File #: 26-2021

Agenda Date: 8/3/2026

Agenda #: 6.A.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

TO: Linda Zerwin, ETSB Executive Director
FROM: Jennifer Hurd, Motorola System Manager
DATE: July 29, 2026
SUBJECT: STARCOM21 DEDIRS Monthly Report

Projects:

DEDIR System Radio Replacement:

Phase 1: Police APX Next Radios; Complete

Phase 2: Fire APX Next XN Radios; Complete

Phase 3: Mobile Replacement; in process separate vendor.

Radio Replacement – Hazmat Incident

In May, exposure in a hazmat incident deemed 17 radios condemned/contaminated. On July 1, Motorola provided a letter indicating that given the circumstances they cannot certify these radios as fit for use. The contaminated radios have been replaced from the ETSB cache of radios.

Encryption Project:

Go-Live: July 7, 2026 Complete

Current Status: In-Progress

The final internal go-no go check was completed on Monday, July 6. There were a few adjustments to the timeline report. The updated report was posted on the Monday.com dashboard for this project.

The Police encryption go-live was successfully completed after a six-hour process. The process was delayed by 1.5 hours because of an issue with the AIS (Archive Interface Server). On July 8, the elimination of the double codeplug began with the test police agencies in concert with the update of the fire codeplugs.

Fire:

Encryption Updates: This codeplug has been pushed to all agencies. The Fire Radio updates began on July 8 and were pushed to the final agencies on July 16. There are 31 radios pending installation out of 1206 as of July 29, 2026.

Police:

Double Codeplug: complete. The last radio was completed July 27, 2026.

Post Encryption Cleanup Code Plug: All agency codeplugs have been pushed out. There are 232 radios pending installation out of 1916 as of July 29, 2026. Training slides for this codeplug are available on the Monday.com Encryption dashboard.

APX4000: ETSB will provide an encrypted APX4000 to each agency and collect the agency owned radios for updating.

Timeline: 2 weeks to prepare loaner APX4000 radios, starting date to be determined
Agency Owned Radio Updates: 2 weeks +/- upon receipt of radios

Solving for safer. Communities, schools, hospitals, businesses everywhere.

Codeplug Updates:

APX Next XN Fire Portables Updates:

Phase 1: Complete as of April 2026

Phase 2: NWCD Codeplug Update complete.

Phase 3: Zone 22 FG Power Correction Codeplug: Update Complete.

Phase 4: Encryption Code Plug: All agency codeplugs have been pushed out.

APX8500 Mobile:

Installed APX8500s will be returned when replacement units are ready. Boxed APX8500s have been returned to Motorola Solutions, Inc. as of March 2, 2026.

APX7500 Mobile:

Motorola is working with ETSB to establish a plan to upgrade the mobiles to support TDMA, multikey encryption, and AES. This project is a low priority because of the move to a different mobile manufacturer.

CommandCentral Aware:

There are sixteen (16) remaining police agencies and sixteen (16) remaining fire agencies that will need to submit their CommandCentral Aware applications through Monday.com.

Service Tickets

2025	Year to Date

Solving for safer. Communities, schools, hospitals, businesses everywhere.

Radio Alignment: There were none last month.

STARCOM21 Scheduled Maintenance:

Unscheduled System Outages:

SmartConnect: On Tuesday, July 21, Users reported subscriber transmission issues that were unrelated to user error for encryption (A switch vs B switch). The problem was identified as SmartConnect being down. Initial reports of the outage started coming in a few minutes prior to 20:00 CST, Motorola reported SmartConnect was restored at 20:30 hrs the same day.

STARCOM21: A tollway fiber outage affecting a portion of Starcom RF sites was reported on July 9. No users reported being affected by this issue / no tickets were opened.

CCGW failure at ACDC: On the evening of Wednesday July 15, the ACDC tower reached 115 degrees which caused the CCGW to fail. FSO was dispatched and replaced the CCGW while ACDC had an HVAC crew fix the AC. CCGW03 alarms at ACDC cleared at 11:21 PM.

The following ACDC CCGW03 resources affected:

vFG BLUE S-AC

vFD 2_AI

vIFERN-DN

vFDACDC1 MLT-AC

vFD250-DN

vWM TAC1-WM

vFG RED S-AC

vFG WHT N-AC

DU-COMM reported outage: Wednesday July 15, at approximately 5pm, a ticket was submitted regarding a suspected outage for PD radios. Upon further investigation, using ATIA logs, Motorola found several users were trying to transmit using the old ADP encrypted channels rather than the new in use AES channels. These incorrect keys caused console beeping whenever a radio user attempted to transmit and users were unable to transmit. The resolution was determined to be switching to the new encrypted side of the double codeplug.

System Maintenance: There were none last month. Starcom maintenance is now being completed quarterly.

CommandCentral Patches: There were none last month.

CommandCentral unplanned outage: There were none last month.

SmartConnect Patches: There were none last month.

RadioCentral Patches: A RadioCentral update to 2026.2 was scheduled for July 27, 2026. No interruptions to service anticipated. This included updates for RCP Bridge as well as RadioCentral Multi-codeplug support (radio upgrades required for use).

Solving for safer. Communities, schools, hospitals, businesses everywhere.

Radio Management / CPS Patches: On July 1, 2026, the DMS hosted Radio Management Server was upgraded to 39.00.00.

RadioCentral Migration: One Bensenville PD radio remains outstanding to be transitioned to the new RadioCentral. This radio is pending installation of an update.

Serial Number	Model Number	Codeplug Version	Firmware Version	Group	Radio Alias	Job Status	Last Contact Time
142CXX0922	H45TGT9PW8AN	R29.00.01	R04.61.00	BEP	BEP CARRERA	Running: Waiting For Device	1/30/2023 5:55:20 PM

Releases:

Fire radios were deployed on firmware R09.40 which was released in June 2025. All Police radios have also been sent version R09.40 and have been updated to match.

There are over 35 radios deployed on the newer firmware version numbering system 37.03 or 38.04. These units were updated when sent to the Depot for repair. There are no reported issues on the newer firmware at this time. Updating of the fleet radio baseline firmware version for 2026 will be revisited in a few months after the Police Encryption project is completed.

Meetings:

PAC Meeting: Monday, July 6, 2026

ETSB Podcast: Wednesday, July 8, 2026

Training: None this month

Motorola Project Manager Weekly Synch Report – Project Manager Rich Nita

Motorola Wednesday Morning Status Call – July 1, 2026

Motorola AXS Console and DFSI projects are on pause (priority is on Encryption readiness).

Encryption: Matt got 12 backup consolettes at ACDC upgraded with the proper firmware and flashed to include OTAR. 22 of the 23 backup consolettes at the DU-COMM were also upgraded with proper firmware and flash for OTAR (programming issue encountering with one consolette).

Jen completed pushing the double codeplug to all of the PD agencies with the exception of College of DuPage (COD). Jen met with COD 7/1 and tested the double codeplug over the phone and pushed to them as well. Additionally, the COD APX8500 base station codeplug was updated with the new codeplug.

Fabian is updating the consolette codeplugs to change the 66 talkgroups going to AES to use hardware encryption. The changes for OTAR will be completed in another update after the Go Live as we need to get the radios added to the KMF. We will be loading the new codeplugs and key loading the consolettes on the day of the Go Live.

Jen is currently working on the new codeplugs for the 11 MERIT vehicles and next will be creating a codeplug for the APX4000 radios for Wheaton College. Working on process for encryption for Wave users - timing for this will follow the initial Encryption effort. Go live target for Encryption is 7/7/26.

Motorola Wednesday Morning Status Call – July 8, 2026 – no call, ETS Board meeting.

Motorola Wednesday Morning Status Call – July 15, 2026

AXS Console: Working to schedule DU-COMM console ATP (Rich coordinating target test date with Gregg, Pete and Matt). MSI PdM working on open SDM/MC Edge issue for Keith M at ACDC. Latest update per Dan Tipton, "PdM identified an issue with the Aux I/O Manager portion of the AXS app. We are waiting on new software. Targeting late August." Final Acceptance pending for both ACDC and DU-COMM console deployments.

DFSI- DU-COMM; Deployment effort will resume now that initial Encryption transition was completed. Latest (June '26) status: Updated Leonardo SW received week of 6/1/26. James E. working with Motorola on port configuration/assignment details, Matt D working on the firewall, which was blocking the port config - router swap target is 7/16/26. Final revisions to the crossmute tables (Jim C and Matt D) will resume now that initial Encryption effort is complete.

Encryption: Go-live/transition to AES256 Encryption for PD agencies was completed successfully 07/07/2026. Jen shifting codeplug effort to Fire (17 complete, 12 to go, target complete by 7/17/26), as well as preparation for clean up tasks. Progress made on encryption for Wave users - Joe Janek working with DuPage County/ETSB to collect the necessary user info for initial effort to transition Wave users to Wave PTX.

Motorola Wednesday Morning Status Call – July 22, 2026

AXS Consoles: DU-COMM console ATP complete (pass) on 7/21/26 - Chris Shenks and Gregg T. supported. Team working on final project documentation next. MSI product mgmt (PdM) working on open SDM/MC Edge issue for Keith M at ACDC. Per Dan Tipton, "PdM identified an issue with the Aux I/O Manager portion of the AXS app. We are waiting on new software. Targeting late August." Final Acceptance pending.

DFSI: DU-COMM; Updated Leonardo SW received week of 6/1/26. Matt D working on the firewall, which was blocking the port config - firewall swap complete 7/16/26. MSI DCG9000 is trying to establish comms with Leonardo stations, but the team feels there is something blocking in the firewall (for 6 of 8 of the stations - 2 are working). James Erlain supporting, MSI team gathered additional info onsite 7/21/26. Plan is to review with MSI NW SME's, check FW policies, etc.,. Matt D planning to work with Jim C 7/22/26 on the final revisions to the crossmute tables.

Encryption: Jenn codeplug effort shifted to Fire - progress made, but all not yet complete. Fabian helping while Jenn is OOO, Fabian working on sending cleanup codeplugs for Police (sent to ~8 agencies thus far), Jenn planning to finish Fire codeplugs when she returns. APX4000's - high level plan is to update radios (using local inventory/cache), then swap out units from the field. Joe Janek working with DuPage County/ETSB to collect the necessary user info for initial effort to transition Wave users to Wave PTX. Per Andres, of the 13 agencies, 8 provided the info that Joe Janek needs.

Motorola Wednesday Morning Status Call – July 29, 2026

AXS Consoles: MSI team working on final project documentation. MSI product management (PdM) working on open SDM/MC Edge issue for Keith Marc at ACDC, defect to be fixed in new software release, ETA is late August. Final Acceptance pending.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

DFS: DU-COMM 7/23/26 - Firewall issue resolved, James Erlain and Matt Downer confirmed DFSI working on all 8 channels. Matt D made progress with Jim Connolly 7/22/26 on the final revisions to the crossmute tables - some work remains. Pete B/Matt D working on ATP document - once ready, MSI will coordinate ATP for DUCOMM DFSI.

Encryption: All updates have been sent to Fire and clean up codeplugs to PDs. Currently working on creating an APX4000 codeplug for the non-NEXT radios. Still to do at later date the updates for OTAR and KMF. Wave user migration - Joe Janek working with DuPage County/ETSB to collect the necessary user info for initial effort to transition Wave users to Wave PTX. 7/22/26 – Andres Gonzalez submitted seven spreadsheets from Agencies received to date (13 total). Matt D also prepping to execute AIS IP address change, Gregg/Matt to coordinate with Eventide.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

1. CALL TO ORDER

2:00 PM meeting was called to order by Chair Selvik at 2:00 PM.

2. ROLL CALL

Attendees:

Linda Zerwin, DuPage Emergency Telephone System Board
Nate Krause, DuPage Emergency Telephone System Board
Eve Kraus, DuPage Emergency Telephone System Board (Remote)
Andres Gonzalez, DuPage Emergency Telephone System Board
Jennifer Hurd, Motorola (Remote)
Nick Kottmeyer, County Board Office
John Nebl, OHSEM
Marilu Hernandez, ACDC (Remote)
Ben Koechling, ACDC (Remote)
Erik Maplethorpe, DU-COMM (Remote)
Bob Murr, COD (Remote)

On roll call, Members Benjamin, Burmeister, Clark, Fleury, Jansen and Selvik were present, which constituted a quorum.

PRESENT Selvik, Benjamin, Burmeister, Clark, Fleury, and Jansen
--

3. PUBLIC COMMENT

There was no public comment.

4. CHAIR'S REMARKS - CHAIR SELVIK

Chair Selvik stated that he wanted to recognize the amount of work that ETSB staff and Motorola staff had been putting into the encryption cutover process. He said they had been doing a fantastic job as the cutover dates approached and noted that the project was on schedule.

5. MEMBERS' REMARKS

There were no Members' remarks.

6. CONSENT ITEMS**6.A. [26-1777](#)**

DEDIR System June Maintainer Report

On voice vote, all Members voted “Aye”, motion carried.

RESULT:	APPROVED
MOVER:	Chris Clark
SECONDER:	Tyler Benjamin

8. PARENT COMMITTEE APPROVAL REQUIRED

8.A. [ETS-R-0012-26](#)

Resolution to approve the language of Policy 911-005.6: DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) Use of Emergency Button.

Chair Selvik asked for a motion to recommend approval to the ETS Board. Vice Chair Clark made a motion, seconded by Member Jansen.

Member Benjamin commented that DU-COMM general counsel and ETSB counsel met with the leadership of both agencies and agreed to remove some of the language that had been concerning to DU-COMM. He stated that DU-COMM general counsel was still not entirely comfortable with the remaining language but believed it was time to move the item forward. Member Benjamin stated that he would abstain from the vote and had no new arguments or additional comments. On roll call vote, five Members voted “Aye,” no Members voted “Nay,” and one Member abstained. The motion carried.

Resolution to approve access to the DuPage Emergency Dispatch Interoperable Radio System talkgroups pursuant to Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System), as requested by DuPage Public Safety Communications (DU-COMM).

Chair Selvik asked for a motion to recommend approval to the ETS Board, pending the 14-day notification deadline of July 6. Vice Chair Clark made a motion, seconded by

Member Jansen. On voice vote, all Members voted “Aye”, motion carried.

9. DEDIR SYSTEM

Executive Director Zerwin thanked Mr. Nebl, OHSEM, volunteers, and participating agencies for their work on testing the double codeplug and encryption process. She noted the process went smoothly overall, with only two of about 1,900 radios still needing updates. She stated that a go/no-go meeting had been held that morning and that minor updates would be made to the handout sheets, including adding a static 205 plan prepared by Mr. Nebl for use by MERIT and PSAPs during active incidents.

Deputy Director Krause reviewed the go-live packet, which included procedures, migration talk group sheet, AES encryption list, telecommunicator announcements, and the 205 plan. He explained that operations would begin around 4:30 a.m., with main work starting at 5:30 a.m. Users would be moved to local channels during the transition and remain there until encryption work was complete. Once finished, dispatchers would direct users to return to their primary talk groups using Zone B (encrypted).

Deputy Director Krause said a cleanup codeplug would later remove unencrypted talkgroups for police users, and fire updates would begin July 8. He confirmed talkgroup name changes were already completed and that migration charts and announcement sheets would be available at all PSAP positions.

Member Fleury asked about remaining radio updates, and Deputy Director Krause said all required updates should already be installed. Executive Director Zerwin added that MERIT 8500 mobile radios were updated until replaced with Tait mobiles. Mr. Nebl confirmed coordination with MERIT and readiness for SWAT communications. Member Fleury noted some of the West Chicago radios still lacked MERIT talkgroups. Executive Director Zerwin explained that Mrs. Hurd was addressing the matter after encryption was completed.

Discussion shifted to MERIT talkgroup access. Executive Director Zerwin said the list had expanded beyond operational members, and Chair Selvik suggested the MERIT Board clarify access needs. Zerwin emphasized that MERIT talk groups are intended for high-risk operations.

Deputy Director Krause stated Motorola and ETSB staff would be on-site at both PSAPs to assist during go-live. Telecommunicators would only need to log out and back in, minimizing downtime.

Executive Director Zerwin asked members to review materials and noted that announcement sheets would be color-coded for easy use. Deputy Director Krause noted all documents were available on Monday.com and explained post-go-live codeplug updates would be staggered based on system capacity.

Executive Director Zerwin added that fire agencies must complete other updates before moving to encryption. Deputy Director Krause highlighted that a conference bridge would be opened at 6:00 a.m. to provide on top of the hour progress updates.

Chair Selvik asked about post-cutover follow-up. Executive Director Zerwin said roll calls and MDC messages would be used, and telecommunicators would remind users for several days. Chair Selvik noted agencies ultimately bear responsibility, though reminders would help.

10. OLD BUSINESS

There was no old business.

11. NEW BUSINESS

There was no new business.

12. ADJOURNMENT

12.A. Next Meeting: Monday, August 3, 2026 at 2:00pm in Room 3-500A

Member Burmeister made a motion to adjourn the meeting at 2:20 pm, seconded by Member Benjamin. On voice vote, motion carried.

Respectfully submitted,

Andres Gonzalez

Emergency Telephone System Board of DuPage County

This Memorandum of Understanding (MOU) is an agreement between the Emergency Telephone System Board of DuPage County (DuPage ETSB) and the **Western Will County Communication Center (WESCOM)** allowing for the sharing of talkgroups on the STARCOM21 Radio Network (SC21). The purpose is to allow each party's respective agencies access to talkgroups for interoperating on the SC21 network. Agency agrees to keep this list confidential and only share it with personnel that have a need to know the below-listed information. Agency understands that this document is not public information and should not be disclosed pursuant 5 ILCS 140/7(d)(6) and (v) as well as 20 ILCS 2615/1 and 12.

DuPage ETSB DEDIR System CommandCentral Aware Access Application

AGENCY INFORMATION		Type of Application:		☒ Initial	☐ Modification
DATE:	06/11/26				
NAME OF AGENCY:	DUPAGE COUNTY SHERIFF				
POINT OF CONTACT:	PAIGE DOMROSE				
BUSINESS ADDRESS:	501 N COUNTY FARM ROAD				
EMAIL ADDRESS:	PAIGE.DOMROSE@DUPAGESHERIFF.ORG				
MOBILE TELEPHONE:					
APPLICATION INFORMATION					
Please complete the following information				NO	YES
The Applicant is a DEDIR System member.					X
If not, the Applicant has completed the user access form for DEDIR System Agencies access.					
The Applicant has received DEDIR Policy 911-005.13: <i>CommandCentral Aware</i> and all users under this application have read and will comply with the policy.					X
APPLICATION CHECKLIST					
Note: The application cannot be approved by ETSB without the required documents listed below					
The Applicant has provided the following as part of this application:					YES
A list of email addresses for employees that will have access to CommandCentral Aware					X
A excel list of all radio IDs/Alias and what CommandCentral Aware layer the radio IDs/Alias will be assigned					X
Visibility Designations				NO	YES
Opt Out - CommandCentral Aware GPS Sharing				X	
On Duty Layer-Shared					X
I have completed the Excel spreadsheet to designate personnel layer status					X
Approvals				ABSENT	ABSTAIN
Policy Advisory Committee (provide vote count)					

I am submitting this application on behalf of my organization and the users represented herein. I certify that I am authorized to act on behalf of my organization for this application and that the information provided is correct to the best of my knowledge, including the attached spreadsheet of agency users.

I understand that my Agency must submit a Zendesk ticket within 24 hours of a device using CommandCentral Aware being lost/stolen or the employee using CommandCentral Aware being separated to protect the security of the DEDIR System.
