Appendix G: Network Systems Access Request Form

TO: Emergency Telephone System Board 9-1-1 System Manager
FROM:
SUBJECT: Interface Request Form

Type of Interface (select one)

	Real Time Interface
The current CAD system utilizes *Edge Frontier (Xalt Interface),* which is designed to handle these types of interfaces. *Edge Frontier (Xalt Interface)* allows the applications to receive information without impacting the security and performance of the 9-1-1 System. An *Edge Frontier (Xalt Interface)* interface would be developed and maintained by Hexagon for all non-9-1-1 interfaces at the cost of the requesting agency.	
	Other 9-1-1 System Component
This will require development and maintenance by a vendor for all non-ETSB 9-1-1 interfaces at the cost of the requesting agency. Requestor should list the type of interface needed (real time, API etc).	
	Asynchronous Interface
For this type of interface, a secondary archive server will be utilized to provide the data requested. This data provided is not real time.	

With the submission of this form, I confirm that I reviewed and understand the DuPage ETSB Information Technology and Network Security Policy, Policy No: 911-013, [the "Policy"]. I understand that an MOU will be required and there may be fees and costs involved for any interface that is not 9-1-1 related.

Print Name of Agency Head

 Please include a short description or attach a copy to this request for the following:

- **Technical Requirements:** (will also be reviewed by Tech Focus Group)

- **Desired Project Implementation Schedule:** (include/attach a go-live goal or schedule)

- **Vendor Service Level Agreement (SLA)** (It is important that ETSB know the hours of work)
