<b>RESULT:</b>	APPROVED
<b>MOVER:</b>	Chris Clark
<b>SECONDER:</b>	Eric Burmeister

**8. PARENT COMMITTEE APPROVAL REQUIRED**

8.A. [ETS-R-0012-26](#)

Resolution to approve the language of Policy 911-005.6: DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) Use of Emergency Button.

A motion was made by Vice Chair Clark to recommend approval to the ETS Board, seconded by Member Burmeister. Chair Selvik opened the item for discussion. During discussion, Member Benjamin explained that he did not yet have anything in writing, but he had reviewed the draft with DU-COMM’s general counsel, who remained uncomfortable with the language stating that if a PSAP Policy conflicted with or nullified an ETSB Policy, the ETSB Policy would control and the “PSAP Policy would be null and void as if never enacted,” with the ETS Board serving as the body to resolve the dispute by simple majority. He stated that DU-COMM’s general counsel’s position was that one government entity could not nullify the policies of another and could not appoint itself as the arbiter of a dispute involving itself. Member Benjamin added that he understood the matter might go to the ETS Board, but that this was DU-COMM’s position on the language.

Executive Director Zerwin asked for clarification on whether he was recommending sending this to the ETS Board or if he was going to submit any revised or counter language to be brought forward for further discussion, and Chair Selvik noted that there was no additional draft language to move forward at that time. Member Benjamin stated that DU-COMM had previously proposed draft language and added that, if preferred, DU-COMM’s general counsel, John Kelly, could prepare edits for consideration. Vice Chair Clark then noted that it appeared the item should continue to be tabled. Executive Director Zerwin stated that she believed Assistant State’s Attorney Winistorfer and Mr. Kelly had been trying to connect, and she added that she would also make sure the matter was included in the legal discussion. Chair Selvik then asked whether anyone wanted to modify the motion to table the item. Vice Chair Clark amended his motion to table the item to the April 6, 2026 meeting, and Member Burmeister seconded the motion to table. On voice vote, all Members voted “Aye,” and the motion to table the item to the April 6, 2026, meeting carried.

<b>RESULT:</b>	TABLED
<b>MOVER:</b>	Chris Clark
<b>SECONDER:</b>	Eric Burmeister

**9. DEDIR SYSTEM**

Chair Selvik reported that the Police Focus Group met the previous Friday to narrow down what was needed for access to and viewing of the Command Central Aware layers. He noted that the meeting went well and explained that Sergeant Jim Dexter, who leads the MERIT SWAT team, had been working with the system and helping review the layers because of the MERIT component involved. He explained that the recommendation from the Police Focus Group was to keep the process simpler and remove the ability for agencies to completely opt out, because doing so would defeat the purpose of viewing Command Central Aware. He described concerns that if an agency responding to a mutual aid call had opted out, the command staff for the affected town might not be able to view that agency in the system, which would undermine the benefit of the tool. He further explained that ETSB staff planned to return to the Chiefs meeting later that month and that Sergeant Dexter would provide a demonstration based on the Wheaton North use case to show how the system benefited all agencies. He noted that, after those discussions, the group would likely need to revisit the Policy, clean up the language, and remove any opt-out provisions, while still allowing agencies to designate an administrator and address how to exclude personnel assigned to sensitive positions such as task forces, DEA, and HSI.

Executive Director Zerwin then explained that work on the layers was continuing, it was especially helpful that Sergeant Dexter had been able to test it in a live scenario and provide operational feedback. She added that the Wheaton North example could be used because it was not tied to an active investigation.

Executive Director Zerwin then provided an encryption update and reported that staff met with Motorola that day, where new information impacted the timeline chart Motorola had been developing and required additional revisions. She also noted that Jennifer Jager was now Jennifer Hurd stating that if agencies got an email with a different last name that it was the same person, while recognizing her efforts to help move the work forward and using her system knowledge to guide Motorola. She stated that Motorola was preparing a new timeline and that the goal of completing the work by the end of March or early April had been reiterated. She described the meeting as productive in some ways but also disappointing in terms of current progress, while noting that some issues were being cleaned up.

**10. OLD BUSINESS**

Executive Director Zerwin reported that three committee terms would expire in May and noted that notification had already been sent out. She explained that ACDC had already submitted its response, and noted that DU-COMM had an internal process and meetings it needed to complete before they could submit a recommendation, which was why the notice had been sent earlier. She

clarified that the terms would not expire until May 12 and explained that, under ETSB practice, members remained seated and retained voting rights until they were replaced, so there would be no operational impact to the committee. Vice Chair Clark then asked whose terms were up, and Chair Selvik identified Member Fleury, Member Jansen, and Member Benjamin.

**11. NEW BUSINESS**

There was no new business.

**12. ADJOURNMENT**

**12.A. Next Meeting: Monday, April 6, 2026 at 2:00pm in Room 3-500A**

Vice Chair Clark made a motion to adjourn the meeting at 2:12 pm, seconded by Member Jansen. On voice vote, motion carried.

Respectfully submitted,

Andres Gonzalez
