Judicial and Public Safety Committee Final Summary

Tuesday, April 16, 2024

8:00 AM

County Board Room

1. CALL TO ORDER

8:00 AM meeting was called to order by Chair Lucy Evans at 8:01 AM.

2. ROLL CALL

Other Board members present: Paula Garcia and Sheila Rutledge

Staff present: Nick Kottmeyer (Chief Administrative Officer), Joan Olson (Chief Communications Officer), Mark Winistorfer (Assistant State's Attorney), Jessica Robb (Executive Director-DuComm), Tyler Benjamin (Deputy Director-DuComm), Edmond Moore (Undersheriff), Dan Bilodeau (Deputy Chief-Sheriff's Office), John Putnam (Commander-Sheriff's Office), Jeff Martynowicz (Chief Financial Officer), Valerie Calvente (Buyer-Procurement), Jason Blumenthal (Policy and Program Manager), Evan Shields (Public Information Officer), Robert McEllin (Director-Probation and Court Services), Craig Dieckman (Director-Office of Homeland Security and Emergency Management), Jeff York (Public Defender), Nicole Zbilski (Administrative Assistant-Sheriff's Office) and Jenna Rossi (Policy Analyst).

Remote attendee: Candice Adams (Clerk of the Circuit Court)

Speakers: Undersheriff Edmond Moore and Deputy Chief Dan Bilodeau.

PRESENT	Chaplin, Childress, DeSart, Eckhoff, Evans, Gustin, Krajewski, Ozog, Schwarze, Zay, and Yoo
ABSENT	Tornatore

3. PUBLIC COMMENT

No public comment was offered.

4. CHAIR REMARKS - CHAIR EVANS

Chair Evans welcomed everyone to the meeting and began her remarks by commenting on a few items on the Agenda that may elicit some discussion. Among these items are two procurement requisitions pertaining to food service at the jail for both the inmates and staff, as well as the purchase of software licensing for an electronic medical record system at the Correctional Center. Chair Evans indicated that Commander John Putnam from the Sheriff's Office is present to answer any questions that may arise. Another agenda item she pointed out is the Intergovernmental Agreement with DuComm for Police Department Dispatch Services. She reminded everyone that six months ago the Sheriff's Office had notified the Committee, via a memo, of the need to switch police dispatch services. This Intergovernmental Agreement is the culmination of their discussions with Du-Comm to make this change happen. Chair Evans

thanked Deputy Chief Dan Bilodeau from the Sheriff's Office for presenting today on the status of switching from ACDC to DuComm. At this time, Chair Evans also thanked ACDC for the great job they have done as the PSAP for the past several years.

Further, Chair Evans informed the Committee that at the next County Board meeting on April 23, 2024, a SAFE-T Act Six-Month Update will be presented by the Circuit Court, the Circuit Court Clerk, the State's Attorney's Office, the Public Defender and Probation and Court Services.

In conclusion, Chair Evans notified the Committee that a Special Call Joint Meeting of the Judicial and Public Safety and Legislative Committees will be held on April 23, 2024 immediately following the County Board meeting. The purpose of this Special Call meeting is to discuss Senate Bill 595, which seeks to fundamentally change how Public Defender offices are set up statewide.

5. APPROVAL OF MINUTES

5.A. [24-1241](#)

Judicial and Public Safety Committee - Regular Meeting Minutes - Tuesday, April 2, 2024.

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED
MOVER:	Jim Zay
SECONDER:	Patty Gustin

6. PROCUREMENT REQUISITIONS

6.A. [JPS-P-0014-24](#)

Recommendation for the approval of a contract purchase order to Trinity Services Group, Inc., to provide meals for the inmates and officers in the jail, for the Sheriff's Office, for the period of June 1, 2024 through May 31, 2025, for a contract total amount of \$1,225,031; per RFP #23-026-SHF. First of three optional renewals. (Sheriff's Office)

Member Chaplin inquired if the pregnant inmates will be receiving the additional calories needed in their diet. Commander Putnam responded that the provider has a dietician on staff that will address any specific dietary needs for these inmates.

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED AND SENT TO FINANCE
MOVER:	Jim Zay
SECONDER:	Patty Gustin

6.B. [JPS-P-0015-24](#)

Recommendation for the approval of a contract purchase order to SapphireHealth, LLC for the purchase of software licensing for an electronic medical record system in the Correctional Center for the period of May 1, 2024 through April 30, 2029, for a contract total not to exceed \$299,283.21, per bid 23-111-SHF. (Sheriff's Office)

Member Yoo asked if other bids were received on this item and whether SapphireHealth, LLC was the first or secondary choice of vendors. Commander Putnam responded that they are the secondary choice. Other bids were received through the RFP process. However, after a careful review of all proposals, it was determined that SapphireHealth, LLC met all of their needs and was the best option for the Sheriff's Office.

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED AND SENT TO FINANCE
MOVER:	Patty Gustin
SECONDER:	Jim Zay

7. BUDGET TRANSFERS

7.A. [24-1252](#)

Transfer of funds from account nos. 1000-4400-53610 (instruction and schooling), 1000-4405-53610 (instruction and schooling), 1000-4410-53610 (instruction and schooling) and 1000-4410-53807 (subscription IT arrangements to account nos. 1000-4400-50000 (regular salaries), 1000-4400-51010 (employer share IMRF), 1000-4400-51030 (employer share social security), 1000-4405-51010 (employer share IMRF), 1000-4405-51030 (employer share social security), 1000-4410-50000 (regular salaries), 1000-4410-51010 (employer share IMRF) and 1000-4410-51030 (employer share social security) in the amount of \$215,018 needed to cover regular salaries, IMRF and social security for anticipated retro pay for the Sheriff, Court Security and Jail Operations for ongoing union contract negotiations for FY2023. (Sheriff's Office)

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED
MOVER:	Jim Zay
SECONDER:	Patty Gustin

7.B. [24-1259](#)

Transfer of funds from account nos. 1000-4410-53090 (other professional services), 1000-4405-50010 (overtime) and 1000-4415-50010 (overtime) to account nos. 1000-4410-50040 (part-time help), 1000-4410-50050 (temporary salaries), 1000-4405-50011 (sheriff-special duty overtime) and 1000-4415-50011 (sheriff-special duty overtime) in the amount of \$240,000 necessary due to increased use of part-time and temporary registered nurses, not agency nurses (53090 - professional services) as budgeted. Transfers from overtime to special duty overtime for a moot court event (Court Security) and election detail (Court Security and Law Enforcement). Sheriff's Office is reimbursed for these special events. (Sheriff's Office)

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED
MOVER:	Mary Ozog
SECONDER:	Jim Zay

7.C. [24-1261](#)

Transfer of funds from account no. 1000-6110-50040 (part-time help) to account no. 1000-6110-53040 (interpreter services) in the amount of \$5,000 needed to cover interpreter services for DUI evaluation appointments for FY2024. (Probation and Court Services)

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED
MOVER:	Mary Ozog
SECONDER:	Yeena Yoo

8. ACTION ITEMS

8.A. [JPS-CO-0002-24](#)

Recommendation for the approval of a change order amending purchase order 5441-0001-SERV, issued to Microgenics Corporation, to provide court ordered drug testing and supplies, to increase the purchase order in an amount of \$48,000, resulting in an amended purchase order total amount not to exceed \$156,114.60, an increase of 44.40%. (Probation and Court Services)

Member Zay asked for an explanation of why this increase is necessary. Robert McEllin responded that since entering into this contract in October of 2021, there has been a significant increase in the number of court-ordered drug tests. The Specialty, Drug and Mental Health Courts have all been affected by this increase, as well as Pretrial cases.

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED AND SENT TO FINANCE
MOVER:	Jim Zay
SECONDER:	Patty Gustin

8.B. [JPS-CO-0003-24](#)

Amendment to Purchase Order 2846-0001 SERV, issued to Journal Technologies, Inc., for a case management system, for New Pretrial Case Configurations total in the amount of \$10,000, a 1.20% increase. (Public Defender’s Office)

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED AND SENT TO FINANCE
MOVER:	Jim Zay
SECONDER:	Patty Gustin

8.C. [24-1242](#)

Tritech Software Systems, 6454-0001 SERV - This Purchase Order is decreasing in the amount of \$847,546.88 and closing due to cancellation of the contract. (Clerk of the Circuit Court)

Member Yoo commented on the large dollar amount of this item and asked for a brief explanation as to why the contract is closing. Circuit Court Clerk Candice Adams explained that her office has developed its own e-citation program so they no longer require the services of this vendor. Closing this contract will save the County a significant amount of money.

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED
MOVER:	Patty Gustin
SECONDER:	Greg Schwarze

9. CONSENT ITEMS

9.A. [24-1243](#)

Decrease and close Purchase Order 6062-0001 SERV, issued to Sentinel Offender Services, LLC, in the amount of \$79,842.01, due to the contract has expired. (Probation and Court Services).

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED
MOVER:	Patty Gustin
SECONDER:	Jim Zay

9.B. [24-1244](#)

Decrease and close Purchase Order 5947-0001 SERV, issued to Forensic Psychology Group, LLC, in the amount of \$23,462.50, due to the contract has expired. (Probation and Court Services)

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED
MOVER:	Patty Gustin
SECONDER:	Yeena Yoo

10. INFORMATIONAL

10.A. [24-1245](#)

Informational - Public Defender's Office Monthly Statistical Report - March 2024. (Public Defender's Office)

The motion was approved on a voice vote, all "ayes".

RESULT:	ACCEPTED AND PLACED ON FILE
MOVER:	Dawn DeSart
SECONDER:	Michael Childress

11. PRESENTATION

11.A. DuPage Sheriff's Dispatch Services

Deputy Chief Dan Bilodeau and Undersheriff Edmond Moore presented to the Committee an overview of what has transpired since the Fall of 2023 at which time ACDC informed the Sheriff's Office of the significant cost requirements to renew their contract. Upon learning of this cost increase, the Sheriff's Office requested a quote from DuComm and began negotiations with them. Deputy Chief Bilodeau then went into detail explaining the costs and fees quoted in each proposal and why they are confident that DuComm is the best option for them. Questions and comments were brought forth by Members DeSart, Zay, Krajewski, Yoo, Ozog, Gustin and Eckhoff, as well as Chair Evans, to which Deputy Chief Bilodeau and Undersheriff Moore responded.

12. RESOLUTIONS

12.A. [JPS-R-0011-24](#)

Approving an Intergovernmental Agreement with DuPage Public Safety Communications (DU-COMM) for Police Department Dispatch Services. (Sheriff's Office)

The motion was approved on a voice vote, all "ayes".

RESULT:	APPROVED AND SENT TO FINANCE
MOVER:	Patty Gustin
SECONDER:	Liz Chaplin

13. OLD BUSINESS

No old business was offered.

14. NEW BUSINESS

No new business was offered.

15. ADJOURNMENT

With no further business, Member Gustin moved, seconded by Member Chaplin to adjourn the meeting at 8:35 AM. The next meeting will be the Special Call Joint Meeting of the Judicial and Public Safety and Legislative Committees scheduled for Tuesday, April 23, 2024 at 11:30 AM, or immediately following the County Board Meeting.

Joint Special Meeting of the Judicial and Public Safety and Legislative Committees

Final Summary

Tuesday, April 23, 2024

11:30 AM

County Board Room

***11:30 AM or Immediately Following County Board Meeting*
Special Call**

1. CALL TO ORDER

The meeting was called to order at 2:00 PM by Chair Dawn DeSart.

2. ROLL CALL

Other Board members present: Member Cindy Cahill and Member Lynn LaPlante

Staff present: Conor McCarthy (Assistant State's Attorney), Sheryl Markay (Chief Policy and Program Officer), Jeff York (Chief Public Defender), Jason Blumenthal (Policy and Program Manager), Evan Shields (Public Information Officer) and Jenna Rossi (Policy Analyst).

Speakers: Jeff York (Chief Public Defender) and John "Chip" Humes (Lobbyist, Roger C. Marquardt & Co., Inc.)

Member Patty Gustin arrived at 2:02 PM due to attending another meeting.

PRESENT	Childress, Chaplin, DeSart, Evans, Galassi, Tornatore, and Yoo
ABSENT	Eckhoff, Krajewski, Ozog, Schwarze, and Zay
LATE	Gustin

3. PUBLIC COMMENT

No public comment was offered.

4. CHAIRS' REMARKS - CHAIR DESART AND CHAIR EVANS

Chair DeSart thanked everyone for attending this meeting which will provide an opportunity to learn more about the proposed Amendment to Illinois Senate Bill 595. The intent of this proposed Amendment is to encourage the Illinois Supreme Court to establish a framework for a statewide Office of Public Defense Trial Support. Chair DeSart then informed the Committee of another opportunity to participate in a discussion on this proposed legislation by attending the ISACo Justice and Public Safety Committee meeting on Friday, April 26, 2024 at 10:00 AM. She encouraged anyone interested in joining this discussion to contact her or Sheryl Markay to obtain the Zoom details. At this time, Chair DeSart and Chair Evans invited Chief Public Defender Jeff York to begin his presentation.

5. DISCUSSION

5.A. [24-1264](#)

Senate Bill 595 - Statewide Public Defender

Chief Public Defender Jeff York thanked the Committee for inviting him to present today and went on to provide an update on this proposed legislation. He began by clarifying that he will be sharing only his thoughts and opinions and does not speak for all public defenders. Initially, Mr. York reviewed the law as it stands currently, reported on his existing headcount and summarized the responsibilities of his office. He then spoke of the resources available to his office and the differences in how other Public Defender's Offices operate throughout the state. Mr. York also showed a graph comparing his office's budget with those of the collar counties. He next commented on a report entitled "The Right to Counsel in Illinois", published by the Sixth Amendment Center in June of 2021, that provides an evaluation of public defender services throughout the State of Illinois. Since this report, the Supreme Court as well as other entities have become involved in determining the future process of public defending. Mr. York then commented on the impact a Statewide Public Defender system might have on his office and other offices throughout the state. This concluded his presentation. At this time, questions and comments were brought forward by Member Gustin, Member Chaplin, Member Garcia and Chair DeSart, to which Mr. York responded. The topics covered possible opt-in/opt-out options, the importance of support from the Chief Judge and the County Board and proposed funding. Mr. York ended by recognizing Chief Administrative Officer Nick Kottmeyer, Chief Policy and Program Officer Sheryl Markay, Policy and Program Manager Jason Blumenthal and Lobbyist Chip Humes for being available and supportive in helping him navigate this issue.

Chair DeSart then asked Chip Humes to come forward to offer his thoughts on this pending legislation. Chair DeSart, Chair Evans and Member Gustin asked questions, to which Mr. Humes responded. One question raised was whether it would be advisable for a member of the Committee to contact their state senator or representative to express their concerns about this issue. Mr. Humes was not opposed to this. However, Chair DeSart cautioned that any member wishing to do this must do so as an individual, not as an elected official.

In conclusion, Chair DeSart thanked both Mr. York and Mr. Humes for providing the Committee with information on this proposed legislation.

6. OLD BUSINESS

No old business was offered.

7. NEW BUSINESS

No new business was offered.

8. ADJOURNMENT

With no further business, Member Gustin moved, seconded by Member Yoo, to adjourn the meeting at 2:37 PM.

Judicial/Public Safety Resolution

**RESOLUTION AUTHORIZING THE EXECUTION OF
A MEMORANDUM OF UNDERSTANDING BETWEEN THE COUNTY OF DUPAGE
AND THE ILLINOIS LAW ENFORCEMENT ALARM SYSTEM (ILEAS)**

WHEREAS, the ILLINOIS LAW ENFORCEMENT ALARM SYSTEM (ILEAS), 1701 East Main Street, Urbana, Illinois 61802, is a public agency of the State of Illinois created by various local law enforcement agencies throughout the State of Illinois pursuant to the Intergovernmental Cooperation Act (5 ILCS 220/1 et seq.); and

WHEREAS, the County of DuPage (County) is a unit of local government organized as a county under township organization as set forth in the Counties Code, the corporate powers of which are exercised by its County Board; and

WHEREAS, Article VII, Section 10 of the Illinois Constitution of 1970 and the Illinois Intergovernmental Cooperation Act, 5 ILCS 220/1 et seq. encourages and authorizes units of local government to cooperate and enter into agreements to promote the public welfare and accomplish the mission of local government; and

WHEREAS, ILEAS' mission is to coordinate statewide mutual aid response of member law enforcement agencies; and

WHEREAS, ILEAS purchases equipment to further its mission, including supporting law enforcement with a UCP #3; and

WHEREAS, ILEAS is desirous of having the custody of the UPC #3 assigned to the DuPage County Office of Homeland Security and Emergency Management; and

WHEREAS, the County is willing and able to become the custodian of the UPC#3 in order to provide prompt response to emergencies, disasters, and other calls from law enforcement and first responders for mutual aid; and

NOW THEREFORE BE IT RESOLVED, that the County Board of DuPage County accepts and approves the agreement attached hereto as Exhibit A.

Enacted and approved this 14th day of May, 2024 at Wheaton, Illinois.

DEBORAH A. CONROY, CHAIR
DU PAGE COUNTY BOARD

Attest: _____
JEAN KACZMAREK, COUNTY CLERK

Exhibit A

ILEAS UCP Unified Command Post Vehicle Agreement

1. **PARTIES.** The parties to this Agreement are the Illinois Law Enforcement Alarm System (ILEAS) and the County of DuPage (DuPage County).
2. **AUTHORITY.** ILEAS is a Public Agency of the State of Illinois created by various local law enforcement agencies throughout the State of Illinois pursuant to the Intergovernmental Cooperation Act (5 ILCS 220/1 et seq.). DuPage County is a County of the State of Illinois. This agreement between ILEAS and DuPage County is authorized under the provisions of the Constitution of the State of Illinois (Ill. Const. Art. VII, § 10), and the Intergovernmental Cooperation Act (5 ILCS 220/1 et seq.)
3. **PURPOSE.** The purpose of ILEAS is to support law enforcement mutual aid throughout the State of Illinois. Furthering that mission, ILEAS supports multi-disciplinary mutual aid, including communications and other specialized capabilities. To support law enforcement and other emergency responders, ILEAS coordinates and supports a number of communications vehicles, designated the Unified Command Post Vehicles (UCP) and seeks to locate the vehicles in various regions throughout the State of Illinois to provide prompt response to emergencies, disasters, and other calls for mutual aid. DuPage County is willing to become the custodian of ILEAS vehicle(s) to facilitate mutual aid in its region.
4. **RESPONSIBILITIES.**
 - a. ILEAS shall:
 - 1) Provide to DuPage County the following vehicle (“the vehicle”):
Make: Freightliner
Model: Utilimaster
Color: White
Year: 2005
VIN: 4UZAASBW95CV06992
 - 2) Inform DuPage County of any recall or product liability issue within a reasonable time of ILEAS being informed as the “purchaser of record” of the issue.
 - b. DuPage County shall:
 - 1) Accept the vehicle, obtain proper title and license for the vehicle, and insure the vehicle and assigned equipment according to its own policies for insuring similar items.
 - 2) Conduct appropriate and effective preventative maintenance and keep the vehicle and equipment in good

operating condition at all times and be responsible for fuel, oil and other maintenance consumables, and all reasonable repairs.

- 3) Store the vehicle in a safe location and make reasonable efforts to protect it from the outdoor elements when not in use.
 - 4) Make the vehicle available, with the necessary personnel, upon call for mutual aid and interagency regional emergency responses, as requested either by ILEAS or IEMA.
 - 5) Make the vehicle available to ILEAS or IEMA for regional training.
 - 6) Make the vehicle available for inspection by any official of ILEAS or IEMA.
- c. DuPage County shall not be responsible for the vehicle when it has been activated as a State resource and is outside the control and supervision of DuPage County.
 - d. ILEAS shall not be obligated to fund any capital replacement costs for the vehicle.
 - e. It is not the duty, function, responsibility or purpose of ILEAS to deploy, supply, direct, command or manage any law enforcement personnel.

5. USE OF THE VEHICLE. DuPage County will abide by the following conditions governing the use of the vehicle.

- a. The vehicle shall only be used for official purposes.
- b. The vehicle shall be subject to the following hierarchy of use:
 - 1) State and Federally declared disasters
 - 2) DuPage County emergencies
 - 3) Other agency emergencies, pursuant to mutual aid requests
 - 4) State training exercises
 - 5) DuPage County training exercises
 - 6) Other agency training exercises

- c. The vehicle shall only be operated by official, trained employees of DuPage County or trained volunteers of DuPage County, unless the vehicle has been transferred to another jurisdiction with the express prior consent of ILEAS.
- d. The vehicle may be used by DuPage County as an asset for its own or regional critical incidents or training.
- e. The vehicle shall not be used or operated contrary to law.
- f. The vehicle will not be used for any campaign or political purposes.
- g. The vehicle will not be operated in a negligent or reckless manner.
- h. The vehicle will not be assigned to one person for use as a “take home” vehicle or used on a daily basis.
- i. The vehicle will not be marked in any fashion without the written consent of ILEAS.
- j. The vehicle will not be altered or modified in any significant manner without the consent of ILEAS.
- k. The vehicle will not be removed from the State of Illinois without prior permission from ILEAS. However, the vehicle may be removed from the State of Illinois in the case of an emergency when DuPage County is responding to a request for assistance pursuant to a preexisting mutual aid agreement, in which case DuPage County will notify ILEAS of the response as soon as reasonable.

6. INSURANCE. DuPage County shall fully indemnify ILEAS against any and all loss of or damage to the vehicle or equipment. DuPage County shall report all instances of theft, collision, or significant damage to the ILEAS Executive Director within three business days of their discovery. When this vehicle is activated by ILEAS or IEMA and not under the directed control and supervision of DuPage County, DuPage County will not be financially responsible for damage that may occur to the vehicle.

7. NOTIFICATIONS For any communications concerning this agreement, the parties agree that the following individuals, or their successors, shall constitute adequate notice to the party with whom they are identified:

- a. DuPage County OHSEM
Emergency Management Coordinator
418 North County Farm Road
Wheaton, Illinois 60187
- b. Illinois Law Enforcement Alarm System

Executive Director
1701 East Main Street
Urbana, IL 61802

8. **SEVERABILITY.** Nothing in this agreement is intended to conflict with current laws or regulations. If a term or provision of this agreement is inconsistent with such current laws or regulations, then that term or provision shall be invalid, but the remaining terms and conditions of this agreement shall remain in full force and effect. Nothing contained herein shall be deemed to affect contracts, agreements or other memoranda of understanding between ILEAS and DuPage County.
9. **EFFECTIVE DATE.** The terms of this agreement will become effective upon the date that this agreement is executed by the last party to execute this agreement by the date(s) shown below.
10. **MODIFICATION.** This agreement may be modified upon the mutual written consent of the parties to this agreement.
11. **TERMINATION.** The terms of this agreement, as modified with the consent of both parties (if applicable), will remain in force and effect until terminated by either party. Either party, upon 30 days written notice to the other party, may terminate this agreement. Upon termination, by either party, DuPage County shall return the vehicle to ILEAS.
12. **ADDITIONAL PROVISIONS.**
 - a. Compliance with Laws - All parties to this agreement intend to comply with all federal, state, county and local laws and ordinances as well as all applicable rules, regulations, and standards established by any agency of such governmental units, which are now or hereafter promulgated insofar as they relate to and govern the parties to this agreement.
 - b. Status of Signatories – Nothing contained within this agreement shall be deemed to create, or be interpreted to intend to create, a joint venture, partnership or any other sort of legal association or combination of entities as between the parties to this agreement. Each party to this agreement is acting in its own individual capacity and not as the agent of any other entity.
 - c. Immunities - With respect to the parties to this agreement, their participation in this agreement shall not be deemed to waive any governmental immunity or defense to which the parties would otherwise be entitled under statute or common law in the absence of this agreement.

- d. No Third-Party Beneficiary - This agreement is not intended nor expected to confer upon or permit any person or entity, other than the parties to this agreement, any information, benefits, advantages, rights or remedies. It is expressly understood and agreed that this agreement, shall not give or allow any claim or right of action by any third person or entity (including, but not limited to, members of the general public) based on this agreement. It is the express intention of ILEAS and DuPage County that any person or entity (other than ILEAS and DuPage County) who may be deemed to receive services or benefits under this agreement shall be deemed to be only an incidental beneficiary to this agreement.
- e. Paragraph Headings - The captions and headings used in this agreement are only for convenience of reference and the organization of this agreement and shall not be construed as expanding, defining or limiting the terms and provisions in this agreement.
- f. Parol Evidence - This agreement constitutes the entire understanding between ILEAS and DuPage County concerning this agreement's subject matter, whether or not written, and may not be modified except as otherwise provided herein.

IN WITNESS WHEREOF, the parties to this agreement have noted their understanding of the terms of this document and the accommodations set forth therein on the dates shown below.

ACCEPTANCE AND APPROPRIATION OF
THE ILLINOIS COURT TECHNOLOGY
MODERNIZATION PROGRAM GRANT PY24
AGREEMENT NO. TM24-082
COMPANY 5000 - ACCOUNTING UNIT 5925
\$346,906

(Under the administrative direction of the
DuPage County 18th Judicial Circuit Court)

WHEREAS, the County of DuPage, through the DuPage County 18th Judicial Circuit Court has been notified by the Administrative Office of the Illinois Court (AOIC) that grant funds in the amount of \$346,905.65 (THREE HUNDRED FORTY-SIX THOUSAND, NINE HUNDRED FIVE AND 65/100 DOLLARS) are available to be used for technology goods/services to modernize local court systems in DuPage County; and

WHEREAS, to receive said grant funds, the County of DuPage on behalf of the DuPage County 18th Judicial Circuit Court must enter into Agreement No. TM24-082 with the Administrative Office of the Illinois Courts (AOIC), a copy of which is attached to and incorporated as a part of this resolution by reference (ATTACHMENT II); and

WHEREAS, the term of the grant agreement is from January 2, 2024, through June 30, 2024; and

WHEREAS, no additional County funds are required to receive this funding; and

WHEREAS, acceptance of this grant does not add any additional subsidy from the County; and

WHEREAS, the County Board finds that the need to appropriate said grant funds creates an emergency within the meaning of the Counties Act, Budget Division, (55 ILCS 5/6-1003).

NOW, THEREFORE, BE IT RESOLVED by the DuPage County Board that Agreement No. TM24-082 (ATTACHMENT II) between DuPage County, on behalf of the DuPage County 18th Judicial Circuit Court, and the Administrative Office of the Illinois Courts (AOIC) is hereby accepted; and

BE IT FURTHER RESOLVED by the DuPage County Board that the additional appropriation on the attached sheet (ATTACHMENT I) in the amount \$346,906 (THREE HUNDRED FORTY-SIX THOUSAND, NINE HUNDRED SIX AND 00/100 DOLLARS) be made to establish the Illinois Court Technology Modernization Program Grant PY24, Company 5000 - Accounting Unit 5925, for the period January 2, 2024, through June 30, 2024; and

BE IT FURTHER RESOLVED by the DuPage County Board that the Chief Judge of the DuPage County 18th Judicial Circuit Court is approved as the County's Authorized Representative; and

BE IT FURTHER RESOLVED that should state and/or federal funding cease for this grant, the Judicial and Public Safety Committee shall review the need for continuing the specified program and head count; and

BE IT FURTHER RESOLVED that should the Judicial and Public Safety Committee determine the need for other funding is appropriate, it may recommend action to the County Board by resolution.

Enacted and approved this 14th day of May, 2024 at Wheaton, Illinois.

**ILLINOIS COURT TECHNOLOGY MODERNIZATION PROGRAM
FUNDING AGREEMENT**

This Funding Agreement, hereinafter "Agreement", is entered into by and between the county of DuPage, hereinafter "County", the Chief Circuit Judge and the Administrative Office of the Illinois Courts, hereinafter "AOIC", for the purpose of defining the responsibilities of the County and the AOIC in regard to the Illinois Court Technology Modernization Program.

The AOIC, on behalf of the Supreme Court of Illinois, will reimburse or make payment to the County with Fiscal Year 2024 Judicial Branch funding for technology goods/services to modernize local court systems.

The AOIC agrees to the following responsibilities:

- The AOIC will remit payment to the Illinois Comptroller's Office for the approved technology goods/services listed on the Funding Request Form (Exhibit A) pursuant to the executed Funding Agreement.

The County agrees to the following responsibilities:

- By signing this agreement, the Chief Circuit Judge and County Treasurer, ensures the technology/resource requests are submitted for modernizing their local court system.
- Will only procure the approved technology goods/services on the Request Form. Any adjustments to the approved Request must be approved by the AOIC prior to making any purchases or procuring services.
- Will comply with the County's policies and procedures for the procurement of any approved technology goods/services.
- If requesting Reimbursement to the County (Option 1), the County will complete an Invoice Voucher and attach itemized vendor invoice(s) and forward all documents for payment.
- If requesting Payment to the County (Option 2), the County will complete an Invoice Voucher and attach vendor proposal(s) and forward all documents for payment. Once the equipment and services are purchased, the County will forward paid invoice(s) for reconciliation. If the payment received was more than the paid invoice(s), the County will return the over payment to the AOIC.

This Agreement may be terminated, by either party, for failure to comply with the provisions of this agreement. The AOIC reserves the right to audit the approved Funding Agreement.

This Agreement is effective upon signature of the Chief Circuit Judge, County Treasurer and the AOIC.

FISCAL YEAR 2024 ILLINOIS COURT TECHNOLOGY MODERNIZATION PROGRAM REQUEST FORM

PURPOSE AND SUBMISSION

The Administrative Office of the Illinois Courts (AOIC), on behalf of the Supreme Court of Illinois, seeks technology requests to modernize local court systems. The Program is offered with limited Fiscal Year 2024 Judicial Branch Funding for technology goods and/or services necessary to continue the Supreme Court's technology initiative.

Request due by: Friday, January 12, 2024 **Submit to:** technologymodernization@illinoiscourts.gov

APPLICANT INFORMATION

Judicial Circuit	<u>DuPage</u>	County	<u>Eighteenth Judicial Circuit</u>		
Name of Governmental Organization	<u>DuPage County</u>				
<i>If Funding is Approved, please identify the Name to appear on the Warrant/Check</i>					
Taxpayer Identification Number	<u>36-6006551</u>				
County Treasurer's Name	<u>Gwen Henry</u>				
Address	<u>421 N. County Farm Rd</u>				
City/State/Zip Code	<u>Wheaton</u>		<u>IL</u>	<u>60187</u>	
Telephone Number	<u>630-407-5998</u>	Email Address	<u>Gwen.Henry@dupagecounty.gov</u>		

FUNDING OPTIONS

The Approved funding will require the Chief Circuit Judge and the County Treasurer to enter into a Funding Agreement with the AOIC. Payment to the County will be made utilizing one of the following options.

Please check one option and enter the funding requested and attach an "Itemized Technologies Goods/Services Request Form" listing the items. The amount identified on the Funding Request Form MUST equal the total on the Itemized Technologies Goods/Services Request Form.

PLEASE CHOOSE ONLY ONE OPTION:

OPTION 1. **REIMBURSEMENT TO THE COUNTY:** The County MUST procure and make all payments for the Approved goods/services. The County MUST submit the Invoice Voucher, vendor invoice(s) with proof of county payment to seek funding reimbursement from the AOIC.

AOIC approved amount: \$346,905.65

TOTAL AMOUNT OF FUNDING REQUESTED FOR OPTION 1: \$ 496,237.65

Option 2. **PAYMENT TO THE COUNTY:** The Approved request for goods/services will be processed for payment to the County upon receipt of the Invoice Voucher along with the vendor's proposal/quote(s). The County MUST submit vendor invoice(s) with proof of county payment to the AOIC once all invoices are paid.

TOTAL AMOUNT OF FUNDING REQUESTED FOR OPTION 2: \$

COUNTY TREASURER'S CERTIFICATION AND CHIEF CIRCUIT JUDGE'S APPROVAL

I, Gwen Henry, County Treasurer, to the best of my knowledge, do hereby certify that the information is correct and acknowledge that the Chief Judge has reviewed and approved this Funding Request for modernizing their local court system.

County IL

Updated 12/27/23 – Changed terms to Net 30, and extended the proposal expiration to 60 days.

Conference Technologies, Inc. will provide and install an upgrade to the existing AV systems for Traffic Courtrooms CR1001, CR1002 and CR1003. Designed in accordance with the standard courtrooms approved for DuPage County.

Prevailing Wage, Normal Business Hours Labor Quoted

Traffic Courtrooms CR1001, CR1002 and CR1003 - feature set includes:

All rooms to have the DSP dialer functionality added to the Panel as done in CR1000.

CR1001 AV Rack is existing. Equipment labeled 103,104,104 which is not used to be removed from existing rack. Equipment may be moved to another rack location.

- Two 75" Displays on Articulating Wall Mount at Front of Gallery
- One 22" desktop monitors (Witness as Judges display is existing)
- HDMI inputs for Judge and One External location TBD
- Three Cameras (Judge Close Up, Well, Witness)
- Power amplifier for additional audio zoning
- Related Programming Upgrades
- Audio Sources Existing

CR1002 Shares a 21ru rack with CR1004 this will require a new rack.

- One 86" primary monitor above Witness
- Two 75" Displays on Articulating Wall Mount at Front of Gallery
- One 22" desktop monitors (Witness as Judges display is existing)
- HDMI inputs for Judge, Attorney Table 1, Attorney Table 2 (wall plate for disconnect)
- Six cameras (Judges Bench, Judge Close Up, Attorney Table 1, Attorney Table 2, Well, Witness)
- Power amplifier for additional audio zoning
- Related Programming Upgrades
- Audio Sources Existing

CR1003 AV Rack is existing and may be reused.

- Two 75" Displays on Articulating Wall Mount at Front of Gallery
- One 22" desktop monitors (Witness as Judges display is existing)
- HDMI inputs for Judge and One External location TBD
- Three Cameras (Judge Close Up, Well, Witness)
- Power amplifier for additional audio zoning
- Related Programming Upgrades
- Audio Sources Existing

Please note that all electrical power, network, phone, and structural requirements are to be provided and installed by others. Any repair or replacement of the existing equipment either requested or necessary will be added to the cost of the project. All cables and connectors necessary for integration will be provided. Installation will occur according to an agreed upon schedule. Project delays due to either or both incomplete infrastructure requirements and unavailable site access once scheduled and confirmed will be added to the cost of the project. A dedicated Project Manager will be assigned for coordination of all work and will schedule a training session with users at a mutually agreed upon time. Protective coverings will be utilized with all work around owner furnishings and care will be taken with ceiling tiles to prevent damage.

Your Investment

Below is the cost of this solution based on the outlined scope of work. If you have questions about the complete solution, please let us know how we can help align this investment with additional needs or changes in scope.

Standard Disclaimer

CTI provides for twelve (12) months of **CTI Complete** on all system purchases. CTI warrants the system implemented is free from defects in material and workmanship, in accordance with the contract, drawings, specifications, alterations and additions thereto, for a period of twelve (12) months from the date of commencement of use, substantial completion, or date of notice of completion, whichever occurs first. This coverage does not protect against consumables, severe weather, and acts of God.

Terms

Terms are NET 30. Payments made by credit card are subject to a 3.0% fee.

All applicable taxes are the responsibility of the purchaser and will be added to the final invoice. Any cancelled orders or returns are subject to manufacturer acceptance; shipping and restock fees may apply. This proposal is valid for fourteen (60) days.

Installation Description and Requirements

Provided by CTI: If installation is purchased, CTI will install all A/V components. CTI will also perform all programming, alignments, and end-user training. CTI will provide A/V project management, and provide drawings as required. This install price assumes a Monday through Friday 8:00am to 5:00pm install time. Room availability must be in consecutive 8-hour blocks. Any required changes or rushes may affect the final price.

Provided by Others

Electrical requirements are to be provided by others unless specifically included in CTI Scope of Work.

Statement

This system proposal is the property of CTI and is delivered with the sole intent of being viewed by management of 18th Judicial Circuit, DuPage County II and AOIC Chief Information Officer, for evaluation purposes only. This proposal or any part of this proposal is not to be presented to, or viewed by any other party, vendor, or CTI competitor without the written consent of CTI Any effort to do so will be considered a violation of copyright law.

Next Steps

1. Upon Notice to Proceed, CTI will begin executing the project plan with an internal handoff of the project to our operations team.
2. If you have questions about the process as we move forward, please contact me at Gina.Skrip@cti.com or 872-806-1712.
3. A CTI Project Manager will contact you to schedule a project kickoff meeting to review the project scope and schedule.

CourtSmart Digital Systems, Inc.		Quote Prepared for:	DUPAGE COUNTY COURTHOUSE
51 Middlesex Street			
North Chelmsford, MA 01863		Quote Type:	HD-IP CAMERA REFRESH
978-251-3300		Document:	STATEMENT OF WORK
www.courtsmart.com		Quote Version:	v.2.0
	Quote Expiration Date:	26 February 2024	

CourtSmart will provide new Hi-Def IP cameras for thirty (30) courtrooms located in the DuPage County Courthouse. **CourtSmart** will remove each existing Standard Def camera and replace it with an IP-based HD camera. **CourtSmart** will provide a POE 16 port switch per AV closet, which will need network connectivity to the **CourtSmart** servers. The Court has stated that the County will provide the CAT6 network cabling and connections from the cameras in the courtrooms to the audio closets on each floor.

The **Court** will provide the following:

- CAT6 cabling and termination from each camera location to floor’s AV closet
- Network Cabling from each AV closet to server room if required

All new hardware has a 1-year warranty. After the 1-year warranty period, the **Court** may elect to purchase annual support services for the new hardware.

PLEASE READ:

We have witnessed uncertainty in both production and delivery times for products purchased by **CourtSmart** during the past 3 years. Supply chain issues have affected both price changes and product availability. This makes quotes, fulfillment, and most importantly, scheduling installations difficult. **CourtSmart’s** ability to deliver product is contingent upon our suppliers’ ability to consistently fulfill our orders. On a regular basis we receive notices from suppliers that products are being discontinued and deliveries are delayed. **CourtSmart** will continue to provide the best possible solutions and additional sources for products. We appreciate both your flexibility and patience during these unpredictable times.

North Chelmsford, MA 01863					
978-251-3300					
www.courtsmart.com		VERSION	2024		
COURTSMART STANDARD TERMS					

ALL PRICES ARE PLUS ANY APPLICABLE TAXES THAT THE USER IS SUBJECT TO ARISING FROM THIS TRANSACTION.

The purchaser shall pay all taxes or duties based on or in any way measured by this procurement, the computer software, hardware, or any services related thereto, including any personal property taxes but excluding taxes based on **CourtSmart's** net income. If the purchaser elects to challenge the applicability of any such taxes, the purchaser shall pay such taxes to the taxing authority and the purchaser may thereafter challenge such taxes and seek refund thereof.

Installation included is for all **CourtSmart** identified hardware and software. **CourtSmart** is not responsible for providing wiring within the recording rooms or from the rooms to an external location unless specifically identified in the quotation. All network infrastructure including, but not limited to, switches, routers, hot spots, wiring, security, and bandwidth are strictly the responsibility of the end-user unless specifically outlined in this quotation for goods and services. Training of all associated staff is included at no additional charge. It is assumed that all staff trained will be experienced in the operation of Windows before training. **CourtSmart** will not train staff on Windows usage.

CourtSmart is basing the following quotation upon information provided verbally to us by the end user staff or a Statement of Work contained in a written communication or formal procurement request. These requirements serve as the basis upon which our quotation is based. Should your requirements change, it may be necessary to adjust our recommendations or pricing accordingly. **CourtSmart** reserves the right to substitute hardware manufacturers and models based upon availability and/or technology improvements. Any hardware so substituted will be of equal or greater performance. The prices quoted are valid for a period of 90 days from the date of this quotation and may be extended by agreement of the parties.

WARRANTY AND MAINTENANCE: All **CourtSmart** supplied software and hardware comes with a standard, limited one (1) year warranty from date of installation to the original purchaser of the product and cannot be transferred with the exceptions noted below. This Warranty covers all parts and labor for any failures that occur in the normal course of system operation. It does not cover problems that occur through the misuse or abuse of the system. It does not cover administrative, policy changes, or other non-support or maintenance actions taken. Modifications made to the system contrary to the express direction of **CourtSmart** or failure to seek approval prior to undertaking such actions are also not covered. If functional changes or additions are requested, these are not normally covered under warranty or standard support services. The Warranty does not cover normal wear and tear nor does it cover physical damage to any products unless that damage was the direct result of manufacturing defects. **CourtSmart** is not responsible for any consequential damage due to any failure of the hardware or software to perform as intended. **CourtSmart** bears no responsibility or obligation with respect to the manner of use of any **CourtSmart** system or components of the system. **CourtSmart** disclaims and negates any warranty of merchantability or fitness of use of such system or components of such system including, without limitation, any warranty that the use of such system or components for any purpose complies with applicable laws or regulations.

CourtSmart will not continue to support hardware that has reached the manufacturer's end-of-life cycle. Third party software such as Microsoft Windows and SQL are not covered under warranty or maintenance.

CourtSmart provides at the conclusion of the warranty period an optional annual Support Services Agreement covering applicable hardware, software enhancements, fixes, and upgrades deemed appropriate by **CourtSmart** at its sole discretion. An Annual Support Services Agreement also provides telephone support. The annual maintenance contract is invoiced at a cost of 12% per year of the purchase price of the hardware and software. Support services require a VPN or other high-speed access provided by the end-user. The laws of the Commonwealth of Massachusetts govern the terms of the Warranty. Exceptions to the Annual Support Services Agreement include but are not necessarily limited to UPS batteries and other parts considered normal wear and tear.

CourtSmart proprietary software is provided in accord with **CourtSmart's** End-User Licensing Agreement (EULA) that provides the User with a limited, non-exclusive, personal license to use the software on the computer that it was originally installed and for the purpose originally intended. The end-user may not resell, assign, or give the software to any other entity without the express written permission of **CourtSmart** Digital Systems, Inc. Likewise; **CourtSmart** application software may not be installed on additional computers or in additional rooms without payment of the required licensing fees. **CourtSmart** does allow the transference of licenses from one computer to a replacement computer for maintenance or upgrade purposes. **CourtSmart** recording software is licensed to a specific room or venue and may not be relocated or dynamically switched to a different room without the payment of licensing fees or the express written permission of **CourtSmart** Digital Systems. Client software is licensed to a specific workstation PC.

CourtSmart developed hardware, reference manuals, and software constitutes a valuable asset of the corporation and are protected by Federal and International copyright law. The end-user must protect this material from accidental or deliberate disclosure to third parties by employees of the court system, its agents, or users of the system. Any such disclosures could cause irreparable harm to **CourtSmart** Digital Systems.

RFP # 23-138-CCT

Jury Management System

December 15th, 2023

Judicial Systems, Inc.
211 Robert E. Lee
Tyler, Texas 75703
(903) 561-8328

December 15th, 2023

Aaron Green

Micro Systems Supervisor

Having received the RFP 23-138-CCT Upgrade Jury Management System, along with Addendum 1, Judicial Systems, Inc., the preeminent provider of Jury Management Software Solutions, is pleased to submit this response to your Request for Proposal for a Jury Management System.

We have carefully reviewed the requirement and are extremely confident **Genesis** will exceed your needs. **Genesis** is a dynamic, robust, and uniquely flexible web-based Juror Administration Software System. Not only does this system provide the services one customarily associates with computerized systems but written into **Genesis** is the keystone of flexibility. **Genesis'** capability to customize features to meet the demands of any Federal, State, County, or Municipal government entity consisting of varying dimensions from its geographical dispersion of a diverse population to the judiciary itself.

Thanks to our active User's Group for expressing the many innovative ideas for functionality and reports in the past and through their continued support we will continue to keep **Genesis** the premier jury management system available. **Genesis** will provide updates and enhancements so that your jurisdiction should not have to purchase or develop new software every few years as technology progresses.

Judicial Systems is proposing a Jury Management Software package that will allow DuPage County, IL to automate the entire process from the time the initial qualification or summons until the Juror is paid in full. This system will allow the courts the ability to track, update and maintain all the information in the Jury Wheel.

Judicial Systems, Inc. has been working with Federal, State, County and Local courts for the past 40+ years. We are confident that as you review this response, you will agree that Judicial Systems, Inc. offers a wonderful opportunity to not only meet and exceed current requirements for a Jury Management System, but also establish a solid foundation for future savings in costs by means of efficiencies enabled by future technological advancements.

Thank you for the chance to provide this proposal.

Sincerely,

Points of Contact:

Gary Dower - (903) 561-8328 – gary@judicialsystems.com
Patrick Dalton - (903) 561-8328 – patrick@judicialsystems.com

www.judicialsystems.com
www.genesisjury.com

Judicial Systems, Inc. serves our customers by delivering services and solutions focused on each customer's specific needs, with emphasis on developing and integrating information systems and improving technology in court processing. Judicial Systems clients are our best marketing tools.

- We conduct ongoing research and development to keep our customers on the leading edge of technology. This philosophy ensures that we provide solutions that exceed today's and tomorrow's court requirements.
- We serve our customers by delivering services and solutions focused on each customer's specific needs. The customer is always involved and receives total support from Judicial Systems, Inc. throughout the installation process and for the system's life.
- Judicial Systems, Inc.'s commitment to service, concern for our customers, and continual enhancement to **Genesis**, is the foundation of each customer's success.
- Judicial Systems, Inc. is built around our core values which are at the heart of who we are and what we do, and a climate that is fostered to support every customer with every aspect of our organization.
- By working closely with each jurisdiction since 1982, we have a unique and thorough understanding of the many unique court processes. **Genesis** has over 1,100 customization points and template-based documents to ensure each jurisdiction can have a specialized installation, using the same code base for reliable processing.
- Judicial Systems is part of your team. We are a resource, a partner in every sense of the word.
- Our team of 11 with 8 full-time members ensures a consistent level of quality and consistency. We do utilize Contract-To-Hire flex personnel on an as needed basis, allowing us to build our organization with known quality and with personnel that fit our company and team. Our Staffing Plan for 2024 should bring our team to 16 full-time members.
- Our team currently supports over 165 counties across the nation that are running various versions of our software.

YOUR TEAM

Judicial Systems, Inc. is built on the foundation of serving our clients' unique needs with 24/7/365 personal support. We take pride in our approach to personal and responsive service. The key to that time-honored method of support is ensuring our staff all share the commitment to our client's success. We don't use call services, web-forms or client-faced ticketing systems. We focus on security and compliance at every level of support and development. Every client has an assigned dedicated client support representative that ensures each unique client experience meets our service level agreements and standards.

Key Staff Members

Gary Dower

President, Software Architect, Senior Programmer

Since 1984, Gary has focused on analysis, design, development and implementation of software and hardware systems specializing in integrated governmental solutions. Gary has a proven track record in delivering governmental-critical solutions in a variety of environments ranging from mainframe, client/server, to Web-based delivery systems. Design, development, and support software applications for Federal, state and local governments is his specialty. By working closely with users of applications to understand their unique needs Gary has supplied quality solutions and industry leading software. Gary has spent his entire career with Judicial Systems.

Patrick Dalton MCSD, MCT

Software Architect, Compliance Officer, Project Manager, Senior Programmer, Author

Patrick's background in the industry dates to 1982 and covers an incredible depth and breadth of experience across virtually every discipline from networking, hardware and software to managing global projects. With decades of enterprise system development experience, data warehouse, application development, training, security, and design best practices experience, Patrick brings a unique vision and perspective to thoughtful and process driven development.

Patrick is the author of the Microsoft SQL Server Black Book series and has travelled internationally teaching and providing project augmentation in database and development best practices to companies like NASA, Honeywell, Atlas Van Lines, MMREM, HUD, DHS, Cray Computer Corporation and has been a full-time employee of the Judicial Systems Team since 2019.

Lance Johnson

Software Architect, Senior Programmer, Systems Administrator

Lance has an extensive development portfolio covering web-application development, data warehouse processing, security implementation and hardware infrastructure. With decades of experience in the industry, Lance provides the "hands-on" level of experience few engineers and developers can come close to. As an integral developer in the security and development of Genesis, Lance is an incredible lead for client support and application development. Lance has been a full-time employee since 2020.

Primary Project Contact Qualifications

Patrick Dalton has an extensive background in project management and software implementation. He will be assigned as the primary contact for this project and assigned as the Project Manager for the delivery of Genesis. Patrick is currently assigned as the lead client representative and primary contact for 2 clients.

Patrick will be executing the onboarding checklist, data migration, and staff training for Genesis. Patrick will be responsible for scheduling, meetings and eventual go-live operations.

Lance Johnson will also be performing onboarding tasks, converting documents, and ensuring configuration and network settings are correct prior to launch. Being assigned as the primary support contact for the county, Lance currently supports 7 other clients as the lead support contact on an ongoing basis.

JUDICIAL SYSTEMS SERVICE LEVEL AND COMPLIANCE PROCESSES

Judicial Systems utilizes a Service Level Agreement to provide security and compliance activities regarding client interactions and issue resolution. Judicial Systems uses an internal ticketing system to provide documentation, status and resolution metrics for our entire support department.

All reported support requests will be logged and documented in JSI's internal ticketing system. Reports must be submitted by a designated user and/or approved by the designated POC for the county. The initial report should include enough information to properly recreate, research, and classify the reported incident or defect.

See **Attachment 3** for our Service Level Abstract that describes our policies and procedures in more detail and illustrates our commitment to Compliance, Communication and Services.

GENESIS PRODUCT DESCRIPTIONS

While Genesis is made up of a series of modules, each jurisdictional need is different. We therefore price and install according to each county, their needs, customization, and processes. Here is an overview of the modules and their highlights.

Genesis Jury System

The Genesis Jury Management System is the most advanced, integrated jury management system available. Because no two courts are alike, Genesis, the most comprehensive Jury Management System on the market today, is designed to match each court's unique requirements. By working closely with each jurisdiction since 1982, we have a unique and thorough understanding of the many different court processes. Genesis makes extensive use of user-defined tables and templates, which allow courts to customize the application to their own environments and business practices.

Genesis Jury Module is completely web-based! Genesis has been built from the ground up with security, performance, and customizability as its primary focus. This web-based solution is the evolution of decades of experience and leveraging current technology to deliver state-of-the-art, best-in-class software to the courts.

Genesis uses a modular approach to allow courts to choose those services that matter most to them, but in a highly secure, seamlessly interconnected platform. Taking all the lessons learned from our award-winning windows-based application, combined with best practices web development – Judicial Systems, Inc. has delivered the NEW industry standard for Jury Management.

Because Genesis modules are designed and developed by Judicial Systems, Inc., each one is 100% integrated with Genesis. Each module reduces the amount of staff time required to process much of the information received and disseminated, resulting in the jury operations of the court to function more efficiently.

GENESIS JURY HIGHLIGHTS:

- **Completely Integrated Interfaces:**
 - Document Imaging System: Scanning
 - Interactive Voice Response System: IVR
 - Juror Self-Service Web Response System: Portal
 - Interactive Juror Messaging System: Messaging
 - Interactive Chat Bot and Chat Rooms: Chat
 - Built-in Attorney Portal and Voir Dire Support
- **Save Time** – This fully automated Genesis software can process jurors more efficiently allowing your courts to complete the jury selection process faster.
- **Save Money** – Processing jurors more efficiently through the jury process saves you money.
- **Simple to Operate** – Processing jurors through qualification, summoning check-in, courtroom assignments and payment functions can be accomplished with minimal effort.
- **Superior Technical Support** – Our trained technical support specialists are available to assist your staff with any questions that might occur.
- **Context Sensitive Help** – On-line help is available with many data screens within the system, allowing quick retrieval of an explanation of system functionality.
- **Customizable Reporting** – There are over 95 Standard reports that are customizable provided by Genesis.
- **Data Accuracy and Integrity** – Field edits and system processes are completely logged to ensure data is entered and updated correctly within the system.
- **Secure and Reliable** – Genesis uses enterprise level security best practices and encrypted juror documents to ensure the highest levels of security. The multi-tier design provides a fast and reliable user experience that is highly tunable to any court's needs.
- **Microsoft SQL Server** – The database foundation of any system is the key to a high-performance application. Genesis leverages SQL Server and its enterprise performance capabilities to deliver the best possible foundation to its design.
- **Court Customization** – Genesis makes use of over 1,100 user-definable parameters and configuration settings, allowing courts to customize Genesis to their own unique operating requirements. All Documents are template based for re-use by different jurisdictions leveraging one template and macros.
- **Security Profiles** – Individual user security profiles and passwords restrict user access at key levels within the system.
- **Custom User Interfaces** – Menus, processes and locations are all secured on a user-by-user basis to provide the maximum control over who can access what parts of Genesis. Ensuring you can tune Genesis for the workflow that best matches your staffing and processes.
- **Real-Time Content Editing** - Users can easily create an unlimited number of templates, letters, and forms for mail merging to send customized correspondence and court orders to potential jurors. Additionally, Content of documents, web pages and text used throughout the system can be managed without programming changes in real time as needed.

Genesis Self-Service Web Portal (Portal)

An optional component of the Genesis Jury Management System, Genesis Self-Service Web Portal (Portal) allows citizens to communicate with the court via the Internet. Upon receiving a qualification postcard, questionnaire or summons, jurors can access court information, enter biographical information, request service postponements and deferrals, and more.

Jurors can visit your Web site to find answers to commonly asked questions, accept service, view instructions for the next day's service, or request an exemption or deferment according to court specific rules. By incorporating Portal into your court's Web strategy, you can provide jurors with essential information about your court and jury processes. E-mail links allow jurors to contact the court electronically, so your employees can respond during times when they are not busy. With Portal, you can provide the superior service your constituents expect, both in person and online.

PORTAL HIGHLIGHTS:

- Fully integrated with Genesis
- Allows immediate access for jurors to jury service information, 24 hours a day.
- Provides individual reporting instructions for each juror including an interactive map from the juror's residence to the courthouse including turn by turn directions.
- Provides juror with detailed county policy regarding: Length of Service, Rate of Pay, Dress code, Parking and Security requirements.
- Jurors can complete Qualification Questionnaires and or Summons Profile Questionnaires on-line.
- Jurors may request to defer themselves to a future date, as specified by the court's own rules.
- Updates individual juror history with all Portal activity.
- Eliminates the need for jury staff recording reporting instructions on voice mail or an automated attendant system.
- Frees court staff for more productive work.
- Improved service & citizen/juror satisfaction.
- Ability to pre-qualify via the internet.

Genesis Imaging System (Imaging)

Judicial Systems, Inc. provides courts with a seamless data and image capturing solution. Using Intelligent Character Recognition (ICR), Optical Character Recognition (OCR), Optical Mark Recognition (OMR) and barcode reading, juror qualification questionnaires and summons profiles can be digitally scanned to make processing more efficient. The digital images can be stored, displayed, and printed keeping actual paperwork to a minimum. In addition to taking a digital picture of the front and back of these forms, the data is read from the forms and updated within Genesis. The quality and integrity of the captured data is dramatically improved by reducing errors inherent with manual data entry procedures.

One of the critical operational problems faced by most courts today is how to provide adequate storage for an ever-increasing volume of court documents. There are several issues that make up this problem. First, the courts are mandated by law to store records for extended periods of time. This can require a significant amount of physical storage space. Digital scanning of qualification questionnaires and summons profiles and template-based documents can provide immediate access to a prospective juror's documents within seconds, without having to sort through thousands of stored paper documents. Imaging is an important part of a reduced storage and paperless strategy.

IMAGING HIGHLIGHTS:

- Fully integrated with Genesis
- Uses barcode and OCR/OMR to update juror information automatically.
- Windows based application for better interaction with your scanning hardware
- Eliminates the need for paper storage.
- Utilizes industry standard hardware and is scalable to handle your court's requirements.
- Provides accurate, reliable, and up to date information.
- Frees court staff for more productive work.
- Improved service & citizen/juror satisfaction.
- Ability to pre-qualify via the internet.

Genesis Interactive Voice Recognition (IVR)

Handling juror telephone inquiries can be time-consuming and labor intensive. With the Genesis Interactive Voice System (IVR), a significant reduction in the amount of time your staff spends responding to routine juror telephone calls can be realized by allowing prospective jurors to obtain their qualification status and retrieve reporting information over the telephone 24-hours-per-day, 7 days-a-week.

Jurors may respond to qualification questionnaires, reschedule their service date, and be informed of up to the minute reporting instructions. With user defined parameters within IVR, you take control of just how much latitude each prospective juror is allowed when requesting an excuse or reschedule of their service date. Using real-time voice processing, the IVR system can speak information to your potential jurors and prompt them to provide data needed to complete many of the routine telephone inquiries.

IVR HIGHLIGHTS:

- Fully integrated with Genesis
- Eliminates the need for jury staff recording reporting instructions on voice mail or an automated attendant system.
- Automatically handle every call Professionally & Consistently.
- Speak to callers in a clear human tone of voice customizable by each jurisdiction.
- Efficient, accurate and detailed information dissemination.
- Frees court staff for more productive work.
- Improved service & citizen/juror satisfaction.
- Ability to pre-qualify via telephone.
- Provide detailed reporting instructions on an individual juror basis.
- Provides juror with detailed county policy regarding: Length of Service, Rate of Pay, Dress Code, Parking and Security requirements.
- Automate Repetitive Information Requests
- Allows immediate access for jurors to jury service information, 24 hours a day.
- Jurors can verify appearance status, reschedule service dates, obtain courthouse directions, and determine court assignments via telephone.
- Traffic performance monitoring - call information is collected, and reports generated to gauge performance and usage of each telephone port.
- Updates individual juror history with all telephone activity.
- Full logging of callers' details and the selections made during the call.

Genesis Chat (Chat)

Judicial Systems, Inc. Chat and Chat-Bot System (Chat) allows jurors to interact with our machine learning based chat bot for conversational interactions. Chat leverages our NLP Processing, so responses are consistent across any communication channels.

You can create and customize your Chat Bot to have your own personality, avatar and sense of context using our machine learning prompt-response interface. We install Chat with over 100,000,000 different permutations of words and phrases to provide a wide range of question and response options for the prospective Juror.

Genesis NLP can recognize local slang, regional terms and respond with your own customized responses to suit your jurisdiction. Best of all, the NLP can be taught and updated to learn more about how your Jurors interact with it to continuously improve the Juror experience.

CHAT HIGHLIGHTS:

- Support for recognizing and responding to emojis.
- Many standard acronyms are easily translated by the NLP.
- Contractions are expanded for clarity and allow for targeted responses regardless of word usage.
- Word filtering can improve the recognition and comprehension of Juror inquiries.
- Phrase Lists are used to ensure common phrases are translated in a standardized prompt to ensure higher response rates.
- String stripping ensures that someone who uses or misuses punctuation in the text is not penalized or forced to re-type questions.
- Synonyms are a powerful feature that allows you to respond to different words in a string in a powerful and efficient way. ("Talk", "Chat", "Speak", "Person", "Someone" can be used in any combination and the NLP will still find a matching prompt with which to respond.)

MACHINE LEARNING

The ability to log, analyze and improve the NLP over time is where the true power and flexibility of this module comes into play. The NLP can show you what it was asked over time that it did not know how to answer, along with how many times that has occurred.

You can then "teach" the NLP how to answer that question, test it to ensure the response is just what it should be and then see those results in real time.

RFP REQUIREMENTS SUMMARY

The following list of requirements outlined in RFP 23-138-CCT has been summarized by item, with a Response for each requirement and which modules address the requested functionality.

Section	Requirement	Response	Genesis Module(s)
6 Scope of Work	Ordering an average of about 700 hundred summonses a week. Addendum 1 Re: 850 weekly averages	Genesis can generate thousands of documents at a time using the print queue service to off-load that overhead and allow the staff to continue to work while document generation is being performed.	Juror
6 Scope of Work	Statistical Analysis	Qualification, Summons, Access Statistics to modules by Jurors are all automatically tracked and presented to the staff via dashboards and reports.	Juror, Portal, Messaging, Chat, IVR
6 Scope of Work	Checking/updating juror demographics	Staff has complete access to demographic information that is either loaded during wheel processing, updated by the Juror when answering questions or via the self-service portal.	Juror, Portal
6 Scope of Work	Ability to maintain notes on all interactions with jurors	Internal staff only notes for each juror, along with alert notes that are displayed any time that juror is accessed to ensure nothing is missed by staff. Additionally, all juror interactions with the system are time stamped and logged to a complete history record for that juror	Juror, Portal, Messaging, Chat, IVR
6 Scope of Work	Excuse jurors if they do not qualify to serve as a juror	There are several methods excuses can be done manually by staff, or automatically based on rules defined by the court based on answers to qualification questions or specific juror requests submitted via the self-service portal.	Juror, Portal, Chat, IVR

Section	Requirement	Response	Genesis Module(s)
6 Scope of Work	Provide postponements to jurors that need a different date than originally assigned	There are several methods deferrals can be done manually by staff, or automatically based on rules defined by the court based on answers to qualification questions or specific juror requests submitted via the self-service portal.	Juror, Portal, Chat, IVR
6 Scope of Work	Scan juror mail in black and white that includes request for excusal/postponements	External content can be added to any juror record via a document attachment. Color or Black and White images are handled as needed.	Juror, Imaging, Chat
6 Scope of Work	Scan juror profiles day of service	External content can be added to any juror record via a document attachment.	Juror, Imaging
6 Scope of Work	Assign jurors to panel to go to courtroom	Once check in has been performed, randomly selecting jurors for the Voir Dire process is a simple form that asks what case and how many jurors are needed.	Juror
6 Scope of Work	Create payroll and run checks for jurors' day of service	Any check-in or attendance activity will create a payment record for a juror and can be traced through to payment via the Unpaid Jurors Report. Payment Batches can be created for Check-in, Summons, Case, and Date Range to allow maximum flexibility.	Juror
6 Scope of Work	Enter case information for each trial.	Cases can be tracked within Genesis with as little as a case number or placeholder through complete case information including judge, room, seating chart, jurors included in Voir Dire, case expenses, and service during a case. Case History, Status and Outcome are also available in Genesis.	Juror
6 Scope of Work	Create/update letters for hearings, Failure to Appear, phone letters	Document templates combined with over 200 macros are used to create any document required in the system. All documents can be edited or created in our Template Editor and used via a drop-down list for juror correspondence.	Juror

Section	Requirement	Response	Genesis Module(s)
6 Scope of Work	Set phones to request jurors to report	Reporting Instructions as well as Phone Prompts are customizable to suit the jurisdiction requirements in real time. Additionally, Judges instructions can be overridden on a case-by-case basis if needed.	Juror
6 Scope of Work	I-Juror system (online access for jurors) allows jurors to request postponement, excusal, and check to see if they are required to report for service.	The self-service portal allows for excuse requests, postponement is enabled by the jurisdiction. All system access by the Juror via ANY module always displays their current instructions and if instructions are updated from the default, Genesis automatically tracks the presentation to the juror via which module for reference. If a request is made, Genesis provides a business rule-based review process for staff to approve or deny the request quickly and efficiently.	Juror, Portal, IVR, Messaging, Chat
6 Additional Requirements	Allow potential jurors to upload pertinent documentation online	Staff can request documents from the Juror remotely via the chat module, review and approve or reject them via the Chatroom interface in real time.	Juror, Portal, Chat
6 Additional Requirements	Documentation uploads can be done in color	All documents are converted to PDF and store encrypted regardless of color or black and white.	Juror
6 Additional Requirements	Ability to modify Application phone greeting.	IVR prompts can be edited and reviewed real time via the management interface.	Juror, IVR
6 Additional Requirements	Use of automated chat attendant to answer basic questions related to jury service	Genesis' Chat Bot is a machine learning algorithm that can be trained to respond automatically with a response, documents, custom workflows and perform deferrals is needed. The Chat Bot is installed with over 107,000,000 word and phrase combinations as a starting point and is then modified based on the jurisdiction needs during the training process.	Juror, Chat, Messaging

Section	Requirement	Response	Genesis Module(s)
6 Additional Requirements	Ability for juror to communicate directly with a Jury Commission employee via a chat box	Genesis provides robust chatroom features that allow staff to engage directly via chat with a juror. Features like quick text responses, requesting files, reviewing juror information are all done through the chatroom interface. Chatroom hours of operation and availability business rules are applied to enable staff to operate and engage via chat when time permits. Chatroom Statistics are monitored and reported to administrators to ensure response times and interactions are timely.	Juror, Chat
6 Additional Requirements	Importation/conversion of current juror database to new system	Imports of Judicial Systems JuryPlus2000 to JuryPlus2023 are built into Genesis and included in our pricing. Import of existing data is used to train staff and part of the approval to go live process.	Juror
6 Implementation	The system shall be fully implemented no later than June 30, 2024	Judicial Systems utilizes a Client Installation Process template, Project Manager, and 6 milestones during the process that keep the project on track and provide visibility to the jurisdiction. The usual process averages 43 days from start to finish but will be adjusted as needed to provide each deliverable requested before Go Live. A sample project plan is attached (Attachment 2) to our response for review. With a stated anticipated start date of March 1st, 2024, the 90 days is over twice the time anticipated.	Project Manager

Section	Requirement	Response	Genesis Module(s)
7 License Options	On premise	Genesis can be installed on-premises providing the jurisdiction has adequate hardware and SQL Server license or SQL Server space for the installation. The Jurisdiction will be responsible for all hardware, OS and SQL licensing and all networking support for the configuration. Hosting with JSI on Azure Cloud is available as an alternative if infrastructure is not available. Our quote is for an on-premises installation.	Infrastructure
7 License Options	After hours support	Judicia Systems provide 24/7/365 support for our products per our service level agreement. We do NOT use a ticketing system for client access and provide a company resource on call for after-hours support.	Support Services
7 License Options	IT Infrastructure set up and maintenance	Judicial Systems provides installation instructions and step-by-step configuration guidance for our systems. Once the hardware and network are configured and tested, our staff can complete installation and setup maintenance plans and tasks via VPN and remote desktop access.	Infrastructure
7 License Options	Security	Judicial systems will import any existing active users into Genesis and configure those user account within Genesis as part of our installation process.	Juror
7 Security	Supports Individual Logins for Users	All Genesis Users should have individual logins to support security and compliance requirements. Complete system access and audit trails are tied to individual user accounts. Genesis should NOT use shared logins. Judicial Systems creates individual administration accounts for audit trails as well.	Juror

Section	Requirement	Response	Genesis Module(s)
7 Security	Individual User's Logins tied to Locations and Menus	Genesis provides menu and location-based settings to restrict users from menu and locations they are not supposed to access. Genesis does NOT license by user seats, so there are an unlimited number of user accounts provided to Genesis.	Juror
7 Security	Document Encryption	All documents generated by Genesis or added as attachments are encrypted PDF files at rest via up to 2 levels of encryption. Users must be successfully logged into Genesis to access any files associated with a juror or PII.	Juror, Chat, Portal
7 Security	Oauth Security	All modules utilize oAuth security at each endpoint to ensure that API access is secured and being performed by an authorized system account.	Juror, Portal, IVR, Messaging, Chat, Imaging, Core, Print Queue
7 Security	VPN Protected Access	Regardless of installation location (on-premises or hosted) VPN access to the system for non-DMZ endpoints is supported and recommended. All URLs are designed to work over HTTPS and support industry standard network restrictions.	Juror
7 Application	Runs on Windows Runs on MAC Runs in any web browser	Genesis runs via a web browser. (Current version of all major web browsers have been tested) Imaging is a Windows install product, but still connects to CORE API. Some printing features may be limited on iOS. Genesis has been tested on Windows, iOS, Android devices from PC to tablet and phones, including specialized kiosk hardware from AML.	Juror, Portal, Chat, Kiosk

Section	Requirement	Response	Genesis Module(s)
7 Application	3-Tier Application (Data – Business Rules – Presentation)	See Technical Abstract attached to RFP Response for diagram of the Genesis Architecture. Genesis leverages a 3-tier design and also scalability of any tier for performance needs for performance.	Juror, Portal, IVR, Messaging, Chat, Imaging, Core, Print Queue
7 Application	Print Queue / Reprint / Print Preview	Genesis Utilizes a separate print queue service to print submissions and stores documents in a historical queue for each user that can be configured to keep days, weeks or even months of documents around for viewing or printing as needed. Genesis also supports multiple print queue services so that users can share or have individual queues based on their needs.	Juror, Portal, Print Queue
7 Application	IVR Phone Response Real-Time	Genesis IVR uses a real-time text to speech conversion engine to provide not only customizable voice options, but instant edits and updates to the phone prompts based on administrative edits.	Juror, IVR
7 Application	Real Time Performance Updates	Genesis provides for flexible, tunable application performance based on settings, configuration options and the ability to distribute functions across multiple servers and services.	Juror
7 Application	Daily Reminders / Outbound Communication Dashboard	Jurors can be sent reminders and real time communication from staff and Genesis automatically based on actions and service status. Genesis provides a week-at-a-time view of all communications along with delivery status and confirmation sources.	Juror, Messaging
7 Application	Built-In Document Customization	Genesis uses native HTML and hundreds of macros to generate all documents in the system. Our template editor allows change to be made instantly to any form or document in the system.	Juror

Section	Requirement	Response	Genesis Module(s)
7 Application	Real Time UI Customization	Genesis stores presentation text and text areas in its database so they can be adjusted or updated real-time via our template editor technology.	Juror, Portal
7 Application	Fill out Jury questionnaire online and attach to juror record	Jurors can answer qualification and demographic questions via IVR or Portal interfaces. Answers are recorded as they are provided, so jurors can step away and come back to finish later and submit them for review. Questions/Answers are displayed on the Juror Detail page for quick access. Juror answers can be mapped to automatically update the juror record for accuracy.	Juror, Portal, IVR
7 Database	Enterprise Database Services	Genesis leverages Microsoft SQL Server as it's storage engine. This high-performance database engine is capable of handling millions of records and large databases with ease.	Core
7 Database	Scalability Built In	Genesis is designed with a modular approach that allows portions of Genesis to be placed on dedicated and distributed resources to provide the most flexibility and performance tuned specifically to the needs of the jurisdiction. (See Attachment 4)	Juror, Portal, IVR, Messaging, Chat, Imaging, Core, Print Queue
7 Database	Automated Index / Table Maintenance	All index optimization and server maintenance tasks are completely automated by Genesis using SQL Server Agent technology and scheduled tasks.	SQL Server
7 Database	Support for 7 years or more history	Compliance and data retention rules along with historical data storage in Microsoft SQL Server is only limited by available disk space. Decades of history can be kept and accessible in Genesis if needed.	Core, SQL Server

Section	Requirement	Response	Genesis Module(s)
7 Support	Jury Commission Business Hours Phone Support	Judicial Systems provides live phone and email support during business hours. Judicial Systems does NOT use a client ticketing system for support. A real person will answer your call or email based on our Service Level Agreement and Compliance standards.	Judicial Systems
7 Support	After Hours Phone Support	Judicial Systems uses an after-hours on-call number staffed by Judicial Systems engineers and support staff to ensure your needs are addressed regardless of time of day or day of week.	Judicial Systems
7 Support	Annual Support	Judicial Systems charges annual support based on jurisdiction size combined with modules purchased. Support includes phone and remote support, modifications, troubleshooting, and version enhancements and upgrades.	Judicial Systems
7 Support	Version Upgrades	Genesis Annual support includes patches, improvements and version updates at no cost to our clients. Genesis is built around using a single code base with over 1,100 customizable configuration settings. Genesis is updated with client requested improvements periodically during the year, scheduled around your jurisdiction schedule.	Judicial Systems

Genesis Module Summary

Based on the requirements listed above, the following modules would be used to meet or exceed the requested functionality and services:

- Genesis Juror
- Genesis Portal
- Genesis Imaging
- Genesis IVR
- Genesis Chat
- Genesis Messaging

ATTACHMENT 2 – GENESIS IMPLEMENTATION PLAN

This is a sample project plan that outlines the delivery of Genesis to the county. The top section lists key milestones along with each stage of delivery and the estimated amount of time to deliver each task specifically to transitioning from the current Windows application to Genesis. Using the stated March 1st launch, the tasks and sequences are listed below:

Task Name	Duration	Start	Finish
Client Installation Plan	43 days	Fri 3/1/24	Tue 4/30/24
Request Client Data	0 days	Fri 3/8/24	Fri 3/8/24
Kick Off Meeting	0 days	Mon 3/18/24	Mon 3/18/24
Start Date	0 days	Tue 3/19/24	Tue 3/19/24
Client Training Begins	0 days	Wed 4/10/24	Wed 4/10/24
Go-Live Meeting	0 days	Wed 4/24/24	Wed 4/24/24
Genesis Live	0 days	Thu 4/25/24	Thu 4/25/24
Pre-Execution	12 days	Fri 3/1/24	Mon 3/18/24
Internal Planning Kick-off Meeting	0.5 days	Fri 3/1/24	Fri 3/1/24
Document Needs and Requirements	5 days	Fri 3/1/24	Fri 3/8/24
Compare Requirements Against Compliance Controls	1 day	Fri 3/8/24	Mon 3/11/24
Document any Scheduling needs	1 day	Mon 3/11/24	Tue 3/12/24
Verify Schedule Against Master Plan	2 days	Tue 3/12/24	Thu 3/14/24
Document Install Checklist	1 day	Thu 3/14/24	Fri 3/15/24
Client Requirements Review	1 day	Fri 3/15/24	Mon 3/18/24
Schedule Kick-Off Meeting	0.5 days	Mon 3/18/24	Mon 3/18/24
Schedule Start Date Based On Schedules	0.5 days	Tue 3/19/24	Tue 3/19/24
Execution Phase	26 days	Tue 3/19/24	Wed 4/24/24
Load Staging Site with Client data and Defaults	3 days	Tue 3/19/24	Fri 3/22/24
Perform and Data cleansing or imports	3 days	Fri 3/22/24	Wed 3/27/24
Verify Installation Checklist	5 days	Tue 3/19/24	Tue 3/26/24
Perform Data Integrity Checks	2 days	Wed 3/27/24	Fri 3/29/24
Perform Document Template Edits	10 days	Tue 3/26/24	Tue 4/9/24
Client Approval of Document Templates	1 day	Tue 4/9/24	Wed 4/10/24
Client Access to Staging Site for Testing	5 days	Wed 4/10/24	Wed 4/17/24
Final Review Edits Made	3 days	Wed 4/17/24	Mon 4/22/24
Final Review of New Site	1 day	Mon 4/22/24	Tue 4/23/24
Document Go-Live Process and Timing	1 day	Tue 4/23/24	Wed 4/24/24
Go-Live Phase	1.5 days	Wed 4/24/24	Thu 4/25/24

Task Name	Duration	Start	Finish
Stop Any Services That May Change Data	1 hr	Wed 4/24/24	Wed 4/24/24
Acquire Current Back-Up and Re-Import If Needed	6 hrs	Wed 4/24/24	Thu 4/25/24
Internal Verify of Services and Functionality	4 hrs	Thu 4/25/24	Thu 4/25/24
Client Verification of Service and Functionality	2 hrs	Thu 4/25/24	Thu 4/25/24
Post-Launch	3 days	Fri 4/26/24	Tue 4/30/24
Transition to Support Services	1 day	Fri 4/26/24	Fri 4/26/24
Review Support Processes and Review Call-Tree	0.5 days	Fri 4/26/24	Fri 4/26/24
Update Internal Controls	0.5 days	Fri 4/26/24	Fri 4/26/24
After Actions Review with Client	1 day	Mon 4/29/24	Mon 4/29/24
Update Master Plan with Completion	1 day	Tue 4/30/24	Tue 4/30/24

*** This plan is further refined based on county needs, schedules and various planning meetings performed during the delivery process.

Note: This 43-day process would be completed 2 months prior to the stated June 30th date in the RFP. (Client approval required before go-live transition)

*** End of Attachment

ATTACHMENT 3 – SERVICE LEVEL AGREEMENT ABSTRACT

Incidents will be evaluated based upon reported information via JSI authorized contact channels and/or direct JSI monitoring of a system. The level of response and severity will be communicated to the reporting individual during the actual incident report process. Additional information discovered during troubleshooting may require adjustments to severity or level of response.

JSI will measure all data reasonably required by client to determine JSI's performance of the measured Services against the applicable SLRs. JSI will keep complete and accurate logs of all such interactions for no less than the duration of the Agreement or 3 years. Reporting data over 3 years old can be summary reporting data kept for the duration of the Agreement.

JSI will measure all data reasonably required by client to determine JSI's performance of the measured Services against the applicable SLRs.

Upon client's request, JSI will provide client data and details for measured SLRs in an industry standard form and format containing:

- All data relating to the provision of the measured SLR during the applicable day or event.
- Details of JSI's performance as measured against the SLRs during the applicable day or event.
- Details of any measured SLRs that were supposed to be performed during the applicable day or event that were not fully performed as required.

In generating data for reports provided by JSI, JSI will use, for each SLR, the measurement tools and methodologies needed to adequately measure each Service Level, or such other means as reasonably expected by the client to confirm JSI's compliance with the SLRs.

Each Service Level Requirement (SLR) identifies key performance measures that will be used to evaluate the delivery of the Services. The overriding goal in developing SLRs is to support the desire to manage JSI compliance controls and policies.

Part of the onboarding process includes determining what SLRs are required for each client. Our onboarding process provides the county with the ability to define what incident report format, items and SLR items are most important to them. We then integrate those requirements into our compliance and process protocols. Judicial System has a dedicated Compliance Officer whose responsibilities include ensuring all Compliance tasks are performed across all clients, and all levels of our organization.

SLR COMPONENT DEFINITIONS

SLR Component	Definition
Level	Identification if the SLR is either Critical or Monitored. (C or M)
Formula	Description of the mathematical formula used to measure the delivery of a Service against the service-level metric.
Performance Metric (Metric)	Service-level performance metric for the work that the Agreement requires JSI to perform.
Performance Target (Target)	Measurement of the work that the Agreement requires JSI to perform, generally expressed as a percentage.
Reporting Period (Period)	Period of reporting that JSI measures the target SLR. (D – Daily, W – Weekly, M – Monthly, Q – Quarterly, A – Annual, P – Periodically as Needed)
Service Measure (Measure)	The specific type of service that is measured (e.g., schedule adherence, time to resolve, time to report, availability of system).
SLR Name (Name)	The specific service level requirement that is measured.
SLR Type (Type)	The specific service type that is measured (e.g., reporting, incident resolution time, Root Cause Analysis, response time, availability, recovery time objective, recovery point objective, disaster recovery, downtime, documentation).

DEFINED TERMS

Term	Definition
Authorized User	Means, unless otherwise indicated, all Clerks, Clerk's staff, Judicial Officers, and any individual, system or entity authorized to access or use the Services provided by JSI under the Agreement.
Incident	<p>Any inquiry that generates a call ticket may or may not be considered a defect. User questions, process questions, status updates, and general questions about the system are not considered a defect. There are 4 levels of incident:</p> <p>Critical – Complete failure to deliver key services to jurors, that will result in a failure by the county to perform jury operations.</p> <p>High – Loss of a high value service with time sensitive resolution.</p> <p>Medium – Incident where no available work-around or solution exists and/or data will need to be modified as part of the corrective action.</p> <p>Low – A user error, training, or process change is required. A work-around is available as a short-term solution. Typically, does not require code/data changes.</p> <p>Only Critical priority level incidents will be candidates for work during non-business hours.</p>
Defect	Any bug, error, malfunction, adverse data condition, or other performance interruption that causes the system to fail to operate in conformance with JSI's then current publicized specifications, but that does not cause a complete application outage. User Error or not following processes or procedures shall not be considered a defect.
Defect Level 1	<p>A Documented Defect that causes:</p> <ul style="list-style-type: none"> a) Complete application failure or application unavailability b) Application failure or unavailability in one or more of Authorized Users' locations or c) Systemic loss of multiple essential system functions.
Defect Level 2	<p>A Documented Defect that causes:</p> <ul style="list-style-type: none"> a) Repeated, consistent failure of Essential Functionality affecting more than one user or b) Loss or corruption of data.

Defect Level 3	A Level 1 Defect with an existing Circumvention Procedure, or a Level 2 Defect that affects only one user or for which there is an existing Circumvention Procedure.
Defect Level 4	A documented Defect that causes failure of non-essential functionality or a cosmetic or other documented Defect that does not qualify as any other service level defect.
Documented Defect	<p>A Defect submitted with sufficient information to recreate the Defect or otherwise clearly and convincingly document or evidence its occurrence, including, but not limited to, the operating environment, data set, user, or any other such information that JSI may reasonably request.</p> <p>Authorized User shall deliver such information to JSI concurrently with notification to JSI of a Defect. All reasonable efforts must be used to eliminate any nonapplication related issues prior to notification to JSI of such Defect, including, but not limited to, issues related to the network, user training, extensions produced by Authorized Users, and data problems not caused by the system.</p>
Failure, SLA Failure, Critical SLR Failure	Means the failure to meet, achieve, or attain the designated performance target for a specified SLR or a Critical SLR for the applicable Measurement Period.
Problem / Issue / Incident	Means any material problem, including any (i) Security Incident, (ii) failure to deliver any Services, (iii) failure to deliver any Service Levels, (iv) situation that has negatively impacted or reasonably could negatively impact the maintenance of Clerk's Office internal controls or compliance with Clerk's Office physical or information security, operations, and any policies, procedures, or services described in the Agreement, the Statement of Work or work authorization, or Applicable Laws; or (v) situation that has had or reasonably could have any adverse impact on the Services.
Scheduled Downtime	Planned outage of Services (in whole or in part) that is scheduled by JSI with the Clerk's Office or client more than 48 hours in advance of the commencement of such outage.

Service Problem Analysis

NOTIFICATION OF PROBLEMS

If JSI becomes aware of any issue, JSI will: (i) provide client with prompt notice of such issue (no later than two (2) days after discovery); (ii) provide client with a complete description of the issue, including its expected impact; and (iii) meet with client (no later than four (4) days after discovery) to formulate and implement an action plan to minimize or eliminate the impact of such issue.

CORRECTIVE ACTION PLAN (CAP)

If either Party reasonably determines that a Problem has or is likely to occur, such Party shall promptly (no later than two (2) days) notify the other Party of such Problem (a "CAP Notice"). Concurrent with delivery or receipt of such CAP Notice, as applicable, JSI shall: (A)(i) immediately take steps to mitigate any harmful effects of such failure within its control, (ii) upon client's approval, correct the Problem as soon as practicable, (iii) continuously, and when requested by client, advise client of the progress and status of remedial efforts being undertaken with respect to such Problem, and (iv) demonstrate to client that all reasonable action has been taken to prevent a recurrence of the immediate failure; (B) promptly upon resolution of the Problem (and in any event, within five (5) days after resolution of the Problem) perform a Root Cause Analysis; (C) report to the client on the nature and scope of the Problems identified; and (D) prepare a Corrective Action Plan to correct the source of the Problems and take all actions necessary to prevent recurrence. JSI shall commit all additional resources necessary to resolve and prevent Problems under the Corrective Action Plan. Following delivery of a Corrective Action Plan and Acceptance of such Corrective Action Plan by the client, JSI shall, within the timeline set forth in the Corrective Action Plan, promptly correct the source of the Problems in accordance with the Corrective Action Plan, advise client of the progress of correction efforts at stages determined by the Corrective Action Plan, and demonstrate to client that all reasonable action has been taken to prevent a recurrence of the failure.

***** End of Attachment**

ATTACHMENT 4 – TECHNOLOGY SUMMARY ABSTRACT

What is Genesis Jury Management System and what does it take to understand, install, and maintain Genesis. Genesis Jury Management System is designed to utilize a modular approach to delivery of your jury management needs. At the heart of the system is our highly secure and scalable database engine that utilizes Microsoft SQL Server. A core business layer that controls access and integrates module functionality without the silo approach to software many vendors use. All Genesis Jury modules communicate with each other via this Core service so that data integrity and security is maintained at the highest levels, while providing incredible performance and flexibility. Our presentation layer is designed to streamline jury operations and save time and money.

“The Next Generation of Jury Management software”

DESIGN GOALS

Genesis was designed from the ground up with new frameworks, current technology standards and decades of experience in the industry. We started with a clean slate and built this suite of applications based on lessons learned and customer feedback.

Some of our guiding principles:

- Use any web browser to login and access your system.
- Any device should be able to run **Genesis Jury Management** (Computer, Tablet, Smart Phone) if it supports a current web browser.
- No more local installations of a program to keep synchronized or updated. **Genesis Jury Management uses a centralized web server and database to allow for more users from more locations.**
- Operating System should no longer become a limiting issue. If it can run a web browser, it can run Genesis Jury.
- Easy portability for access on the move. If you get a new computer, just open the web link and login!
- Access from multiple locations if you have access to the web application.
- Maintenance and Updates must be easier and centralized across the client base.
- Each location can control user access via completely custom user by user permissions.
- Customized menus displayed on a per client and per user basis.
- Streamlined processes to reduce pop-up dialogs, windows, and clicks.
- Ability to view multiple forms at once and easily switch between tasks.
- Provide extensive tuning and configuration options to tailor the user experience and processes to suit your needs.
- Superior security enhancements to protect not only your system, but juror data and documents you receive and generate.
- Flexible installation options and support to meet or exceed the needs of even the most restrictive environments.
- Provide for easy to manage template-based document generation.

- Provide content customization on a per client basis.
- Ability to generate more than 5,000 documents in a batch.
- Provide for focused area of operation security.
- Support for multi-factor login security models.
- Provide flexible password enforcement and rules to meet various client's needs.
- Utilize design practices that allow for micro-customization of content, workflows, and process within the court.
- Provide a sustainable upgrade and enhancement path.

Many of these goals are a blend of industry requirements, development best-practices and decades of experience in jury management. Every module, component or process in Genesis is weighed against these goals before, during, and after development.

OUR MODULES

Judicial Systems (JSI) believes one size does not fit every court and that some features and functions may not make sense. Genesis solves that by utilizing a modular approach to meeting your needs. The core and database storage needs are separated from the User Presentation layer so that modules can be used to organize functions and reduce costs.

Genesis Juror

Genesis Juror Module is the base jury management module that delivers state of the art jury management features in a highly secure and flexible framework. Juror is the hub for all other modules and is required for all other modules to operate.

Supporting 1-Step, 2-Step, and 1.5-Step processes for qualifying jurors. The Juror Module allows for qualification and summons, check-in, payments, case management and assignment and so much more. Dozens of customizable reports, seating charts, letters, attendance, payments, and expense reports bundled into a highly flexible web interface sets the bar for performance and flexibility.

Included in the Juror Module is a Voir Dire Manager, which provides real time processing of Jurors in the courtroom. Judges, attorneys, and court personnel can view real time updates via a courtroom approved electronic device. No more legal pads nor handwriting Juror names or drawing seating charts by hand. Unparalleled Security, coupled with user-based UI customization can create an easy to use, powerful experience for any court.

Genesis Imaging

Imaging is a module that provides a Windows based control application for bulk scanning and OCR/ORM document import abilities. This powerful application interacts with your scanner and gets those stacks of papers quickly and efficiently added to each juror in the system.

Using Intelligent Character Recognition (ICR), Optical Character Recognition (OCR), Optical Mark Recognition (OMR) and barcode reading, juror qualification questionnaires and summons profiles can be digitally scanned to make paper processing and storage more efficient.

Genesis Portal

Genesis Portal provides potential juror self-service via a secure web site that allows for several features like gathering questionnaire answers, verify addresses, payment, and communication preferences, requesting excuses or deferrals, printing maps to the courthouse from the juror's own browser.

Providing 24-hour-a-day web access. Jurors can visit the portal to find answers to commonly asked questions, accept service, view instructions for the next day's service, obtain work certification documentation and request exemptions or deferrals according to your court specific policies.

Interactive Voice Response (IVR)

Genesis IVR is the Interactive Voice Response module that allows jurors to dial into the system with their phone, follow a phone prompted series of questions and answers to complete their questionnaires over the telephone. They can also check reporting instructions and get basic help from this automated, machine learning interface.

IVR allows prospective jurors to obtain their qualification status and retrieve reporting information over the telephone 24-hours-per-day, 7 days-a-week.

Genesis Messaging

The Genesis Messaging module allows jurors and court staff to text/email via Genesis throughout the jury process. Messaging provides text responses, reminders, and instructions to jurors.

JSI has developed and imbedded natural language processing (NLP) algorithms into the Messaging module. Messaging receives text or email input from a potential juror, in "everyday language", and evaluates the meaning of the request. Messaging then provides an accurate response to the potential juror's inquiry. This enables jurors to hold two-way meaningful conversations with Messaging in a humanlike, intelligent manner.

Genesis Chat

The Genesis Chat module allows jurors, our chat bot, and court staff to chat back and forth throughout the jury process. Chat provides text responses, reminders, documents, and instructions to jurors.

It is like having a 24/7 full time staff member that can service Juror's inquiries and keep Jurors informed! Genesis Chat is a whole module dedicated to providing chat support to your jurors and is fully integrated with Genesis Jury Management.

Chat programs in general are not interconnected with their host system very thoroughly and rarely provide insight you can see quickly into a person's chat experience. Genesis Chat was designed to create a flexible and fluid experience for the juror. Reducing frustration, guiding the juror and being a force multiplier for your staff and not just a "Chat Plug-In".

JSI has also embedded NLP algorithms into the Chat module.

Chat Rooms allow court staff to interact with the Jurors in real time. Staff can request documents, interact with the potential juror, and create a more service-based experience. Complete Chat history is stored for review by staff.

Genesis Kiosk

Checking jurors in can be a time-consuming process and require additional personnel to support a seamless transition from walking in the door to becoming an active juror. The Kiosk Check-In module is a small footprint check-in station that has limited features, but focuses on tasks to speed up check-in.

Kiosk can make jurors are provided automated instructions on what to do next. This self-service kiosk can help save time and speed the check-in process incredibly. Jurors can scan their Driver License or their Summon barcode to check-in, for Jury pool or active case attendance.

Attorney Portal

Many courts provide information to counsel to support the Voir Dire process, Genesis Jury Management allows for a separate, secure area for counsel to interact with the information they need to perform Voir Dire and access information about the cases they have been granted permission to access.

Basic Case information, reports, and the ability to save, reuse and create custom question sets for each case as well as a Voir Dire interface to score and evaluate prospective jurors during the Voir Dire process.

Attorneys are given a separate secure portal with limited access that is controlled completely by the court.

JSI Monitoring

JSI Monitoring Service is a free client service we provide our customers to ensure your forward facing (Juror) services are up, running, and available. Our software monitoring system is designed to provide real-time monitoring of web sites, phone lines and Chat Services to ensure that they are running smoothly and efficiently.

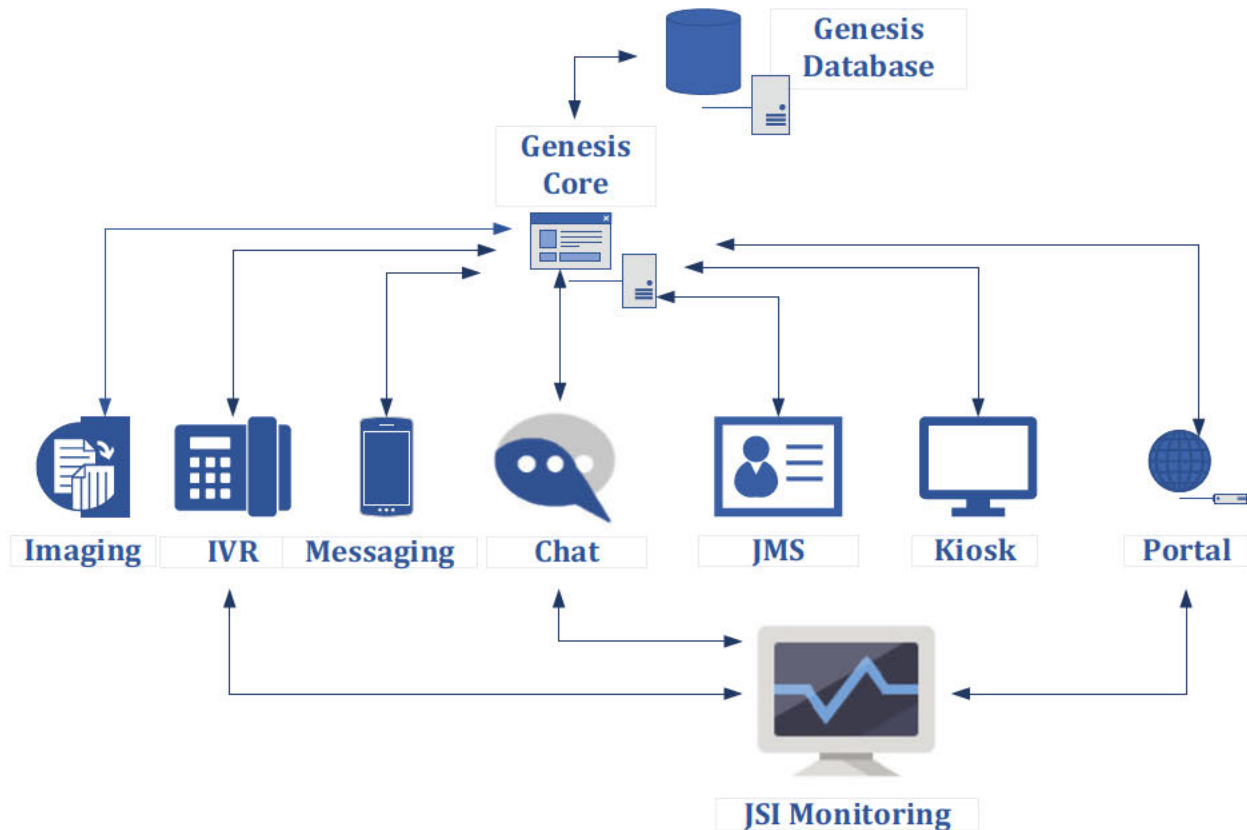

We cannot control the weather, utility, or service availability, but knowing something is potentially wrong BEFORE the Juror is exposed to an issue can be priceless.

TECHNOLOGY

Genesis technology stack was evaluated using decades of experience in the industry. Ensuring performance, scalability, and security. Our choices in each tier were guided by the principles of “one size does **not** fit all” and flexible choices for our clients.

To service a broad range of needs, pre-existing hardware, and growth we developed a 3-tier design that is flexible and provides the best performance possible. See figure 1 for a basic diagram of Genesis.

Figure 1: Genesis Design Overview

Our technical choices to deliver on this design were as follows:

- Web servers – We chose Microsoft IIS for web services given its stability, availability, and flexibility.
- Application servers – We developed Genesis Core as the main hub for business logic and database isolation. Core is written in C# utilizing .NET framework.
- Database servers – Microsoft SQL Server was chosen due to our extensive experience and the industry performance benchmarks.
- Programming languages – ASP.NET, Java, C#, and ANSI compliant SQL are used as appropriate.
- Frameworks – C# leveraging .NET framework were used to design the underlying frameworks for presentation layer and Core, while SQL Server Stored Procedures and Functions are used to isolate and access data.

ARCHITECTURE

Genesis started with a clean white-board and decades of real-world experience being brought to bear of delivering a highly flexible application architecture and a secure application. Security was paramount and the ability to run in many separate locations using the same code base.

Tiers

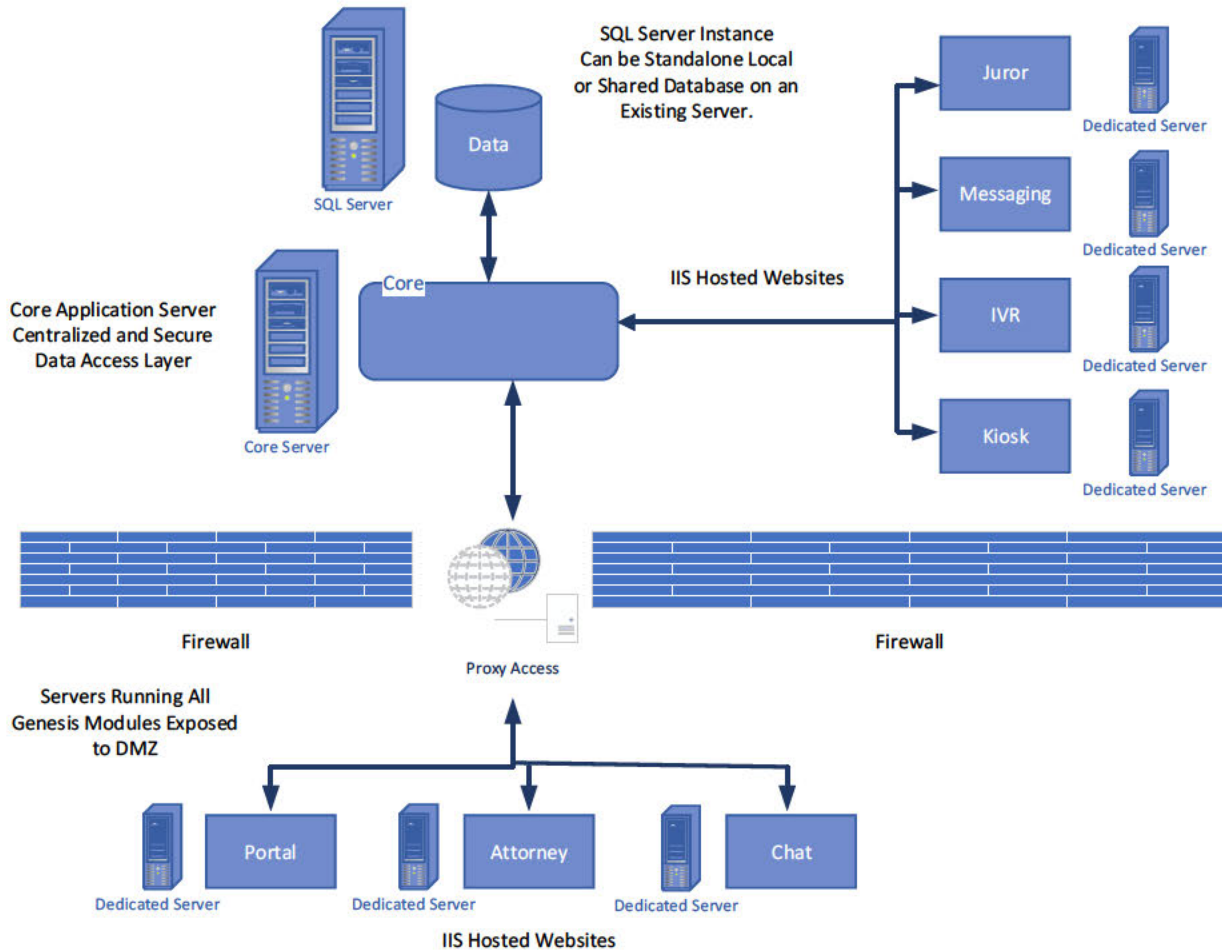

Genesis was designed as a tiered model with implementation of the tiers to be determined by the environment in which it is installed. This tiered model allows for scalability and high performance. The tiers are hosted on Microsoft Server installations. See figure 2 for an example of a smaller Genesis installation.

Figure 2: Single Machine Installation (Small installations)

The Tier configuration allows the flexibility to put high-performance servers in key roles, and less utilized servers in other roles. This allows processing to be off-loaded and handled by servers that are not competing for memory, CPU, or disk. See Figure 3 for a more complex, high performance and tunable configuration.

Figure 3: Multiple Machine Installation (High Performance)

As shown above, this design allows for growth on an as needed basis with limited down-time for upgrades or tuning. This support for growth provides industry leading flexibility and performance.

Layers

By isolating layers into business specific functions, Genesis can reuse logic and processes across the entire suite of modules, reducing complexity, while adding stable, reusable, and consistent components in all modules. Focusing on each layer independently allows for better development, standardized testing, and reduced complexity of the code at each layer.

Protocols

All communication to and from Genesis Core is via HTTP/HTTPS to ensure secure point to point communication. Even the windows scanning application utilizes Genesis Core via its extensive and secure Rest-API.

SECURITY

Security of user access, module communication and data access are a central base requirement of Genesis. Each layer, all frameworks and all modules utilize as secure communication and authentication models as much as possible.

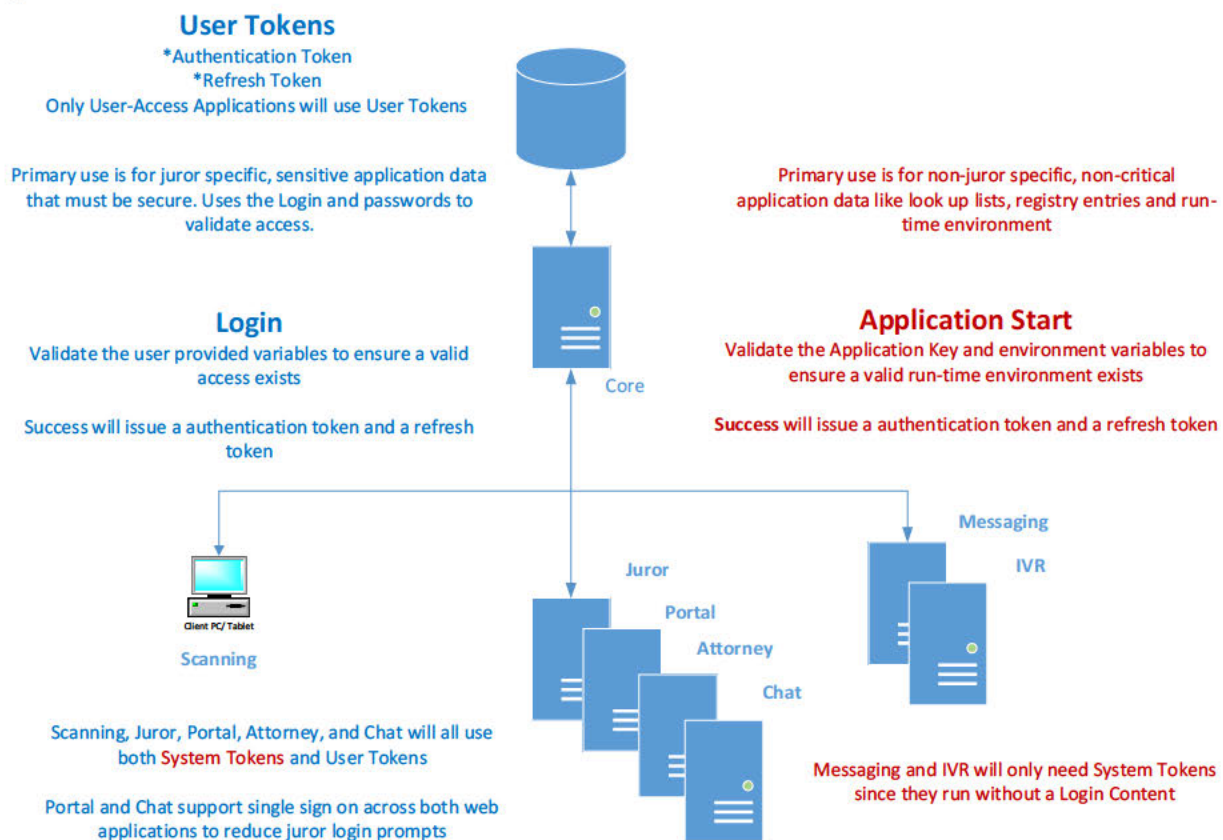

Authentication

Internal Staff Users are managed via a role based and functional requirement driven framework. Staff users must provide a separate login and password to access the system. This allows for extensive audit trails and activity tracking within Genesis. Genesis provides support for a broad range of security requirements, from 2 factor authentication, password retrieval, and functional area access controls.

Authorization

All communication between modules and core are protected by a 2-part OAuth2 implementation. System Level Tokens are used for application and environmental access control, while individual User Tokens are used for access to the application via secured Authentication. External access also uses the OAuth2 model for access to forward-facing web applications to ensure rogue access is denied and data and/or communications are secure. Our OAuth2 model comes directly from the Microsoft OAuth guides and adheres to the requirements listed there. See Figure 4 for a Genesis OAuth explanation.

Figure 4: Genesis OAuth Model

Data encryption

Encryption takes on different forms in Genesis. All communications via the web are supported via HTTPS which requires a valid and known certificate identifying a site and server as a true and accurate location. The HTTPS protocol is commonly used in Banking, e-Commerce, and Government systems.

Genesis stores all documents as encrypted PDF files at rest. Following the PDF standards for encrypting a file provides a level of security for opening a document. You can only access documents in Genesis via Genesis. Genesis decrypts the file before presentation to the user based on the existing 256-bit encryption process and Base-64 encoding, no end-user juror documents are available for use in Genesis. Documents are stored within the Genesis database as a Base-64 encoded string and not on the operating system file system. This allows for a level of security for server access to the file system by IT personnel.

Files encrypted within Genesis are protected by a Genesis specific user and password to control access to juror documents ONLY through Genesis. You must be properly logged in and request the document via Genesis to view/print it. See figure 5 for our document process.

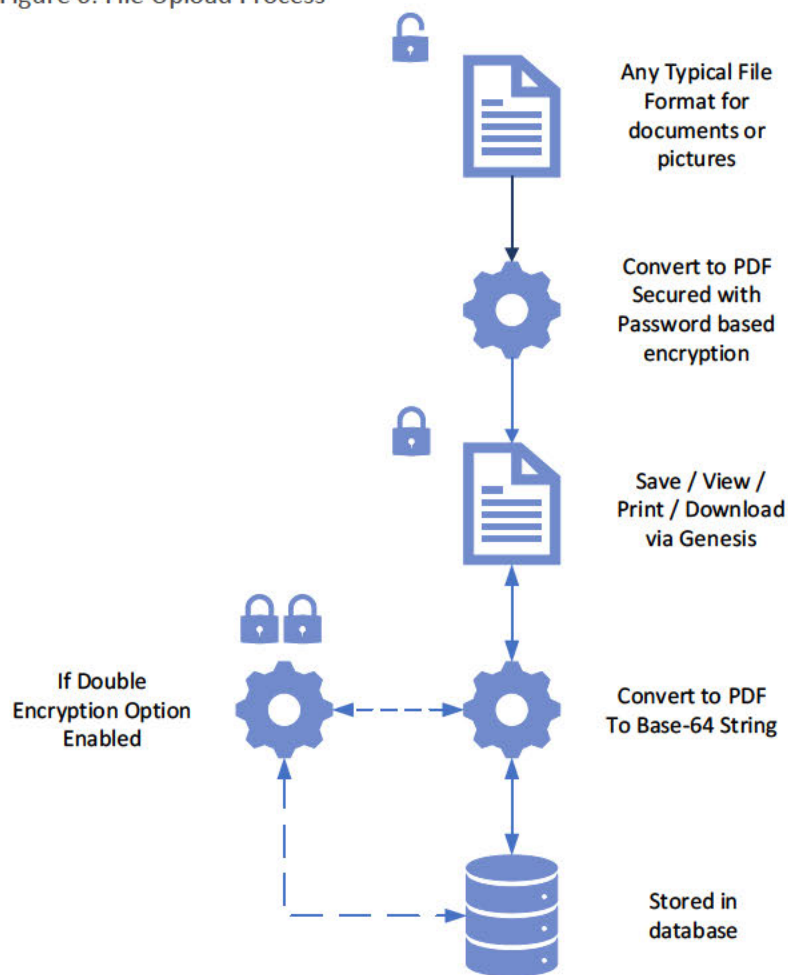

Figure 5: Document Handling Process

Genesis also provides an additional layer of encryption that can be enabled; extended 256-bit AES encryption of the documents at rest. Even with access to the server, database and file system, documents are protected from theft or un-authorized use.

Genesis Chat allows staff to request a file from a prospective juror to verify some statement or condition. These files are handled in a secure and encrypted process to isolate these files until they are approved by a staff member. Then and only then will Genesis add that document to the list of documents for a juror in Genesis. See Figure 6 for the File Upload Process.

Figure 6: File Upload Process

No other Jury management system on the market provides for 2-layered, double encrypted with 256-bit AES encrypted documents at rest.

Web Proxy

Genesis provides access to prospective jurors via web portals and Chat to answer questions and get information about their service. Genesis Modules that live outside the DMZ utilize an OAuth2 based Token access via a web proxy. This proxy isolates access between Core and the Web site so secure access is only allowed based on firewall and routing rules.

DEPLOYMENT

Genesis uses a standard process for deployment that ensures maximum success and reduces system down time. JSI stores copies of Client Databases on their local network and all deployments are first tested on a simulated client installation.

All development activities are managed via a comprehensive workflow management system to control and document the required items to be deployed for any version or upgrade of Genesis. JSI uses a build and version number system that ties to proper code bases and ensures deployments are accurate.

Each build has a “Build Items Checklist” that clearly calls out each item needed for that deployment. A fresh installation has an over 400-point installation checklist used to ensure proper configuration and operation of Genesis. Patches and upgrades also have Checklists to guide the thorough deployment of Genesis.

A build is not deployed until all requirements testing, developer testing, QA instance testing and All Client testing have been accomplished. Builds can then be coordinated with each client based on their schedule and needs.

Basic builds usually follow this process before deployment:

1. Developer Tested Local Build
2. Integrated QA Testing
3. All Clients QA Testing
4. Build Packaging and Checklist Review

Hardware and software requirements

Genesis is designed to run on many different classes of Microsoft servers. Here are a few configurations we recommend: (These vary based on usage and usually determined after several interviews with client)

Small to Medium counties wanting a Single Server solution.

- 4 CPU 16/32 GB RAM
- 512 MB Disk Storage
- Microsoft SQL Server Web Edition (2017 or greater) *

*Limited 2016 Support is available. Do not use SQL Express.

- IIS Enabled
- .NET installations as needed.

Medium to Large County wanting Distributed Processing solution.

Database Server

- 8 CPU 32/64 GB RAM
- 1.5 TB Disk (SSD if possible)
- Microsoft SQL Server Web Edition (2017 or greater) *

*Limited 2016 Support is available. Do not use SQL Express.

Core Server

- 4 CPU 32 GB RAM
- 512 GB Disk (SSD if possible)
- .NET installations as needed.

Web Server(s)

- 4 CPU 16/32 GB RAM
- 512 GB Disk
- IIS Enabled
- .NET installations as needed.

Installation and configuration

JSI has an extensive pre-installation questionnaire that drives most of the initial system configuration for Genesis. Typically, we are granted Remote Access to the server so we can document the installation, install necessary patches, and configure the various software packages. We will pre-install it at our office to simulate the process, document any steps needed. This pre-installation heads off any unknown installation issues typically uncovered once a client is ready to be installed. We do reuse existing hardware for this step. Some clients take advantage of our Testing/QA instance support. We can install a complete copy of the Production System in Training Mode with real client data. This instance can be used to train staff, test initial and future configuration changes, and an additional QA step for the client where we install a build on their Testing/QA instance before we schedule a production installation or upgrade.

Testing and QA

Each Genesis build has a “Build Items Check List”, a “Build QA Testing List” along with documented build items that describe functionality and requirements for each feature or change. Once a build has been tested locally by a developer, the build is then integrated into a QA instance of each client to ensure there are no configuration impacts on the build.

A build is typically tested at least 4 distinct levels before being applied to a client instance. Release Notes for major Builds are made available via our online help system. These notes outline major changes and fixes that are included in this release.

MAINTENANCE AND SUPPORT

We offer standard telephone support during business hours for all our customers. Customers can contract additional levels of support on an as needed basis.

Some modules require periodic maintenance and support. Our process always starts with our ticketing system where we document the item with as much detail as possible. That ticket then moves through a process of design review, impact analysis on existing code, level of effort and our design goals listed above.

The Genesis Chat module should be monitored as the NLP is used in a specific environment. People spell, talk, chat and use slang differently in each locale, the NLP should be periodically tuned for best results. Early installations are checked daily, then weekly and usually only require a monthly review once established language patterns are accounted for.

JSI Supports on-premises and cloud-based installations of Genesis. JSI even offers a hosted option for those counties that wish to contract the care and maintenance of their Genesis system to a third party due to staffing or infrastructure needs.

JSI also provides ongoing training and phone support of Genesis based on annual support contracts.

Development

JSI utilizes an Agile development model with iterative sprints to deliver enhancements or new features for Genesis. Our Software Development Life Cycle (SDLC) recognizes that software is a continuous cycle of activity and must be managed and documented so that stability is maintained. JSSI recognizes the cost of development or time to fix and test any feature increases the farther along you get in the cycle. We always start with defining the need, determining the use-case before we design a solution or a fix.

JSI has decades of real-world experience in Jury Management and the support of our systems in the field. Many clients come to depend on our suggestions for ways to improve the process on their end and are actively engaged with us giving feedback and suggestions for new features.

Patching and updates

Due to the modular nature of Genesis, patches and updates are greatly simplified. Some patches involve a simple SQL Script update which requires no down time, to a specific module update that only impacts that module, so only that module is taken offline briefly. A full system update is usually pre-staged, and the length of time needed is usually dictated by how long a backup takes and how long it takes to replace files and start back up. Most updates take less than 15 minutes.

Monitoring and alerts

JSI has developed a backup alert system that can alert us to a major system issue along with a Monitoring Module that runs around the clock checking service availability and responses. JSI Monitoring is a free service we provide to give clients the peace of mind that their jurors are being taken care of around the clock.

Incident response

Typical incidents during business hours are addressed while we have you on the phone. Some require us to call you back after a bit of research, but only a few issues are extended length or require a patch. Our goal is to get you taken care of while we have you on the phone.

We man our phones covering business hours East Coast to West Coast along with an after-hours service level that can span 24/7/365. If your court is in session, we will staff the phones.

CONCLUSION

Genesis has set the bar for Jury Management software, security, and performance not only in our industry but across any industry. Genesis has over 1,100 end-user customizations and settings to allow you the most flexibility in doing things “the way you want”. Our state-of-the-art software has been field tested, client approved, in both small and large jurisdictions across the country.

You can run Genesis on a computer, tablet, or your phone. We have developed modules to provide current features that are being adopted regardless of the age and demographic of your prospective juror pool.

We have developed a system and approach with Genesis that will be stable for years to come and that cannot be outgrown. We have designed Genesis to build far into the future and handle ever changing needs and requirements.

Security in today’s changing world brings many challenges to software design and functionality, but we have solved those challenges that are out there now and what is to come. We have truly created:

“The Next Generation of Jury Management software”

APPENDIX A - PRICE PROPOSAL for JURY MANAGEMENT SYSTEM 23-138-CCT

Provide pricing to include all labor, services, travel, and materials necessary in accordance with the specifications and requirements of RFP #23-138-CCT.

DESCRIPTION	RECURRING					
	Year 1	Year 2	Year 3	Year 4	Year 5	
Lease Fees						
Installation & Configuration	\$18,600.00					
Support & Maintenance	\$25,998.00	\$25,998.00	\$25,998.00	\$25,998.00	\$25,998.00	
Implementation						
In-person Training						
License	\$166,617.00					
Technical Support						
Additional Fees						
Annual wheel processing at \$0.017 per input record including NCOA address verification at no charge.	Included	\$3,600.00*	\$3,600.00*	\$3,600.00*	\$3,600.00*	
*Annual figures are estimated based on previous annual processing						
						5 YEAR GRAND TOTAL
Total	\$ 211,215.00	\$ 29,598.00	\$ 29,598.00	\$ 29,598.00	\$ 29,598.00	\$ 325,607.00

SECTION 10 - PROPOSAL FORM

(PLEASE TYPE OR PRINT THE FOLLOWING INFORMATION)

Full Name of Offeror	Judicial Systems, Inc.
Main Business Address	211 Robert E. Lee Drive
City, State, Zip Code	Tyler, Texas, 75703
Telephone Number	903-561-8328
Fax Number	
Proposal Contact Person	Patrick Dalton
Email Address	patrick@judicialsystems.com

The undersigned certifies that he is:

- the Owner/Sole Proprietor
 a Member of the Partnership
 an Officer of the Corporation
 a Member of the Joint Venture

herein after called the Offeror and that the members of the Partnership or Officers of the Corporation are as follows:

Gary Dower

_____ (President or Partner)

_____ (Vice-President or Partner)

_____ (Secretary or Partner)

_____ (Treasurer or Partner)

Further, the undersigned declares that the only person or parties interested in this Proposal as principals are those named herein; that this Proposal is made without collusion with any other person, firm or corporation; that he has fully examined the proposed forms of agreement and the contract specifications for the above designated purchase, all of which are on file in the office of the Procurement Manager, DuPage Center, 421 North County Farm Road, Wheaton, Illinois 60187, and all other documents referred to or mentioned in the contract documents, specifications and attached exhibits, including Addenda No. 1, 2, and 3 issued thereto;

Further, the undersigned proposes and agrees, if this Proposal is accepted, to provide all necessary machinery, tools, apparatus and other means of construction, including transportation services necessary to furnish all the materials and equipment specified or referred to in the contract documents in the manner and time therein prescribed.

Further, the undersigned certifies and warrants that he is duly authorized to execute this certification/affidavit on behalf of the Offeror and in accordance with the Partnership Agreement or by-laws of the Corporation, and the laws of the State of Illinois and that this Certification is binding upon the Offeror and is true and accurate.

Further, the undersigned certifies that the Offeror is not barred from proposing on this contract as a result of a violation of either 720 Illinois Compiled Statutes 5/33 E-3 or 5/33E-4, proposal rigging or proposal-rotating or as a result of a violation of 820 ILCS 130/1 et seq., the Illinois Prevailing Wage Act.

The undersigned certifies that he has examined and carefully prepared this proposal and has checked the same in detail before submitting this proposal, and that the statements contained herein are true and correct.

If a Corporation, the undersigned further certifies that the recitals and resolutions attached hereto and made a part hereof were properly adopted by the Board of Directors of the Corporation at a meeting of said Board of Directors duly called and held and have not been repealed, nor modified and that the same remain in full force and effect. (Offeror may be requested to provide a copy of the corporate resolution granting the individual executing the contract documents authority to do so.)

Further, the offeror certifies that he has provided services comparable to the items specified in this contract to the parties listed in the reference section below and authorizes the County to verify references of business and credit at its option.

Finally, the offeror, if awarded the contract, agrees to do all other things required by the contract documents, and that he will take in full payment therefore the sums set forth in the cost schedule.

PROPOSAL AWARD CRITERIA

This proposal will be awarded to the most responsive, responsible vendor meeting specifications based upon the highest score compiled during evaluation of the proposals outlined in the selection process.

The Contractor agrees to provide the service described above and in the contract specifications under the conditions outlined in attached documents for the amount stated.

Grant Proposal Notification

GPN Number: 013-24
(Completed by Finance Department)

Date of Notification: 04/11/2024
(MM/DD/YYYY)

Parent Committee Agenda Date: 05/07/2024
(Completed by Finance Department) (MM/DD/YYYY)

Grant Application Due Date: 06/03/2024
(MM/DD/YYYY)

Name of Grant: PY24 Formula DNA Capacity Enhancement for Backlog Reduction (CEBR) Program

Name of Grantor: US Dept. of Justice - Bureau of Justice Assistance

Originating Entity: _____
(Name the entity from which the funding originates, if Grantor is a pass-thru entity)

County Department: DuPage County Forensic Science Center

Department Contact: Tamara A. Camp, Forensic Scientist Senior, X2115
(Name, Title, and Extension)

Parent Committee: JPS

Grant Amount Requested: \$ 348,564.00

Type of Grant: Formula
(Competitive, Continuation, Formula, Project, Direct Payment, Other – Please Specify)

Is this a new non-recurring Grant: Yes No

Source of Grant: Federal State Private Corporate

If Federal, provide CFDA: 16.741 If State, provide CSFA: _____

Grant Proposal Notification

1. Justify the department’s need for this grant.

The DuPage County Sheriff’s Office Forensic Science Center has identified challenges in their pursuit to process casework samples for entry into CODIS with a reasonable turnaround time, keeping the backlog low. In order to ensure sustainability of capacity, it is necessary to purchase new equipment and to replace aging equipment. One challenge is securing the funding to do so. Furthermore, without grant funding, the laboratory would not be able to provide supplies to enable analysis of both violent and non-violent cases. Another challenge is keeping the lab adequately staffed. The analysis of casework data, preparing case notes and reports, and technically reviewing completed casework takes a large amount of time. Our technical leader is currently training two DNA trainees, with the training program expected to continue through the end of 2024 at the earliest. Although the new analysts will be able to increase the lab’s productivity after 2024, in the interim the training program prevents the TL from completing casework at her previous level, and the turn-around time and backlog has been impacted adversely. Grant funding can address these challenges and will reduce or eliminate their negative impact on backlog and turnaround time.

2. Based on the County’s Strategic Plan, which strategic imperative(s) correlate with funding opportunity. Provide a brief explanation.

Safe Community: The grant will increase the capacity of the DNA section to conduct more casework and to reduce the backlog so that casework is completed more quickly. This will lead to solving more cases and the prompt resolution of these cases, making the citizens of DuPage safer.
Fiscal Responsibility: The grant will utilize federal funding to augment the local funding for DNA analyses.
Community Well-Being: The grant will improve access to county services because the DNA section will be able to conduct casework on more cases. For example, the grant allows us to analyze DNA left at property crimes, which typically have lower priority than crimes against people.

3. What is the period covered by the grant?

10/01/2024 to: 09/30/2026
(MM/DD/YYYY) (MM/DD/YYYY)

3.1. If period is unknown, estimate the year the project or project phase will begin and anticipated duration:

3.1.1. _____ and _____
(MM/YY) (Duration)

4. Will the County provide “seed” or startup funding to initiate grant project? (Yes or No)

no

4.1. If yes, please identify the Company-Accounting Unit used for the funding

5. If grant is awarded, how is funding received? (select one):

5.1. Prior to expenditure of costs (lump-sum reimbursement upfront)

5.2. After expenditure of costs (reimbursement-based)

Grant Proposal Notification

6. Does the grant allow for Personnel Costs? (Yes or No) yes

6.1. If yes, what are the total projected salary and fringe benefit costs of personnel charging time to the grant for the entire term of the grant? Compute County-provided benefits at 40%.

6.1.1. Total salary \$928,808.00 Percentage covered by grant 1.1%

6.1.2. Total fringe benefits \$371,523.00 Percentage covered by grant 0.49%

6.1.3. Are any of the County-provided fringe benefits disallowed? (Yes or No): Yes

6.1.3.1. If yes, which ones are disallowed?

health insurance for full time employees working overtime utilizing grant funds

6.1.3.2. If the grant does not cover 100% of the personnel costs, from what Company-Accounting Unit will the deficit be paid?

1000-4403

6.2. Will receipt of this grant require the hiring of additional staff? (Yes or No): No

6.2.1. If yes, how many new positions will be created?

6.2.1.1. Full-time _____ Part-time _____ Temporary _____

6.2.1.2. Will the headcount of the new position(s) be placed in the grant accounting unit?
(Yes or No)

6.2.1.2.1. If no, in what Company-Accounting Unit will the headcount(s) be placed?

Grant Proposal Notification

6.3. Does the grant award require the positions to be retained beyond the grant term? (Yes or No) No

6.3.1. If yes, please answer the following:

6.3.1.1. How many years beyond the grant term? _____

6.3.1.2. What Company-Accounting Unit(s) will be used? _____

6.3.1.3. Total annual salary _____

6.3.1.4. Total annual fringe benefits _____

7. Does the grant allow for direct administrative costs? (Yes or No) Yes

7.1. If yes, please answer the following:

7.1.1. Total estimated direct administrative costs for project \$17,160.00
 (this accounts only for DNA analysts' time and not 421 personnel)

7.1.2. Percentage of direct administrative costs covered by grant 3.5%

7.1.3. What percentage of the grant total is the portion covered by the grant 0.17%

8. What percentage of the grant funding is non-personnel cost / non-direct administrative cost? 96%

9. Are matching funds required? (Yes or No): No

9.1. If yes, please answer the following:

9.1.1. What percentage of match funding is required by granting entity? _____

9.1.2. What is the dollar amount of the County's match? _____

Grant Proposal Notification

- 9.1.3. What Company-Accounting Unit(s) will provide the matching requirement? _____
10. What amount of funding is already allocated for the project? \$1,334,776.00
- 10.1. If allocated, in what Company-Accounting Unit are the funds located? 1000.4400, 1000.1160, 1300.4440
- 10.2. Will the project proceed if the funding opportunity is not awarded? (Yes or No): Yes
(but at a greatly reduced capacity)
11. What is the total project cost (Grant Award + Match + Other Allocated Funding)? \$1,683,340.00

Grant Proposal Notification

1. Justify the department’s need for this grant.

The grant reimburses a percentage of the 5 Investigator's and 1 Case Manager's salaries. The Case Manager provides Crisis intervention, medical and legal advocacy, referral and linkage to counseling and any other needed follow-up services and court preparation. The Investigators are responsible for investigating allegations of sexual or severe physical abuse to child victims.

2. Based on the County’s Strategic Plan, which strategic imperative(s) correlate with funding opportunity. Provide a brief explanation.

This grant would address the Quality of Life Imperative by providing funding for investigations of child sexual and severe physical abuse and as well as providing services to victims of those crimes in DuPage County.

3. What is the period covered by the grant?

07/01/2024 to: 06/30/2025
(MM/DD/YYYY) (MM/DD/YYYY)

3.1. If period is unknown, estimate the year the project or project phase will begin and anticipated duration:

Is this a new non-recurring Grant: Yes No

Source of Grant: Federal State Private Corporate

If Federal, provide CFDA: _____ If State, provide CSFA: 546-00-2115

Grant Proposal Notification

1. Justify the department’s need for this grant.

The Adult Redeploy Program goal is to reduce the number of probation violators committed to the Illinois Department of Corrections (IDOC). Our Department implemented a "probation violator" caseload structured as an enhancement to the Department's Administrative Sanctions Program. The caseload offers probationers facing technical violations the opportunity to participate in intensive cognitive behavioral services and increased frequency of supervision and an alternative to incarceration.

2. Based on the County’s Strategic Plan, which strategic imperative(s) correlate with funding opportunity. Provide a brief explanation.

Quality of Life. DuPage County Department of Probation seeks support from Illinois Criminal Justice Information Authority Adult Redeploy program to provide continued local, community-based sanctions and alternatives for offenders who would likely be incarcerated if these local services and sanctions were unavailable.

3. What is the period covered by the grant?

07/01/2024 to: 06/30/2025
(MM/DD/YYYY) (MM/DD/YYYY)

3.1. If period is unknown, estimate the year the project or project phase will begin and anticipated duration:

4. Will the County provide “seed” or startup funding to initiate grant project? (Yes or No)

No

4.1. If yes, please identify the Company-Accounting Unit used for the funding _____

5. If grant is awarded, how is funding received? (select one):

5.1. Prior to expenditure of costs (lump-sum reimbursement upfront)

5.2. After expenditure of costs (reimbursement-based)

Grant Proposal Notification

6. Does the grant allow for Personnel Costs? (Yes or No) Yes

6.1. If yes, what are the total projected salary and fringe benefit costs of personnel charging time to the grant for the entire term of the grant? Compute County-provided benefits at 40%.

6.1.1. Total salary \$262,450.00 Percentage covered by grant 100%

6.1.2. Total fringe benefits \$87,128.00 Percentage covered by grant 100%

6.1.3. Are any of the County-provided fringe benefits disallowed? (Yes or No): Yes

6.1.3.1. If yes, which ones are disallowed?

Tuition reimbursement, and FMLA payouts are not allowable expenses through the grant.

6.1.3.2. If the grant does not cover 100% of the personnel costs, from what Company-Accounting Unit will the deficit be paid?

1000-6100

6.2. Will receipt of this grant require the hiring of additional staff? (Yes or No): No

6.2.1. If yes, how many new positions will be created?

6.2.1.1. Full-time _____ Part-time _____ Temporary _____

6.2.1.2. Will the headcount of the new position(s) be placed in the grant accounting unit?
(Yes or No)

6.2.1.2.1. If no, in what Company-Accounting Unit will the headcount(s) be placed?

5000-6192

Grant Proposal Notification

6.3. Does the grant award require the positions to be retained beyond the grant term? (Yes or No) No

6.3.1. If yes, please answer the following:

6.3.1.1. How many years beyond the grant term?

6.3.1.2. What Company-Accounting Unit(s) will be used?

6.3.1.3. Total annual salary

6.3.1.4. Total annual fringe benefits

7. Does the grant allow for direct administrative costs? (Yes or No) No

7.1. If yes, please answer the following:

7.1.1. Total estimated direct administrative costs for project

7.1.2. Percentage of direct administrative costs covered by grant

7.1.3. What percentage of the grant total is the portion covered by the grant

8. What percentage of the grant funding is non-personnel cost / non-direct administrative cost? 20.90%

9. Are matching funds required? (Yes or No): No

9.1. If yes, please answer the following:

9.1.1. What percentage of match funding is required by granting entity?

9.1.2. What is the dollar amount of the County's match?

Grant Proposal Notification

- 9.1.3. What Company-Accounting Unit(s) will provide the matching requirement? _____
10. What amount of funding is already allocated for the project? \$0.00
- 10.1. If allocated, in what Company-Accounting Unit are the funds located? _____
- 10.2. Will the project proceed if the funding opportunity is not awarded? (Yes or No): No
11. What is the total project cost (Grant Award + Match + Other Allocated Funding)? \$441,974.00

Grant Proposal Notification

1. Justify the department’s need for this grant.

The prevalence of brain injury among justice-involved individuals is staggering, to the point where the CDC identifies it as an important public health problem. The incidence of Traumatic Brain Injury (TBI) history is as high as 82% in this population. Research indicates those with TBI have a higher number of prior arrests, increases risk of recidivism and increases vulnerability to substance use disorder, mental illness, violent victimization and suicide attempts. Veterans experience higher rates of justice involvement and brain injury compared to civilians. More than 2.5 million veterans serving post 9/11 have sustained a TBI. With this grant, DuPage County Veterans Treatment Court will partner with the National Association of Head Injury Administrators to improve outcomes for veterans and other probationers with brain injury through the development of a brain injury informed workforce and the implementation of systematic screening, support and referral protocol.

2. Based on the County’s Strategic Plan, which strategic imperative(s) correlate with funding opportunity. Provide a brief explanation.

1. Quality of Life 3. Excellence in Customer Service 6. Diversity and Inclusion
1.1.1; 1.2.1; 1.2.3; 3.1; 6.1- With this grant we will assist those with TBI to lead fuller and more productive lives. We will screen, assess and identify those who have suffered a TBI and link them to appropriate evidence-based resources in their natural communities. We will increase the quality of life for our Veterans Court participants by creating an Online Brain Injury Screening and Support System, increasing access to trained behavioral health providers and addressing their individualized needs. By focusing on these aspects we expect to enhance neighborhood safety by increasing participant's ties to their communities and minimizing future court involvement. By receiving this grant, we will be providing direct services to a diverse and often over-looked segment of the population.

3. What is the period covered by the grant?

03/01/2024 to: 02/28/2025
(MM/DD/YYYY) (MM/DD/YYYY)
