Dealership Information

Family-owned and operated since 1969, Standard Equipment Company provides environmental equipment solutions for municipalities, contractors, and companies. We have built a reputation for excellence by offering the finest new equipment, a large selection of parts, excellent service, and unparalleled customer support. We customize environmental equipment solutions for every situation by putting our customer's needs first. Standard's greatest ability is dependability.

Manufacturer Information

Vactor's origins as an American manufacturer go back more than a century, and their expertise and leadership in sewer cleaning date back more than fifty years. In that time, they have been more than a manufacturer. As a pioneer and an innovator, they have found ways to help communities save money, improve the quality of life for people, and improve the productivity and safety of the individuals who operate their equipment.

This commitment to innovation inspired them to create the very first combination sewer cleaner in 1969.

Today, they remain driven to bring you the safest, most capable, versatile, quietest, and most efficient equipment possible. Durable, reliable equipment that delivers the quality and value you deserve and should demand. Equipment you can count on today, tomorrow, and years into the future.

Vactor 2100i

It employs advanced technology that not only enhances the performance of the equipment but the individuals who operate it. Less fatigue. More comfort. Push button operation. Greater precision. Superior power and performance. Controls that truly put the operator in control. All of this in a system designed to be the ultimate in ruggedness, reliability, simplicity, and value.

- **IntuiTouch® one-touch in-cab controls** for PTO/Transfer Case activation at the touch of a button
- **IntuiTouch control panel** that combines all cleaning system functions into one, articulating control panel
- ***Optional RDB 1015™ Rapid Deployment Boom** that telescopes out 10' and extends the debris hose down 15' eliminating the need for additional tubes
- **Patent pending H.A.L.O.™** (Hands-Free Accessory Light Option) brings a new level of safety and efficiency to every jobsite
- Low maintenance **Jet Rodder® Water Pump** provides smooth continuous flows and optional “jackhammer” action
- Multi-Flow system offers operation at lower RPM for better fuel economy without sacrificing performance, less component wear and greater product life
- Modul-Flex design provides for maximum capacities and optimum weight distribution on every truck
- Quieter engine design, high ground clearance, lower water fill point and other features to improve the operator experience
