change (T4C)* and will evaluate whether to resume doing so in SFY26. Individual and smaller group sessions seek to address dynamic criminogenic needs using The Carey Group's Brief Intervention Tools (BITS) and tools from The Change Companies. All these interventions are provided to reduce risk and are in line with the research indicating antisocial cognition and antisocial personality (skill deficits) are highly correlated with recidivism. In targeting these areas with clients, we hope to divert people from high-risk situations and the subsequent IDOC commitments which can result. We feel it is important to regularly assess staff performance to support fidelity to the model and promote stronger outcomes. Officers submit recordings of individual meetings with participants at least twice a quarter and receive coaching and feedback on their use of CCI skills. Group sessions are also regularly observed, and feedback provided to program staff to ensure ongoing quality assurance.

When shaping behavior, research has demonstrated individuals respond more effectively to positive reinforcement as a primary mechanism to make change. A strength-based approach with participants is a key program principle reinforced through a variety of practices. Our ARI program provides a variety of ways to recognize small positive steps taken as they occur and reward on-going behavior change and progress toward completion of court ordered conditions through phase progressions, gradually decreasing the intensity of supervision. Success stories are part of the application for phase advancement. Success stories are an intentional exercise completed by participants to foster self-reflection and emphasize positive changes. They also foster an ongoing dialogue about positive changes in thinking and behavior. Our team reviews participant successes at team meetings and identifies at least one meeting each month where this is the primary focus. How to recognize the progress is also discussed. At times, acknowledgement may include small tangible rewards. These rewards are funded through our department's 501c3 Foundation for Change. They may also include our more formal recognition ceremony for positive behavioral change and achieving goals, we refer to as our Pillar of Pride. Participants consistently note they feel they have a supportive team behind them whether they are succeeding or struggling to get back on track. Many have commented on how helpful this has been in making and sustaining change. Increasing Positive Reinforcements, a key principle of effective interventions, does not mean ignoring unacceptable behavior. In our program, most inappropriate behavior choices are addressed utilizing core correctional interventions. Graduated responses are utilized for continued unwanted behaviors, which may include formal sanctions which modify some benefits afforded in a phase for a short period of time as a corrective action. Our team utilizes a Sanction Review Board for formal sanctions with the goal of expeditiously responding to violations in a collaborative manner. The format of these meetings is to engage the client in a discussion and identify antecedents to violating behavior. We then try to elicit their input on the best way to realign behavior with more prosocial options.

Referrals to health and human service agencies occur as needed. Our program seeks to provide access to some social supports which are often barriers for justice involved individuals and access to ancillary services as required. Through continuation funding, if approved, services and supports may include financial assistance with:

- substance abuse and mental health treatment through numerous community providers;
- recovery coaches;

- education (e.g. high school diploma, college) and certified vocational training programs (e.g. through College of DuPage or elsewhere as approved)
- employment services (contractual coordinator, partnership with local business owners, partnership with workNet DuPage)
- employment clothing and equipment
- housing assistance (e.g. rental application fees or emergency/supportive housing)
- transportation to probation related services
- client vital records

In summary, our program is a strength-based model which appeals to a variety of stakeholders and strives to safely supervise otherwise IDOC bound individuals. We do this by engaging in collaborative relationships with clients, targeting their most serious criminogenic needs, and holding them accountable to the conditions of the Court. We strive to provide social supports which address barriers clients have in obtaining or maintaining change.

Capacity-Building

Our program recognizes the important impact utilizing public benefits can have in increasing access to cost effective programs which may be helpful in buffering our client's risk to the community. Our program collaborates closely with the DuPage County Health Department for the purposes of Medicaid enrollment and the provision of a wide range of services they offer. Our Health Department offers several programs related to physical, behavioral, and mental health needs typically faced by our program clients. These programs address clients who may be in crisis, as well as ongoing support once stabilized. Program staff also extensively engage with local organizations to provide linkages and help clients access services and supportive agencies in their natural communities. Many of these organizations were highlighted in the full application but highlighting a few include food subsidies and pantries, DuPage PADS for housing supports, and Community Services for a variety of supports. We continue to engage with community agencies to expand and update our knowledge of the services they provide, how best to refer persons and alternate funding sources to explore. For example, we have expanded referrals to educational and vocational programs utilizing a variety of funding sources, such as workNet DuPage, College of DuPage and Café Liberty. Café Liberty recently expanded access to their culinary program for justice involved individuals, at no cost to the individuals accepted into the program.

Judicial Impact

The ARI program is well respected by our judiciary and justice system partners. As evidenced in our letters of support in the full SFY24 application, our ARI program has had a positive impact on our court system, our communities, and our probation department. Letters stressed the cognitive behavioral work performed by our team, smaller caseload sizes, and enhanced relationships with clients as essential ingredients in allowing many high risk and high need individuals to remain in the community rather than going to the Illinois Department of Corrections. Our State's Attorney remarked that, "ARI not only saves money and critical resources, but it improves public safety by reducing the social cost of crime on communities." During a training about the program with our Public Defender's office, feedback was provided regarding how the program is more strength based than traditional approaches and strives to assist clients instead of being exclusively accountability focused like traditional IPS programs. Another commented on the intensive focus on antisocial thinking had helped their client. Our intention to continue this program will maintain the confidence our system partners have in our ability to best serve IDOC bound individuals in a way that buffers the risk they pose to our communities. This includes addressing criminal thinking and building prosocial skills, while celebrating and building upon successes. It will continue to provide a meaningful response to managing violations of those already on probation through a more individualized approach.

Community Involvement

Community involvement has been an aspect of our program we have worked hard to enhance over the last few years. If granted continued funding, we seek to continue to improve this dimension of our work, as outlined below.

Our goal is to help show participants that the community cares for them, they can contribute positively to the community, and that simply being system involved does not minimize their value.

Volunteer Opportunities

A long-standing goal of our program is to foster and model the benefits of giving back to the community. A practice we began in SFY23 is one we will continue if funding remains ongoing. We have had ARI team members and program participants volunteer together in our community at least once a quarter.

Our goals with this initiative are several:

- To foster the strength-based nature of our professional rapport with program clients by working together in small groups. Engagement and trust have increased during these forums. Participants have disclosed that it felt like a safer way to discuss successes and struggles while working together. Enhanced opportunities to provide positive reinforcement present themselves and being strength-based is critical to effective behavior management and growth.
- To give back to the community and enhance engagement.
- To provide a positive venue in which to introduce our clients to the community who may have an unfavorable view of justice involved individuals.
- To educate organizations about the work of probation and Adult Redeploy in DuPage County.
- To provide a forum for those involved in our MRT cognitive behavioral group to earn the service hours required from that group. For participants with community service expectations as part of their sentence, volunteering provides a way to meet that expectation.

Education, Job Training and Employment Resources

Justice-involved individuals face numerous barriers with education, job skills training, and employment opportunities. The collateral consequences of being justice involved are often hardest felt in employment barriers and the instability which accompanies the lack of a steady income. As such, we have placed significant emphasis on enhancing education and developing a host of employment services for those in our program. Our program proposal includes a contractual employment coordinator who meets with participants individually to discuss their work history, career goals, workplace communication skills, and to conduct employment searches. The coordinator does much of her work individually with participants but has established partnerships throughout the DuPage County area to identify employers who are open to hiring persons with an arrest history. With funding previously provided by the grant, the Employment Coordinator established a partnership with several DuPage County businesses to incentivize the hiring of program participants who complete a prerequisite training process with our employment coordinator. Business owners, who are a part of our program, receive a stipend equal to the hourly wage of the ARI client for an initial period of their employment, with the goal that the participant has proven themselves within the role and will maintain employment when the incentive has ended. Feedback from several businesses approached indicated philosophically they were open to considering hiring participants but the contractual elements to become a site were an obstacle. While disappointing, this has led to two positive outcomes. First, they are known businesses in the area open to hiring participants without a formal partnership. Second, this led our employment coordinator to explore a partnership with workNet DuPage, an organization funded through the Workforce Innovation and Opportunity Act (WIOA) with an office in our jurisdiction. The goal is to enhance opportunities for participants to obtain job training and employment by coordinating referrals and accessing services provided by workNet DuPage, which has a larger network of local employers and enhanced monetary incentives for employers. Participants have received vocational training with funding provided through workNet. Culinary training through Café Liberty has provided certifications for several participants with no cost to the student and without the need to utilize grant funding. We appreciate the funding provided by the grant to aid other participants for whom alternate educational or vocational funding is not available. The combination of employment services and education and vocational skill development is a comprehensive strategy to meet the varying needs of program participants and lead to roles in fields which pay higher wages and have more consistent work opportunities.

Program Specific Education Forums

We have hosted education sessions for system partners on Adult Redeploy Illinois across the state and within DuPage County. As personnel within the justice system continue to evolve, we recognize the benefit of offering on-

going education sessions for the judges in our circuit, the DuPage County Bar Association, and our Public Defenders and State's Attorney's Office. We expanded efforts to educate the community on our program through various pathways, making informational material available in a variety of venues and by hosting similar information sessions with citizen groups. In addition to expanding awareness of ARI in communities, we recognize involving community members to build natural support is critical to the work of evidence-based practice. Consistent with the statewide Redeploy Vital Voices initiative, we hope to engage program participants in these sessions as appropriate for their situation. During SFY25, a participant spoke to a community group. He courageously shared his journey and what aspects of the program helped him change his thinking and led to his making healthier choices. He was honored his probation officer recognized the progress he has made and asked him to speak to the group.

Family Involvement

Our program believes that involving the family members of our clients reaps many benefits. This is true for the justice involved individual, the family, and ultimately the community. Family involvement increases the likelihood of clients becoming self-sufficient and assists in finding and leveraging accessible community resources. It is commonplace for officers to have contact with significant others and family members and to engage these individuals in supporting program participants.

Performance Measurement

Performance metrics, including who is responsible for gathering the data and the frequency for each is outlined in the Implementation Performance Plan and Goals and Metric sections below. Many of the metrics are entered into the ARI database monthly. Our program also maintains a shared electronic folder where notes from team meetings and other ARI initiatives are stored. Observation and feedback data on the use of CCI skills is maintained by both the program supervisor and within a shared management folder where skill observation and feedback is specifically recorded and tracked. Training records are maintained through Relias, the training record platform required by the Administrative Office of the Illinois Courts, and our Training Manager. ARI policies are incorporated within the department's electronic policy folder on a shared network. Policies once approved are given specific review dates. Financial information is maintained both through our department's case management system and finance related systems required by our county.

Our program consists of four officers who provide direct supervision to program participants. These officers receive operational and programmatic feedback from their direct supervisor. The quarter full-time employee (.25 FTE) will be the program supervisor if continuation funding is approved. The program supervisor will work in conjunction with our finance manager, deputy director and a program manager to oversee the financial and programmatic aspects of the grant, with our county providing in-kind costs for these supportive personnel. A program manager prepares the required quarterly and close out reports, in conjunction with our finance manager and deputy director, and has assumed some of the programmatic aspects of grant operations as well as participation on one ARI workgroup.

Grantee shall submit a description of the tracking system to Grantor prior to incurring any transportation costs. This section applies to costs for both staff and participants.

35. Copyrights and Patents.

35.1. If this Agreement results in a copyright, the Grantor reserves a royalty-free, nonexclusive and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for government purposes, the work or the copyright to any work developed under this Agreement and any rights of copyright to which a grantee, subgrantee or a contractor purchases ownership with grant support.

35.2. If this agreement results in the production of patentable items, patent rights, processes, or inventions, Grantee shall immediately notify Grantor. Grantee may retain the equipment and supplies acquired with grant funds as long as they serve to accomplish program purposes, whether or not the program continues to be supported by Grantor grant funds, but such determinations as to retention are within the sole discretion of Grantor. If the equipment or supplies originally purchased for the program are no longer capable of fulfilling the needs of the program and must be traded in or replaced, or there is no longer a need for the equipment or supplies, Grantee shall request instructions from Grantor.

36.2. Grantor may deny equipment and supply costs or require that Grantee relinquish already purchased equipment and supplies to Grantor if Grantee fails to employ an adequate property management system governing the use, protection, and management of such property. Grantee is responsible for replacing or repairing equipment and supplies that are willfully or negligently lost, stolen, damaged or destroyed. Grantee shall provide equivalent insurance coverage for grant funded equipment and supplies as provided for other equipment and supplies owned by Grantee. Any loss, damage or theft of equipment and supplies shall be investigated and fully documented, and immediately reported to Grantor.

36.4. If, for an item of equipment described in the Budget to be purchased with Grantor funds, Grantee does not have, at a minimum, a purchase order dated within 90 days after the start date of the agreement, Grantee shall submit a letter to Grantor explaining the delay in the purchase of equipment. Grantor may, in its discretion:

- D. Extend the period to purchase this equipment past the 90-day period.

37. Program Income. All income, including income resulting from asset seizures or forfeitures, generated as a direct result of the program shall be deemed program income. Program income must be used for the

purposes and under the conditions applicable to the use of grant funds. Program income may be used by Grantee for any purpose that furthers the objectives of the grant or deducted from the total allowable costs in accordance with Part I, 7.7. Grantee shall report and account for such program income as required by the Grantor.

38. Separate Revenue and Expenditure Accounts. Grantee must have an accounting system that meets the following requirements prior to receiving grant funds:

- (a) Provides for the clear identification, in its accounts, of all Federal awards, State awards, and matching funds received or expended.
- (b) Enables the preparation of reports required by general and program-specific terms and conditions of Grantee's awards.
- (c) Allows the tracing of funds to a level of expenditures adequate to establish that such funds have been used according to the Federal statutes; regulations; and the terms and conditions of the Federal or State award.
- (d) Requires each Federal award, State award, and matching fund revenues and expenditures to be accounted, recorded, and tracked separately by funding source.
- (e) Includes classification of expenditures (e.g., personnel, commodities, equipment).
- (f) Maintains a system coding or classification system that permits summarization and reporting of grant revenue and expenditures by specific accounts, programs, projects, etc.
- (g) Ensures that Federal and State awarded funds and matching funds are not commingled with funds from other Federal, State, or private sources. 2 CFR 200.302.
- (h) Maintain an accounting system that utilizes generally accepted standards of accounting.

Upon request, Grantor may allow Grantee to receive funds without meeting the above requirements. Such exception shall be granted in writing and Grantee shall be given no more than six (6) months after the exception to meet all requirements of this section.

39. Publications.

39.1. In addition to the requirements of Part I, Article XIX Grantee shall submit to Grantor for review, certain publications that will be issued by Grantee describing or resulting from programs or projects funded in whole or in part with grant funds, no later than 30 days prior to its printing.

39.2. The publications subject to this review are: journals and annual reports that describe how grantee has used the funding, any paid advertisement or public awareness campaign regardless of format, and any other publication that cumulatively costs more than \$1000 to create or produce. These publication review requirements do not apply to press releases, flyers advertising approved program activities only, newsletters and issue analyses.

39.3. Grantor reserves the right to require the resubmission of any publication for additional review and comment, prior to its printing.

39.4. All publications shall supplement the language required by Part I, Article XIX with the following statement:

"Funding provided in whole or in part by the Illinois Criminal Justice Information Authority. Points of view or opinions contained within this document are those of the author and do not necessarily represent the official position or policies of the State of Illinois, or the Illinois Criminal Justice Information Authority."

39.5. When issuing statements, press releases, requests for proposals, bid solicitations, and other documents describing projects or programs funded in whole or in part with Federal grant funds, Grantee shall clearly state (1) the percentage of the total cost of the program or project which will be funded under this agreement, and (2) the dollar amount of funding for the project or program in addition to the statement required in 42.4.

39.6 Exceptions to the above requirements shall only be allowed upon Grantor's written prior approval.

40. Reporting Grant Irregularities.

40.1. Grantee shall promptly notify Grantor through their Grant Monitor when an allegation is made, or Grantee otherwise receives information, reasonably tending to show the possible existence of any irregularities or illegal acts in the administration of Grant Funds. Grantor, per its agency policy, shall determine the reasonableness of the allegation of the irregularities or illegal action and determine the appropriate course of action. Possible actions would include conducting an internal audit or other investigation or contacting the proper authorities. Illegal acts and irregularities include such matters as conflicts of interest, falsification of records or reports both data, financial and programmatic, and the misappropriation of funds or other assets.

40.2. Grantee shall inform any sub-recipient of Grantor's Grant Funds that the sub-recipient is similarly obligated to report irregularities.

40.3. Failure to report known irregularities can result in suspension of the Agreement or other remedial action. In addition, if Grantee's auditor or other staff becomes aware of any possible illegal acts or other irregularities prompt notice shall be given to Grantee's director. Grantee, in turn, shall promptly notify Grantor as described above of the possible illegal acts or irregularities. If the possible misconduct involves Grantee's director, Grantee staff member shall provide prompt notice directly to Grantor.

40.4. In addition, Grantor, if in its judgment there is a reasonable allegation of irregularity or illegal act, shall inform the Office of Justice Program's Office of the Comptroller, the Department of Justice's Office of Professional Responsibility and the Office of Inspector General, and state and local law enforcement agencies or prosecuting authorities, as appropriate, of any known violations of the law within their respective area of jurisdiction.

40.5. Known or suspected violations of any law encountered during audits, including fraud, theft, embezzlement, forgery, or other serious irregularities, must be immediately communicated to Grantor and appropriate federal, State, and local law enforcement officials.

40.5. Grantee agrees to develop and maintain a record-keeping system to document all Agreement related activities and expenditures. These records will act as the original source material for compilation of the data and all other program activity.

40.6. The reporting of any irregularities, illegal acts and the proposed or actual corrective action shall be reported to Grantor at:

Illinois Criminal Justice Information Authority

41. Reporting Potential Fraud, Waste, or Similar Misconduct.

41.1. Grantee shall promptly refer to Grantor, via their assigned Grant Monitor, any credible evidence that a principal, employee, agent, contractor, subcontractor, or subaward has either submitted a false claim for grant funds in violation of the False Claims Act or committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity or similar misconduct involving grant funds.

41.2. Potential fraud, waste, abuse or misconduct shall be reported to Grantor at:

Illinois Criminal Justice Information Authority

42. Crimes of Dishonesty. Grantee shall notify Grantor as soon as practical if any of its own or any of its subawards' and/or its subcontractors' board members, executive officers, directors, administrators, supervisors, managers, or financial officers or anyone holding such a position of authority is criminally charged with or convicted of theft, fraud, or any other crime involving dishonesty at any point during the period of performance of this grant. Grantor may terminate this agreement, at Grantor's sole discretion, if Grantee's or any of its subawards' and/or its subcontractors' board members, executive officers, directors, administrators, supervisors, managers, or financial officers or anyone holding such a position of authority become convicted of theft, fraud, or any crime involving dishonesty.

43. Conflict of Interest in Hiring and Procurement. In addition to the requirements of Part I, Article XVII, no employee, officer, or agent of Grantee shall participate in the selection of a contractor, award of a contract, administration of a contract, or hiring of personnel supported by grant funds if a conflict of interest, real or apparent, would be involved. Grantee shall establish safeguards to prohibit employees from using their positions for a purpose that is or gives the appearance of being motivated by a desire for private gain for themselves or others.

44. Safeguarding Constitutional Protections Related to Religion

44.1 Grantee certifies that grant and match funded services must be offered without regard to religious affiliation. Grantee also certifies that the receipt of services through the grant funded program shall not be contingent upon participation in a religious event or activity. Grant or match funds may not be used for any explicitly religious activities such as worship, religious instruction, or proselytization. Grantee may engage in inherently religious activities, but such activities must be separate in time or place from the grant funded program, and beneficiaries cannot be compelled to participate in them.

44.2 Faith-based organizations may consider religion when hiring staff if consistent with the Religious Freedom Restoration Act and other applicable laws. If the grant is funded with federal funds, Grantee must receive prior approval from the Department of Justice, Office for Civil Rights.

45. Restrictions and Certifications Regarding Non-Disclosure Agreements and Related Matters. Grantee and any entity that receives a contract or subcontract with any funds under this award, may not require any employee or contractor to sign an internal confidentiality agreement or statement that prohibits or otherwise restricts, or purports to prohibit or restrict, the reporting (in accordance with law) of waste,

fraud, or abuse to an investigative or law enforcement representative of a federal department or agency authorized to receive such information.

a. In accepting this award, Grantee –

- i. represents that it neither requires nor has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and
- ii. certifies that, if it learns or is notified that it is or has been requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, it will immediately stop any further obligations of award funds, will provide prompt written notification to Grantor, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by Grantor.

b. If Grantee makes subawards or contracts under this award –

i. it represents that –

1. it has determined that no other entity that Grantee's application proposes may or will receive award funds (whether through a subaward, contract, or subcontract) either requires or has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and
2. it has made appropriate inquiry, or otherwise has an adequate factual basis, to support this representation; and

- ii. it certifies that, if it learns or is notified that any subrecipient, contractor, or subcontractor entity that receives funds under this award is or has been requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, it will immediately stop any further obligations of award funds to or by that entity, will provide prompt written notification to the agency making this award, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by that agency.

46. Background Checks for youth programs. Background checks are required for all program staff, independent contractors, and volunteers, including program staff, independent contractors, and volunteers for subawards and subcontractors, who have direct contact with youth before hiring or before working on the program. Grantee must have a written protocol on file requiring fingerprint-based background checks through the Illinois State Police for all persons and maintain documentation of their completion and results. The written protocol must incorporate the factors and procedures mandated by 775 ILCS 5/2-103.1. Any exception must be granted in writing by Grantor. Exceptions may include but are not guaranteed or limited to if the program model or service provision relies on staff access or credibility with at-risk populations.

47. Project Monitoring and Evaluation.

47.1. Project Monitoring: Grantee understands that Grantor may impose additional reporting requirements during the grant period by providing notice in writing to Grantee. Grantee agrees to report any additional information required by Grantor.

47.2. Grantor Evaluation: As required by Grantor, Grantee agrees to cooperate with Grantor's evaluation of the grant project, conducted either by Grantor or external parties.

47.3. Grantee Evaluation: Project evaluation is limited to evaluation of Grantee's project, as described in this Agreement, to determine the project's effectiveness. Grantee understands and agrees that grant and match funds cannot be used for research purposes, as defined under 45 CFR 46.102(d). Grantee will provide Grantor with aggregate project data and summary reports related to project performance, including process and outcome, and any other information, as requested by Grantor.

48. Confidentiality of Records. Grantee agrees not to use or reveal any research or statistical information furnished under this program by any person and identifiable to any specific private person for any purpose other than the purpose for which such information was obtained in accordance with this program and all applicable federal guidelines and legislation without written consent from Grantor. Grantee shall notify Grantor within three (3) business days of any such request.

49. Tax Liabilities; State Agency Delinquencies. Grantee is required to file of any and all applicable tax returns. In the event that a Grantee is delinquent in filing and/or paying any federal, state and/or local taxes, the Grantor shall disburse Grant Funds only if the Grantee enters into an installment payment agreement with said tax authority and remains in good standing therewith. Grantee is required to tender a copy of any such installment payment agreement to the Grantor. In no event may Grantee utilize Grant Funds to discharge outstanding tax liabilities or other debts owed to any governmental unit. The execution of this Agreement by the Grantee is its certification that (i) it is current as to the filing and payment of any federal, state and/or local taxes applicable to Grantee; and (ii) it is not delinquent in its payment of moneys owed to any federal, state, or local unit of government.

50. Compliance. Grantee agrees to comply with all applicable laws, regulations, and guidelines of the State of Illinois, the Federal Government and Grantor in the performance of this Agreement.

PART THREE –PROJECT-SPECIFIC TERMS

In addition to the uniform requirements in **PART ONE** and Grantor-Specific Terms in **PART TWO**, Grantor has the following additional requirements for this Project:

51. Pre-Award Costs. Pre-award costs are authorized in accordance with 2 CFR 200.209. Pre-award costs are those incurred from the beginning of the period of performance of the grant until the execution of this grant agreement and must be in accordance with the final approved program budget. ICJIA has the right to review supporting documentation for all pre-award costs that are submitted for reimbursement on a financial report from grantees. Costs that are not in accordance with the final approved budget (necessary, reasonable, allowable, and allocable) shall be disallowed.
52. Supplanting. Grantee certifies that ARI funds made available under this Agreement will not be used supplant/replace State, local, or other funds that would otherwise be made available to Grantee for purposes related to this program. Grantee certifies that ARI funds made available under this Agreement will be used to supplement/increase existing funds for such purposes.
53. Penalty for Failure to Divert. Under the Adult Redeploy Illinois enabling statute, any Grantee not meeting its required reduction (diversion) goal, as calculated by the local jurisdiction, shall be assessed a penalty. The Adult Redeploy Illinois Oversight Board (ARIOB) has set the maximum penalty at one half the marginal cost of incarceration. The amount of the penalty assessed will be left to the discretion of the ARIOB; the Board shall take into consideration factors affecting the Grantee's ability to meet the required reduction goal, including whether the failure to meet the reduction goal was beyond the control of the jurisdiction or other extenuating or mitigating circumstances.
54. Expenditure Evaluation. The Grantor shall evaluate the amount of unexpended funds remaining and the maximum amount of funds needed to continue the grant. Based on this evaluation, the Grantor, at its sole discretion, may reduce the grant award by an amount it deems appropriate.
55. Corrective Action Plan.
 - 55.1 At the end of each quarter, the Grantee and the Grantor will (1) do a review of the number of individuals diverted from the Illinois Department of Corrections (using the Grantee's and IDOC's data) and (2) assess whether the number conforms with the Grantee's approved plan in order to achieve the annual 25% reduction included in the plan.
 - 55.2 If either the Grantee or the Grantor believes that it will not, they shall bring the issue to the next meeting of the ARIOB (or within the first month of the next quarter, whichever is sooner) with a plan for remediation, designed to avert a penalty charge to the Grantee. The Grantee may choose to send its representatives to the ARIOB meeting to explain the plan, and the ARIOB shall act on the plan immediately upon its receipt.
 - 55.3 Should the ARIOB not accept the plan, the Grantee will have the opportunity to modify the plan or withdraw from the program by the next ARIOB meeting (or the second month of the quarter, whichever is sooner). Should the Grantee accept the corrective action plan, the plan shall include a schedule for reporting on the progress of the plan, with regular reports at least once a quarter to the ARIOB, until such time as the ARIOB agrees that the corrective action plan has been successfully implemented.

55.4 A similar corrective action plan process will be followed as it relates to Grantee's failure (or risk thereof) to meet other contractual performance measures stated in the Illinois Crime Reduction Act (730 ILCS 190/*et. seq.*), namely the use of assessment tools and evidence-based practices, appropriate target/service population, and provision of required data.

56. Participant Risk Assessment Levels.

56.1 At the end of each quarter, the Grantee and the Grantor will do a review of the risk assessment scores of all participants currently in the program. If the following threshold is not met, the Grantor may initiate (1) training or technical assistance and/or (2) a corrective action plan.

56.2 Threshold: Threshold means the aggregate minimum risk assessment scores, based on the local county standards, for participant risk levels to meet the percentage and timeframe. For Adult Redeploy Illinois, at least 80% of incoming participants shall have moderate to high-risk assessment scores. The threshold seeks to ensure that Adult Redeploy Illinois programs are serving a moderate to high-risk prison bound population.

57. Problem Solving Courts (PSC) Certification. If the Grantee is determined to be an existing PSC, proposed PSC, or specially designated PSC calendar, the Grantee must be evaluated, or in the process of being evaluated, by the Administrative Office of the Illinois Courts (AOIC) and must be certified, or in the process of being certified, as compliant with the Problem-solving Court Standards (Standards) through the certification process and timeline required by the Illinois Supreme Court. All PSC shall comply with all AOIC requirements for certification and recertification. If a PSC is unable to comply with these Standards, the PSC must request time to develop a plan of improvement to allow it to continue operations and that plan must be submitted to AOIC for recommendations. Grantee may continue operations pending receipt of the recommendations from AOIC. Grantee must submit a copy of the recommendations to Grantor. Grantees that are unable to substantially comply with the Standards or AOIC recommendations may risk termination of grant funds. Grantees that are unwilling to substantially comply with the Standards or AOIC recommendations will not receive grant funds for the period in which they are not in compliance.

58. ICJIA Quarterly Data Submission. Grantee certifies that it will submit quarterly data electronically as outlined in the ICJIA data submission documents.

59. Mandatory Data Elements. Grantee agrees to participate in performance measurement and evaluation activities in conjunction with the Grantor and as developed by the ARIOB according to statute. Specifically, the Crime Reduction Act requires a *"performance measurement system that includes but is not limited to the following key performance indicators: recidivism, rate of revocations, employment rates, education achievement, successful completion of substance abuse treatment programs, and payment of victim restitution."*

Additionally, Grantee site-specific information about the utilization of evidence-based practices will be collected for evaluation purposes. These reporting requirements will be developed upon negotiation with the site administrators and ARIOB. Grantee agrees to provide the following data elements and any other additional data elements developed by the Grantor with the ARIOB:

- b. Grantee must keep an inventory of who received a gift card and when;
- c. Grantee must collect and save receipts for purchased gift cards;
- d. Grantee must maintain the receipts in the same manner as other records; and
