COVID 19:

The, as of today, lead-time for equipment delivery is as indicated above, however due to the continuing disruptions of COVID-19, including extended production timeframes from our suppliers as a result of raw materials shortages, related labor constraints, and transportation and logistics-related delays due to a shortage of both truckers and containers, we can at this time only state what our current lead-time is expected to be. We will work closely with you to meet your needs as best possible in this uncertain time.

Sincerely,
