MEMORANDUM

TO: DuPage County Development Committee

FROM: DuPage County Zoning Board of Appeals

DATE: October 3, 2024

RE: **ZONING-24-000059 Construction Solutions, LLC.
(Downers Grove/District 3)**

Development Committee: November 19, 2024:

Zoning Board of Appeals Meeting: October 3, 2024: The Zoning Board of Appeals recommended to deny the following zoning relief:

1. Variation to reduce the lot size for two new lots from required 100,000 sq. ft. to approximately 16,556 sq. ft. for Lot 1 and approximately 17,788 sq. ft. for Lot 2.
2. Variation to reduce the lot width for two new lots from required 165 feet to approximately 140 feet for Lot 1 and 150 feet for Lot 2.

ZBA VOTE (to Deny): 6 Ayes, 0 Nays, 1 Absent

FINDINGS OF FACT:

1. That petitioner testified that the subject zoning relief is for Variations to subdivide his property into two (2) lots serviced with sewer and well in the R-1 Single Family Zoning District.
2. That petitioner testified that they have a unique situation on the subject lot and in the subject neighborhood as the trend of development is towards smaller lots, less than what is required in the R-1 Zoning District.
3. That petitioner testified that before they purchased the subject property and before their closing, the property experienced a storm that caused the existing single-family home to be destroyed.

- a. In addition, that petitioner testified that the existing home would need to be demolished and rebuilt.
 - b. That at the public hearing, the petitioner withdrew the third request for a Variation to reduce the interior side setback for an existing house on proposed Lot 2 from required 20 feet to approximately 10.25 feet, as he testified that the existing house would be demolished and would therefore not require a setback Variation.
4. That petitioner testified that the hardship for the subject property is the cost of construction to build a new house and that he would like to build two houses on the subject property to offset the cost of construction.
 5. That petitioner testified that there are several properties similar in size throughout the surrounding area.
 6. That the Zoning Board of Appeals finds that petitioner has not demonstrated or provided sufficient evidence to support the proposed Variations, and that petitioner has not demonstrated or provided sufficient evidence in relation to a practical difficulty or particular hardship with the land.
 - a. Furthermore, that the Zoning Board of Appeals finds that petitioner testified to a financial hardship of building house and that the Zoning Board of Appeals finds that a financial/self-made hardship does not qualify as practical difficulty or particular hardship for a Variation.

STANDARDS FOR VARIATIONS:

1. That the Zoning Board of Appeals finds that petitioner **has not demonstrated** that the granting of the Variation is in harmony with the general purpose and intent of the Zoning Ordinance, and will not be injurious to the neighborhood, detrimental to the public welfare, or in conflict with the County's comprehensive plan for development.
2. That the Zoning Board of Appeals finds that petitioner **has not demonstrated** the granting of the Variation will not:
 - a. Impair an adequate supply of light and air to the adjacent property as petitioner **has not demonstrated** that the proposed two (2) lot subdivision will not impair an adequate supply of light and air to the adjacent property.
 - b. Increase the hazard from fire or other dangers to said property as petitioner **has not demonstrated** that the proposed two (2) lot subdivision will not increase the hazard from fire or other dangers to said property.
 - c. Diminish the value of land and buildings throughout the County as petitioner **has not demonstrated** that the proposed two (2) lot subdivision will not diminish the value of land and buildings throughout the County.

- d. Unduly increase traffic congestion in the public streets and highways as petitioner **has not demonstrated** that the proposed two (2) lot subdivision will not unduly increase traffic congestion in the public streets and highways.
- e. Increase the potential for flood damages to adjacent property as petitioner **has not demonstrated** that the proposed two (2) lot subdivision will not increase the potential for flood damages to adjacent property.
- f. Incur additional public expense for flood protection, rescue or relief as petitioner **has not demonstrated** that the proposed two (2) lot subdivision will not incur additional public expense for flood protection, rescue, or relief.
- g. Otherwise impair the public health, safety, comfort, morals or general welfare of the inhabitants of DuPage County as petitioner **has not demonstrated** that the proposed two (2) lot subdivision will not impair the public health, safety, comfort, morals or general welfare of the inhabitants of DuPage County.

COMMENT SECTION:
<input type="checkbox"/> : OUR OFFICE HAS NO JURISDICTION IN THIS MATTER
<input type="checkbox"/> : NO OBJECTION/CONCERNS WITH THE PETITION
<input checked="" type="checkbox"/> : NO OBJECTION/CONCERNS WITH THE CONCEPT OF THE PETITION. ADDITIONAL INFORMATION MAY BE REQUIRED AT TIME OF PERMIT APPLICATION
<input type="checkbox"/> : I OBJECT/ HAVE CONCERNS WITH THE PETITION.
COMMENTS: The face of the plat should contain language similar to the following: "This property was subdivided on [date]. At the time of subdivision, the Post Construction Best Management Practice (PCBMP) and stormwater detention thresholds for the original parcel were subsequently subdivided among the newly created parcels. The threshold distribution ratio for each of the new parcels shall be calculated as the area of the new parcel divided by the area of the original parcel. This threshold distribution ratio shall be multiplied by the regulatory thresholds in effect at the time of any new development. If a PCBMP is required pursuant to the DuPage County Countywide Stormwater and Floodplain Ordinance, the property owner shall be obligated to implement the required PCBMP directly on the property and shall not have the option to satisfy such requirement through payment of a fee-in-lieu, unless such implementation is deemed impractical or is not in accordance with the ordinance at the time of submittal(s). . Please check with your local permitting authority regarding all stormwater management requirements." Additionally, site-specific runoff storage (detention) may be required to compensate for the loss of depressional storage caused by development activities, ensuring that there are no drainage impacts on neighboring properties.

Re: Zoning Petition ZONING-24-000059

Dear Ms. Infelise,

The Village of Burr Ridge is in receipt of notification of ZONING-24-000059, a request by Construction Solutions LLC and Patrick Smith for the property identified with address 15W770 90th Street, PIN 10-01-101-006. The Village limits are located directly to the south across 90th St., two parcels away to the north, and on the eastern side of Vine St. This is a request for three variations for lot size, lot width, and an interior side yard setback to divide the property. The Village's Plan Commission/Zoning Board of Appeals intends to formally review the matter at their September 16, 2024 meeting which is the next available meeting date. The Village hereby requests that the matter be continued until after September 16, 2024 to permit time to submit official comment.

Please be advised that at their July 15, 2024 meeting, the Plan Commission informally commented on ZONING-24-00041, the previous version of this case which concerned the same requests. The Plan Commission noted that the lot sizes were out of character with the other lots within Urban's Oakdale Manor, the lots do not meet the minimum lot size requirement for the Village's smallest residential zoning district (R-3), the lot sizes do not comply with the Village's Comprehensive Plan recommendation, and the requests do not meet the standards for variations.

Should you have any questions, please do not hesitate to contact me directly at jfarrell@burr-ridge.gov or (630) 654-8181 x 6100.

Sincerely,

Janine Farrell, AICP

Re: Zoning Petition ZONING-24-000059

Dear Ms. Infelise,

The Village of Burr Ridge is in receipt of notification of ZONING-24-000059, a request by Construction Solutions LLC and Patrick Smith for the property identified with address 15W770 90th Street, PIN 10-01-101-006. The Village limits are located directly to the south across 90th St., two parcels away to the north, and on the eastern side of Vine St. This is a request for three variations for lot size, lot width, and an interior side yard setback to divide the property. The Village's Plan Commission/Zoning Board of Appeals formally reviewed the matter at their September 16, 2024 meeting.

The Plan Commission expressed several concerns related to the request for three variations. The primary issues raised pertain to the following:

- **Lot sizes:** The Plan Commission raised concerns about the proposed lot sizes, noting that they do not meet the minimum lot area requirement for the Village's smallest residential zoning district, R-3, which requires a minimum of 20,000 square feet.
- **Compatibility with Surrounding Zoning and Development:** The subject site is located in close proximity to the Burr Ridge limits and near the Urban's Oakdale Manor Subdivision. The Plan Commission noted that the lot sizes were out of character with the other lots within Urban's Oakdale Manor. Within Urban's Oakdale Manor, Village parcels are zoned R-1 and R-2B which requires a minimum of 5 acres and 30,000 square feet. The R-1 parcels were annexed in as such and never rezoned.
- **Compliance with the Comprehensive Plan:** The Plan Commission expressed concern that the proposed lot sizes do not align with the Village's Comprehensive Plan, which recommends residential developments have a minimum lot size of 30,000 square feet. The subject parcel (undivided) and most of parcels within Urban's Oakdale Manor are at least 34,000 square feet.
- **Standards for a Variation:** The Plan Commission noted that the proposed variation requests do not satisfy the established standards for granting a variation. These standards require that the variation be supported by unique circumstances or challenges specific to the property and not commonly found in other properties within the same zoning district.

Should you have any questions, please do not hesitate to contact me directly at jfarrell@burr-ridge.gov or (630) 654-8181 x 6100.

MEMORANDUM

TO: DuPage County Development Committee

FROM: DuPage County Zoning Hearing Officer

DATE: October 16, 2024

RE: **ZONING-24-000063 SMM Management Co.
(Lisle/District 2)**

Development Committee: November 19, 2024:

Zoning Hearing Officer: October 16, 2024: The Zoning Hearing Officer recommended to deny the following zoning relief:

Variation to reduce the front setback for a pole sign from required 15 feet to approximately 10 inches (replacing sign cabinet and using existing pole/pole base).

ZHO Recommendation to Deny

FINDINGS OF FACT:

- A. That petitioner testified that the subject zoning relief is to reduce the front setback for a pole sign from the required 15 feet to approximately 10 inches (replacing sign cabinet and using existing pole/pole base).
- B. That petitioner testified that the existing sign cabinet is approximately 14 feet wide by 8 feet high (approximately 112 sq. ft./per side), and that the new sign would be significantly smaller, at 10 feet wide by 5 feet high (approximately 50 sq. ft./per side).
 - a. That petitioner testified that the only the proposed sign cabinet would be ten (10) inches from the front property line and that there would be no new sign pole constructed on the property.
- C. That petitioner testified that the existing sign pole and cabinet are already encroaching into the parking lot and that they would not be able to place both a

new sign fifteen (15) feet from the front property line, as it would be in the middle of their driveway/drive aisle and parking lot.

- D. That petitioner testified that over the years, Maple Avenue has been widened and that the existing sign cabinet is over the property line due to the widening of Maple Avenue right-of-way.
- E. That petitioner testified that there is no other location on the subject property to move the sign to and that the only way to update the dilapidated sign cabinet is to replace only the sign cabinet and utilize the existing sign pole.
- F. That the Zoning Hearing Officer finds that petitioner has not demonstrated sufficient evidence for a practical difficulty and particular hardship in relation to the subject Variation to reduce the front setback for a pole sign from the required 15 feet to approximately 10 inches (replacing sign cabinet and using existing pole/pole base) and that petitioner has not provided sufficient evidence for the seven (7) Standards to support a Variation.
- G. Furthermore, that the Zoning Hearing Officer finds that testimony presented at the October 2, 2024 public hearing by the representatives of the Village of Downers Grove to be persuasive.
- H. That the Zoning Hearing Officer finds that there are alternative locations available on the subject property for a sign that would meet the Zoning Ordinance and not require a Variation.

STANDARDS FOR VARIATIONS:

- 1. That the Zoning Hearing Officer finds that petitioner **has not demonstrated** that the granting of the Variation is in harmony with the general purpose and intent of the Zoning Ordinance, and will not be injurious to the neighborhood, detrimental to the public welfare, or in conflict with the County's comprehensive plan for development.
- 2. That the Zoning Hearing Officer finds that petitioner **has not demonstrated** the granting of the Variation will not:
 - a. Impair an adequate supply of light and air to the adjacent property as petitioner **has not demonstrated** that the proposed new sign cabinet will not impair an adequate supply of light and air to the adjacent properties.
 - b. Increase the hazard from fire or other dangers to said property as petitioner **has not demonstrated** that the proposed new sign cabinet will not increase the hazard from fire or other dangers.

- c. Diminish the value of land and buildings throughout the County as petitioner **has not demonstrated** that the proposed new sign cabinet will not diminish the value of land and buildings throughout the County.
- d. Unduly increase traffic congestion in the public streets and highways as petitioner **has not demonstrated** that the proposed new sign cabinet will not unduly increase traffic congestion in the public streets and highways.
- e. Increase the potential for flood damages to adjacent property as petitioner **has not demonstrated** that the proposed new sign cabinet will not increase the potential for flood damages to adjacent property.
- f. Incur additional public expense for flood protection, rescue or relief as petitioner **has not demonstrated** that the proposed new sign cabinet will not incur additional public expense for flood protection, rescue, or relief.
- g. Otherwise impair the public health, safety, comfort, morals, or general welfare of the inhabitants of DuPage County as petitioner **has not demonstrated** that the proposed new sign cabinet will not impair the public health, safety, comfort, morals, or general welfare and will be an added benefit to the neighborhood.

Petition for sign variance relief

Client would like to update the sign and display different messaging. The current sign is over the property line, it is old and in a poor condition. The existing sign is 13 feet wide and 9' tall. We would like to install a new but smaller sign cabinet that is 10 feet wide and 5 feet tall using the existing pole mechanism and we will ensure that the new sign is within the property line. We are seeking your help and support for a variance relief from 15 feet of property line to 10 inches for the following reasons:

1. Over the years, due to the widening of the road and losing space, the sign location has come very close to the roadside
2. Relocating the pole is not very practical since the current location of the pole is already in the parking lot. Currently the center of the pole is 4' 10" from the property line, and to meet the setback requirement, the pole would have to be moved towards the building by another 15' which would put the pole in the middle of the driveway.
3. Putting the sign at this new location would put the sign very close to the building and interfere with the entrance, and block the cars from entering and exiting the property
4. Relocating sign would make the sign not visible for the west bound traffic on Maple Ave
5. We explored the idea of a flag mount sign, but this will push the sign towards the building and will have reduced visibility thus not serve the function.
6. To meet the requirements, we will install the sign off-centered. The new sign is a 10' wide x 5' h sign, and rather than installing the sign in the middle, we will install the sign cabinet projecting four feet towards the roadside, and six feet towards the parking lot. This will make the edge of the sign 10" offset from the property line.
7. The sign cabinet will be installed at 105" from the ground, almost 9 feet from the ground, well above the minimum height requirements, and the overall height of the sign will be 165", below the 20' requirement.

Given the circumstances and trying to reuse existing pole, this is the practical option that will allow our client to have a functioning sign.

Thanks for your help and support!

Re: Z-24-000063
PIN 08-13-201-023, Address 2230 Maple Avenue

Dear Ms. Infelise,

The Village of Downers Grove has had the opportunity to review the requested sign variance for the property at 2230 Maple Avenue. The Village of Downers Grove has an opinion in this matter because of the subject property's adjacency to the municipal boundary, and location within the Village's ultimate planning area.

The site is in unincorporated DuPage County and is classified as B -2 General Business District by the County's zoning ordinance. The petitioner is proposing to construct a pole sign that is setback only 10 inches from the property line instead of the DuPage County Zoning Ordinance setback requirement of 15 feet from the property line. The Village frequently receives complaints about this property and the excessive number and types of signs that are currently on the property.

After reviewing the plans, staff has the following comments and concerns:

1. Per Section 28.9.020(t) of the Downers Grove Village Ordinance pole signs are specifically prohibited. The request identifies that the sign will be constructed as a pole sign.
2. Per Section 28.9.050(b)(1) of the Downers Grove Village Ordinance monument signs are allowed a maximum height of 10 feet. The request identifies that the sign will be constructed to a height of nearly 14 feet.
3. Per Section 28.9.050(b)(1)b of the Downers Grove Village Ordinance, monument signs must be placed at least 10 feet from the property line. The request identifies the sign will be located 10 inches from the property line.
4. Per Section 28.9.050(b)(1)f of the Downers Grove Village Ordinance requires the base of all monument signs must be landscaped. Landscaping is not provided with the proposed signage.

The Village has also observed the subject property utilizing the following types of signs that are prohibited in Downers Grove:

1. Per Section 28.9.020(i) of the Downers Grove Village Ordinance, LED and flashing signs are specifically prohibited.
2. Per Section 28.9.020(k), of the Downers Grove Village Ordinance, attention-getting devices are specifically prohibited.

The standards for relief for the variance or evidence of a hardship do not appear to be met. It appears the subject property has other suitable signage options including the installation of a curbed landscaping bed which provides a location for the sign that is compliant with setback requirements.

The Village of Downers Grove does not recommend approval of the variation requests for the proposed signage. The Village of Downers Grove asks DuPage County to deny the variation request as the case for a hardship has not been proven and allowance of the proposed signage

and existing signage is not “in harmony with the general purpose and intent of the Zoning Ordinance.” The proposed and existing signage will noticeably vary from the existing characteristics of signage located in the immediate neighborhood and similar zoning districts.

The Village of Downers Grove would like to attend the public hearing on Wednesday, October 2, 2024 at 2:30pm. Please provide log-in information for the Zoom meeting.

Sincerely,

Jason Zawila, AICP

MEMORANDUM

TO: DuPage County Development Committee

FROM: Staff

DATE: November 19, 2024

RE: **T-3-24 Proposed Text Amendments to the County Zoning Code relative to Principal Arterial Two (2) Family Dwelling Conversion Use**

DuPage County Development Committee: November 19, 2024: Request to conduct a public hearing before the DuPage County Zoning Board of Appeals to consider the following:

Amendments to the DuPage County Zoning Code to permit the conversion of a single dwelling unit into not more than two (2) dwelling units where the Residential Zoned Property meets all of the following criteria:

- A. The principal arterial dwelling conversion use shall be subject to the following requirements.
 - 1. The property is zoned in either the R-3 or R-4 Single Family Residential Dwelling District:
 - 2. The property fronts on a designated principal arterial roadway as follows:
 - o Illinois Route 59,
 - o County Farm Road,
 - o Main Street - Wheaton between Illinois Route 38 (Roosevelt Road) to Illinois Route 64 (North Avenue),
 - o Illinois Route 64 (North Avenue),
 - o Naperville-Wheaton Road, Naper Boulevard,
 - o Illinois Route 53 south of Illinois Route 38 (Roosevelt Road),
 - o Illinois Route 83 (Kingery Highway),
 - o Illinois Route 19 (Irving Park Road),

- U.S. Route 20 (Lake Street),
 - Illinois Route 38 (Roosevelt Road),
 - 22nd Street from Interstate 294 to Illinois Route 56 (Butterfield Road)
 - Illinois Route 56 (Butterfield Road) from 22nd Street west to the DuPage-Kane county line,
 - U.S. Route 34 (Ogden Avenue) from DuPage-Cook county line to North Aurora Avenue and from 75th Street to the DuPage-Kane county line,
 - North Aurora Avenue from U.S. Route 34 (Ogden Avenue) to Illinois Route 59,
 - 75th Street from U.S. Route 34 (Ogden Avenue) to Illinois Route 83,
 - Army Trail Road from U.S. Route 20 (Lake Street) to the DuPage-Kane County line, and
 - Lemont Road
3. The property takes direct and exclusive access to the Principal Arterial Roadway.
 4. The property is not defined as a reserve lot.
 5. The parcel is not part of a planned unit development.
 6. The principal building is oriented toward the primary arterial roadway.
 7. The principal building must have been constructed prior to _____ (the effective date of this Ordinance Amendment).
 8. One of the dwelling units in the Principal Arterial Conversion must be occupied by the owner of the property
- B. The principal arterial dwelling conversion use shall be subject to the following site requirements.
1. The principal buildings or structures in which the principal arterial conversion is located shall be subject to the front, side, and rear setbacks of the applicable single-family residential zoning district.
 2. All building facades of the principal building must maintain the existing single-family residential character of the structure.
 - (a) Other than necessary building code requirements to convert the dwelling into not more than two (2) dwelling units, the exterior of the existing dwelling unit may only be altered or rehabilitated provided the alteration is a nonstructural repair of the building including the replacement of the roof covering, veneering or outer walls and

incidental repairs which do not extend or intensify the existing dimensions of the building.

- (b) The building, however, shall not be enlarged, expanded, or extended.
- (c) Repairs and alterations may be made to the exterior or interior of the building to return the building to a safe condition in accordance with the county codes.

3. Existing landscaping on the site shall be preserved and maintained.
4. Parking requirements shall be based upon the current parking requirements for a two-family dwelling. All other parking requirements for the principal arterial dwelling conversion use shall be provided per the minimum requirements of article XII, "Off Street Parking And Loading Requirements," of this chapter.
5. The principal arterial dwelling conversion use shall be subject to landscape review.
6. All driveways, parking areas and refuse containers shall require a full landscape screen and the remainder of the property shall maintain at least a partial landscape screen around the structures on the property used for the principal arterial dwelling conversion use as well as any additional landscape requirements within the respective single-family residential zoning district.
7. The building conversion and use shall meet all other DuPage County Codes for such uses.
8. Property owners meeting the requirements and qualifications and intending to conduct a principal arterial dwelling conversion use on their premises shall require a building permit from the DuPage County prior to the conversion.
