7. ADMINISTRATIVE UPDATE

2025 Shelter Statistics have been posted on the About Us page of the Animal Services website, e-newsletter and socials.

Animal intake has increased 47% over 2024. That does not include ancillary services such as high-volume spay/neuter, post adoption veterinary services, spay/neuter voucher program services, etc. Despite this population increase, DCAS maintained a 93% Live Release Rate (LRR) which by definition qualifies DCAS for no-kill status. To be considered a no-kill shelter, you must maintain a Live Release Rate of 90% or higher.

Animal Services' priority is always safe and responsible sheltering and re-homing. While euthanasia for untreatable illness is not included when calculating LRR, euthanasia for space and/or behavior is factored into LRR.

There has been a substantial increase in the number of requests for owner requested euthanasia from the public, and from pet owners struggling with affordability of veterinary medical care. This is a trend that will not go away anytime soon. To help meet this need, DCAS is in the process of recruiting a second veterinarian that can help DCAS triage and help keep the public's neediest animals with their families. In addition, DCAS was recently awarded a grant from Best Friends Animal Society for a veterinary medical intake diversion program aimed at preventing animals from being surrendered into the shelter system or suffering in their homes due to lack of affordable veterinary care.

Officers responded to 406 field calls and 1,400 investigations in 2025. Education and outreach programs increased with the completion of the new shelter education/event space. 195 programs reached over 8,000 residents in 2025.

Return to Owner rates held steady at 15% for cats and 57% for dogs. This statistic reinforces the consistently high population of cats and the regular struggle with capacity for care as it relates to cats in the shelter. For this reason, Animal Services is prioritizing programs and services aimed at reducing the number of cats arriving at the shelter through targeted spay/neuter.

Laura also shared the Chicagoland Humane Coalition is looking to partner with Petsmart Charities to host several area-wide in-store adoption events over the next year.

Nick provided the committee with an update on the status of resolving the outstanding HVAC issues remaining from the renovation.

The new education/event space is seeing a high level of interest from outside organizations interested in renting the space for upcoming meetings and events including: Choose DuPage,

DuPage County District 6, DuPage Mayors and Managers, DuPage County Bar Association, Rotary Clubs, etc. Several area businesses have also expressed interest in renting space for employee team-building and community service programs.

8. OLD BUSINESS

No old business was discussed.

9. NEW BUSINESS

Member DeSart shared about a recent bingo fundraiser she attended for Hopeful Tails suggesting it as a potential future fundraiser for DAF.

10. ADJOURNMENT

With no further business, the meeting was adjourned.

7. **ADMINISTRATIVE UPDATE**

Laura shared that shelter population is still high, with no slow-down in cat intakes. Kittens are continuing to arrive, and Feral Fixers has ceased trapping for the winter. Laura stated there is currently an open position for a full-time second shelter veterinarian. Once filled this position will focus primarily on cat spay/neuter.

Shelter population is currently 265 animals, 216 of which are cats. A cat fee-waived cat adoption event is planned for Saturday, November 22nd in the hopes of moving more cats into homes.

A Home for the Holidays adoption will begin the week of November 24th and will include waived adoption fees on select animals.

There are several new hires in the process of being on-boarded. A new Animal Control Officer started on the 17th. They have experience working with wildlife which will be useful as Animal Services assists with sick and injured wildlife in unincorporated parts of DuPage County. Chair Krajewski reminded the committee that incorporated parts of the county are responsible for handling sick & injured wildlife calls in their own jurisdictions.

Laura shared that officers recently assisted with rescuing a sick coyote in unincorporated West Chicago. The coyote is currently being cared for by DuPage Conservation Center and per the last update, it is doing well. Staff are hopeful he will recover well enough to be released back into the wild.

Two new Client Services team members are set to have their first day the first week of December, and a new Animal Caretaker will be starting next week.

8. OLD BUSINESS

Chair Krajewski announced that the DAF gala will take place on May 15, 2026 at the Chicago Marriott Oak Brook.

A family that adopted a dog from the shelter will be hosting a fundraiser to benefit DAF on September 19, 2026 at Hotel Arista. The fundraising goal for this event is \$200,000.

The DAF board has set an annual fundraising goal of \$700,000 beginning in 2027, to help fund capital loan repayment, the grant-funded Marketing Coordinator position, annual unrestricted grant to Animal Services, and ongoing specialty/emergency medical needs.

9. NEW BUSINESS

Member DeSart suggested that Animal Services partner with food insecurity organizations to drive pet food donations for families with pets that are in need of assistance.

Chair Krajewski shared there is a joint event planned for December 6th hosted by the cities of Downers Grove, Westmont and Hinsdale to benefit Hinsdale Family Shelter, Downers Grove FISH, and People's Resource Center. Inspired by the sheer number of animals being surrendered to shelters due to financial hardship, the event will drive donations of pet and people food to these organizations that serve community members in need. A top ten list of most needed food donations will be available soon. The most needed pet food is currently canned cat food.

Laura shared the food donations received at the shelter that cannot be used at the shelter are always shared with community members in need, rescue partners, and local food pantries.

Member Eckhoff proposed an annual award given in recognition of a community member that has demonstrated exceptional care and given to animals. Joan shared that this year's Daily Herald "Someone to be Thankful For" will feature an Animal Services volunteer. It was suggested that recognition start with email and social media mentions, culminating in a grand award presented at the DAF gala.

10. ADJOURNMENT

With no further business, the meeting was adjourned.

DECISION MEMO REQUIRED - Check Applicable Box(es) and Fill In All Answers Below

- ☒ Contract Extension Greater Than 59 Days From Dec 14, 2025 to: Feb 28, 2026 ☐ Cancel Contract
- ☐ Cumulative Increase Greater Than \$10,000 (Row 'F' Above) ☐ Other - Explain In Summary Explanation Box Below

Summary Explanation - Provide a summary of the action. Explain why it is necessary and what is to be accomplished.

Funds remain on original contract due to 3 months of no purchasing while Animal Services was without a full time veterinarian. By utilizing the Zoetis Shelter Program, Animal Services realizes significant savings by buying direct from the manufacturer. Other than the Shelter Program, Zoetis does not sell directly to individual veterinary clinics or animal hospitals, requiring them to purchase from a 3rd party reseller (i.e. Covetrus). Purchasing direct from Zoetis represents an annual cost savings of approximately 42% over the next competitively priced reseller (Covetrus).

Original Source Selection/Vetting Information - Describe method used to select source; for instance, bid, RFP, sole source, etc.

Waiver of County Bid Rules Request and Decision Memo.

Animal Services is enrolled in the Zoetis Shelter Program which allows Animal Services to purchase pharmaceuticals, vaccinations, medical supplies, and preventative treatments direct from the manufacturer. There is not another pharmaceutical company with a program like this one available for the supplies that Animal Services requires. By utilizing the Zoetis Shelter Program, the department realizes significant savings by buying direct from the manufacturer. Other than the Shelter Program, Zoetis does not sell directly to individual veterinary clinics or animal hospitals, requiring them to purchase from a 3rd party distributor like Covetrus. The average percentage saved over the next competitively priced reseller (Covetrus) for the current PO is 42%. A spreadsheet showing the actual savings for the period from May 2024 - November 2024 was provided. There is no change to the original contract total and funds are available in the Animal Services FY26 budget.

Recommendations/Alternatives - Describe staff recommendation and provide justification. Identify at least 2 other options to accomplish this request.

1. Approve the Change Order as-is and continue to save 42% off retail price on Zoetis products
2. Do not approve the PO and pay full marked-up price for the same product(s) through a third party distributor like Covetrus after the current contract expires, and until a new contract is put in place.

Fiscal Impact/Cost Summary - Include projected cost for each fiscal year, approved budget amount and account number

Purchasing pharmaceuticals, vaccinations and medical supplies through the Zoetis Shelter Program provides Animal Services with an annual savings of approximately \$11,000 for 1100-1300-52300.
