---

**Monday, June 2, 2025**

**8:15 AM**

**Room 3500A**

---

#### Join Zoom Meeting

<https://us02web.zoom.us/j/83220680840?pwd=E02RyhPRPb2j3fCEjAFsHfFoGaoiwnQ.1>

**Meeting ID: 832 2068 0840**

**Passcode: 054391**

#### 1. CALL TO ORDER

8:15 AM meeting was called to order by Chair Selvik, Member Fleury arrived at 8:17 AM.

#### 2. ROLL CALL

Attendees:

Linda Zerwin, DuPage Emergency Telephone System Board, non-voting Member

Gregg Taormina, DuPage Emergency Telephone System Board (Remote)

Eve Kraus, DuPage Emergency Telephone System Board (Remote)

Andres Gonzalez, DuPage Emergency Telephone System Board

Jan Barbeau, State's Attorney's Office (Remote)

Michael Rodriguez, Lisle PD (Remote)

Craig Gomorzak, Lisle PD (Remote)

Marilu Hernandez, ACDC (Remote)

Erik Maplethorpe, DU-COMM (Remote)

Jim McGreal, Downers Grove PD (Remote)

Alison Murphy, DMMC (Remote)

Bob Murr, COD (Remote)

Tom Gallahue, ILEAS (Remote)

Jim Connolly, Village of Addison (Remote)

On roll call, Members Benjamin, Burmeister, Clark, Fleury, Jansen and Selvik were present, which constituted a quorum.

|                |   |
|----------------|---|
| <b>PRESENT</b> | Selvik, Benjamin, Burmeister, Clark, Fleury, and Jansen |
|----------------|---|

#### 3. PUBLIC COMMENT

There was no public comment.

#### 4. CHAIR'S REMARKS - CHAIR SELVIK

There were no remarks from Chair Selvik.

#### 5. MEMBERS' REMARKS

There were no Members' remarks.

## 6. CONSENT ITEMS

### 6.A. [25-1349](#)

DEDIR System May Maintainer Report

On voice vote, all Members voted “Aye”, motion carried.

## 7. PARENT COMMITTEE APPROVAL REQUIRED

### 7.A. [ETS-R-0029-25](#)

Resolution to approve Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System). (PAC Recommendation to approve: 6 Ayes, 0 Nays)

Vice Chair Clark made a motion to recommend approval to the ETS Board, seconded by Member Burmeister. Chair Selvik opened the item for discussion.

Member Benjamin said he wanted to discuss the purpose of the recent changes and asked what the purpose of these changes was, since Policy 911-005.2 had just been changed three weeks earlier. Chair Selvik said the changes were mainly to clean up language about who was monitoring DUCALL. Vice Chair Clark said he read it the same way. Chair Selvik said last month it was discussed that DU-COMM is not monitoring DUCALL, and Member Benjamin said they do not. Chair Selvik said the changes are to clarify that DUCALL would be specific to ACDC agencies and to address language cleanup recommended by Assistant State's Attorney Winistorfer.

Ms. Zerwin said that in reviewing Policy 911-005.2 at the May 14, 2025, ETS Board meeting, Member Robb asked for changes on the floor, but other paragraphs in the policy had language that did not match the intent and have been amended, so this revision aims to make Policy 911-005.2 consistent with what Member Robb asked to be changed. Ms.

Zerwin said that in the InterOp Talk Groups section, language that should have been struck remained, so it was cleaned up. Ms. Zerwin said ACDC clarified in conversations that it would only monitor ACDC agencies, and Assistant State's Attorney Winistorfer made further changes for clarity and flow, including moving the Application Modification section to the end of the Application Process.

Ms. Zerwin said these changes are meant to make the Policy 911-005.2 consistent with what she and ASA Winistorfer believed was Member Robb's original intent and to address ACDC's request. Ms. Zerwin referred to a Memorandum sent to PAC Members and said with respect to the recommendations, that since the phone numbers were in the Policy as a secondary form of contact, that information should be included directly on the application form, as applicants will need easy access to the number if that will be the process.

Chair Selvik asked if that answered Member Benjamin's question, and Member Benjamin said it did. He asked if anything besides DUCALL and patching was being changed, and Chair Selvik said the rest was just cleanup and addressing phone numbers. Member Benjamin said the memo mentioned clarifying the talk groups name change transition and asked what that was related to. Ms. Zerwin said ASA Winistorfer recommended adding language to the Policy to clarify the transition timeline, since DUCALL is not currently active and the talk group currently operates under a different name. She said the changes aim to avoid future revisions by establishing that, once implemented, the new name will take effect moving forward.

Member Benjamin asked if the Focus Group's operational recommendations and current talk group names were included in the spreadsheets. Ms. Zerwin said yes, the spreadsheets showed both current and future names. She said now that the Policy was shifting to a more open approach, agencies would need to know both names during the transition. Ms. Zerwin said agencies might label the talk groups differently on their radios, but the spreadsheets would help them match the old and new names.

Member Fleury asked why DU-COMM did not use DUCALL. Member Benjamin said they could not commit to monitoring it 24/7 due to staffing and workflow. Member Fleury asked if anything could be done to improve the workflow. Member Benjamin said that during large incidents, it is not practical to monitor a separate channel, and that communication is usually handled by dispatchers over the phone rather than trying to solve problems on a radio channel. He said he saw the value of DUCALL but do not have the staff or workflow for it.

Member Fleury asked how ACDC would handle it, and Member Burmeister said they would add it like another channel and set it to scan. Vice Chair Clark said the purpose of the Hailing channel was to assign InterOp channels, not to call for help, and that this could also be done by phone. Member Benjamin said actual incidents would not take place on DUCALL, but it would be used to request patches or information. Chair Selvik said for their agency, requests were usually handled by phone, and monitoring DUCALL was not a big task for ACDC. Vice Chair Clark and Member Burmeister said the main benefit was for outside agencies. Member Benjamin said the main purpose was to give

outside agencies a way to access DEDIRS channels by calling on DUCALL, but DU-COMM was not set up for that.

Member Fleury compared it to KaneCall, which was used as an emergency channel by everyone in Kane County, and said he had assumed DUCALL worked the same way, but it did not.

Member Benjamin asked if the changes to the Application Modification section were substantive or just reorganization. Ms. Zerwin said there were a few word changes but nothing substantive, and most changes were just moving text for clarity. She said some lines were moved to different parts of the section, and the Assistant State's Attorney deleted and moved sentences for better organization. She reviewed the changes for the Committee.

Member Benjamin said he had no further questions. Chair Selvik asked if there were any other questions about the Policy revision, then said there was a motion and a second and called for a vote on the changes.

On voice vote, all Members voted "Aye" to recommend approval to the ETS Board, motion carried.

## 8. DEDIR SYSTEM

### 8.A. [25-1351](#)

#### June DEDIR System Update

Ms. Zerwin said that ETSB has all the keys except for the one for Hodgkin's, because some of the Police agencies that shared the key were resistant. She said they would move forward without it and leave space for it, so they could keep going. She said they hoped to get a copy of the encryption plan to review this week and offered to take any questions.

Vice Chair Clark asked about the status of the KMF that Motorola was providing, and Ms. Zerwin said she did not have any information about it because Andy, the radio service manager, was on vacation last week. She said she would check and let them know. Member Benjamin asked who the plan would go to for review and if another review was needed. Ms. Zerwin said it would be a new document and would be a first review. When asked again who would review it, she said she did not know yet because

she had not seen it and did not know what kind of review it would need, or if it would need a Tech Focus Group review etc. Chair Selvik said he thought they would have the document hopefully this week.

**Attachments:**     [DEDIR System Update - 06 2025](#)

#### **8.B. Police**

Chair Selvik said there had been no Police Focus Group meeting and no additional updates on the police side. He said they were waiting on the encryption plan.

#### **8.C. Fire**

Vice Chair Clark said template testing was underway and that the addition of encryption keys would allow for more complete testing of some State channels.

### **9. OLD BUSINESS**

Chief Selvik asked if there was any old business. Ms. Zerwin said that changes to the talk groups on the MOU with Lyons Township Area Communications Center (LTACC) came though after the agenda was posted and she wanted to present it to the PAC Members. She said LTACC had made some adjustments to their talk groups compared to what the agreement has, and she said the members received that information as a secondary email from Andres. She noted that LTACC is removing certain talk groups from availability. She said the changes would have to go through the process and be on the agenda next month. However, she said that to avoid delays, if there was no objection, staff could remove the tactical channels now to keep the programming going and finalize everything next month. Chief Selvik said that sounded good and asked if there were any objections or questions. Nobody opposed. He said he thought they were good. Ms. Zerwin said that another option was that she had signing power in the Policy and the changes could be affirmed through the ETS Board by putting it on the agenda next week, if there were no objections. Chief Selvik asked if anyone had an issue with that, and when no one objected, he said they were all good. Ms. Zerwin said they would then put it on for the next week ETS Board Meeting and move forward.

### **10. NEW BUSINESS**

There was no new business.

### **11. ADJOURNMENT**

#### **11.A. Next Meeting: Monday, July 7 at 8:15am in Room 3-500A**

Member Benjamin made a motion to adjourn the meeting at 8:40am, seconded by Member Fleury. On voice vote, motion carried.

Respectfully submitted,

Andres Gonzalez

## ETSB Other Action Item

421 N. COUNTY FARM  
ROAD  
WHEATON, IL 60187  
[www.dupagecounty.gov](http://www.dupagecounty.gov)

---

**File #:** 25-1349

**Agenda Date:** 6/2/2025

**Agenda #:** 6.A.

---

Solving for safer. Communities, schools, hospitals, businesses everywhere.

**TO:** Linda Zerwin, ETSB Executive Director  
**FROM:** Andy Saucedo, Motorola System Manager  
**DATE:** May 25, 2025  
**SUBJECT:** STARCOM21 DEDIRS Monthly Report

**Projects:**

**DEDIR System Radio Replacement**

APXNext Police: ADP to AES encryption plan pending. Motorola Solutions has been collecting all encryption documents complied by ETSB focus groups and discussion notes to construct the encryption fleetmap. Outside agency IGAs are being updated and encryption keys are being collected by ETSB. The ETSB has collected all encryption keys except Hodgkins.

APX 4000: Emergency activation configuration update was created to address a programming issue and a schedule was developed in Monday.com to update radios. Emergency activation configuration change has been applied to 19 agencies/376 radios have been programmed. There are 5 agencies/22 radios that remain to be programmed. (Oak Brook/1, Itasca/1, Elmhurst/12, Lombard/7, Wheaton/1). APX4000 channel limitation evaluation has been submitted to the Motorola encryption team.

APX8500: Alternate options to the APX8500 are being considered. Motorola Product Group and Account Manager met with ETSB to discuss further configuration and filter options for the APX8500.

**Programming – Projects**

**Code plug updates:** APX NEXT XN: Modification made to Fire Master configuration and all changes have been incorporated. All agency templates on Monday.com that were marked Ready For Configuration have been completed. Fire Focus will be reviewing the remaining agencies for accuracy and update the status. Fire radio configuration templates need IGA/MOU finalization with outside agencies. ADP and AES encryption that was obtained has been added to the master configuration. All 1206 XN portables have been firmware upgraded, SmartConnect and Personnel Accountability flashed, and tuned. Also quantity 51 Radio Central Link Issue fixes have been applied and fully completed.

**Codeplug Creation:**

There were none last month.

**Consolidations:**

There were none last month.

**Radio Alignment:**

There were none last month.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

### **STARCOM21 Scheduled Maintenance:**

System Maintenance: There was none last month.

Radio Central Patches: There was none last month.

Command Central Patches: There was none last month.

### **System Patches:**

The Starcom21 team and Motorola RSUS team applied security update patches to the Starcom21 system core in all Zones. The Patching efforts were done by the RSUS team on 5/14 and 5/15. These patches caused an impact to the system in all Zones. It caused RF Site to enter to site trunking and Dispatch Sites to get Red X's on resources.

Thursday, 5/15/25

8:45 am- Site Trunking Event (~5 Minute Event)

Red X's on Consoles for 5 Minutes as well

2:45 pm - Site Trunking Event (~5 Minute Event)

Red X's on Consoles for 5 Minutes as well

IL STARCOM Monthly Application of Windows Motopatch 2025.04 – Patching 5/16/25. Monthly MOTOPATCH for Windows process was performed on applicable clients in your ASTRO System.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

SmartConnect Patches:

[Scheduled Maintenance] SmartConnect (United States)

The scheduled maintenance has been completed.

Start: 1/May/2025 @ 7:00 PM CDT (UTC -5)

End: 1/May/2025 @ 8:00 PM CDT (UTC -5)

[Scheduled Maintenance] SmartConnect (United States)

The scheduled maintenance has been completed.

Start: 15/May/2025 @ 7:00 PM CDT (UTC -5)

End: 15/May/2025 @ 8:00 PM CDT (UTC -5)

Radio Management CPS Patches:

DMS APX Hosted RM Radio Management was upgraded on 5/13/25 to R36.00.01. Both server and clients have been updated and tested.

Radio Central Migration:

RadioCentral Migration was completed on 5/14/25. Agency partitioning, programming enhancements, multifactor authentication, and improved organization within the platform are all incorporated into the new platform. The following two portables were not migrated due to pending updates and downloads needed to be completed.

| Serial Number | Model Number | Codeplug Version | Firmware Version | Group | Radio Alias | Job Status                  | Last Contact Time    |
|---------------|--------------|------------------|------------------|-------|-------------|-----------------------------|----------------------|
| 142CXX1154    | H45TGT9PW8AN | R33.00.01        | R06.04.00        | BAP   | BAP JENKINS | Running: Waiting For Device | 8/16/2023 9:51:49 AM |
| 142CXX0922    | H45TGT9PW8AN | R29.00.01        | R04.61.00        | BEP   | BEP CARRERA | Running: Waiting For Device | 1/30/2023 5:55:20 PM |

Releases:

APX Portables and Mobiles Firmware R36.01.00 2025.1 is a maintenance release and was available 4/14/25 (CPS R36.00.01). It included new products and features updates. No defect repairs included and minor updates. Application is optional.

APX NEXT Firmware R09.03.00 FW 2025.1 was released and was available 4/14/25 (CPS R36.00.01). It included new products and features updates. Defect updates and repairs included also. Application is optional.

IMPRES 2 Charger Software Release: Enhancements have been made to the software used in the IMPRES 2 multiunit chargers. Software V2.11 Sep 2024 may improve charging efficiency and capacity reporting. Update is optional.

**STARCOM21 Unscheduled System Outages:** There were none last month.

**Meetings:** There were none last month.

**Training:** There was none last month.

Solving for safer. Communities, schools, hospitals, businesses everywhere.

# DU PAGE COUNTY

## ETSB - Policy Advisory Committee

### Draft Summary

421 N. COUNTY FARM ROAD  
WHEATON, IL 60187  
www.dupagecounty.gov

---

**Monday, May 5, 2025**

**8:15 AM**

**Room 3500A**

---

**Join Zoom Meeting**

**<https://us02web.zoom.us/j/84609997644?pwd=60lHXrEpLrA9uaX1orMufZVKSRh8lY.1>**

**Meeting ID: 846 0999 7644**

**Passcode: 924933**

**1. CALL TO ORDER**

8:15 AM meeting was called to order by Chair Selvik at 8:15 AM.

**2. ROLL CALL**

Attendees:

Linda Zerwin, DuPage Emergency Telephone System Board, non-voting Member  
Gregg Taormina, DuPage Emergency Telephone System Board (Remote)  
Eve Kraus, DuPage Emergency Telephone System Board  
Andres Gonzalez, DuPage Emergency Telephone System Board  
Jesse Gutierrez, Citizen  
Jan Barbeau, State's Attorney's Office (Remote)  
Jim Connolly, Village of Addison (Remote)  
Marilu Hernandez, ACDC (Remote)  
Erik Maplethorpe, DU-COMM (Remote)  
Jim McGreal, Downers Grove PD (Remote)  
Alison Murphy, DMMC (Remote)  
Bob Murr, COD (Remote)

On roll call, Members Benjamin, Burmeister, Clark, Jansen and Selvik were present, which constituted a quorum.

|                |   |
|----------------|---|
| <b>PRESENT</b> | Selvik, Benjamin, Burmeister, Clark, and Jansen |
| <b>ABSENT</b>  | Fleury  |

**3. PUBLIC COMMENT**

There was no public comment.

**4. CHAIR'S REMARKS - CHAIR SELVIK**

There were no remarks from Chair Selvik.

**5. MEMBERS' REMARKS**

There were no Members' remarks.

## 6. CONSENT ITEMS

### 6.A. [25-1178](#)

DEDIR System April Maintainer Report

On voice vote, all Members voted “Aye”, motion carried.

**Attachments:**     [Motorola System Manager Report April 2025.pdf](#)

**RESULT:**            ACCEPTED AND PLACED ON FILE

**MOVER:**             Eric Burmeister

**SECONDER:**        Craig Jansen

### 6.B. [25-1179](#)

ETSB PAC Minutes - Regular Meeting - Monday, April 7, 2025

On voice vote, all Members voted “Aye”, motion carried.

**Attachments:**     [2025-04-07 PAC Minutes Summary.pdf](#)

**RESULT:**            ETSB RECEIVED AND PLACED ON FILE

**MOVER:**             Chris Clark

**SECONDER:**        Eric Burmeister

## 7. PARENT COMMITTEE APPROVAL REQUIRED

### 7.A. [ETS-R-0020-25](#)

Resolution to amend and approve Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System). (PAC Recommendation to approve as amended: 4 Ayes, 1 Nays, 1 Absent)

Member Burmeister made a motion to recommend approval to the ETS Board, seconded by Member Jansen. Chair Selvik opened the item for discussion.

Vice Chair Clark asked how the list of talk groups would serve as guidance and who would use it. Ms. Zerwin explained that the policy changes were based on recommendations from focus groups to allow more talk groups to be accessible outside the system. She said the chart would provide guidance for everyone, including the PAC, agencies, and users putting together static 205s. She confirmed that the process for outside agencies requesting access would remain the same, with PAC reviewing requests and making recommendations to the Board. She added that the policy would allow the ETSB Executive Director to authorize use of a talk group in urgent situations, which would later be affirmed through PAC and the ETS Board. Chair Selvik said he agreed, especially from the police side, that it made sense not to wait for the next PAC meeting for urgent operational decisions.

Vice Chair Clark said there was a section about equipment that was unclear. He said many outside agencies already used Starcom equipment and asked if the policy required Time Division Multiple Access (TDMA) radios. Ms. Zerwin said the application asks if radios are TDMA and have Advanced Encryption Standard (AES) encryption, and said agencies need to show Starcom membership. She said not all Starcom members have TDMA radios. Vice Chair Clark said it was important to have fewer Frequency Division Multiple Access (FDMA) units to avoid clogging up the system. Ms. Zerwin said some radios, like DEDIR System fire radios, were not TDMA yet.

Member Benjamin asked whether the language of the actual policy was brought to focus groups. Ms. Zerwin said they did not directly discuss policy in focus groups preferring to discuss concepts instead and incorporate feedback at the PAC level. Member Benjamin said he was concerned about not being an expert on how the policies interact with technology and had counted on focus groups for that input.

Vice Chair Clark asked if they needed to approve the policy soon or incorporate changes first. Chair Selvik said sooner would be better since focus groups were not the right setting for reviewing policies. He added that they could always bring it back and fix issues later.

Member Benjamin asked about the purpose of focus groups if they could not discuss policy. Chair Selvik said they were operational, focused on talk groups, templates, and encryption. Member Benjamin questioned how deciding who gets keys was not a policy decision. Ms. Zerwin and Chair Selvik said it was operational. Vice Chair Clark said focus groups provide operational guidance for policy but do not make it. During the discussion, Chair Selvik suggested Member Benjamin ask Eric Maplethorpe to weigh in. Mr. Maplethorpe said he did not want to comment at that time and recommended talking to Member Benjamin privately about the operational aspects for PSAP personnel.

Member Benjamin said his agency does not monitor the DUCALL talk group and their room is too busy during major incidents to expect telecommunicators to monitor and patch themselves. Ms. Zerwin said the DUCALL language had been in the policy since December 2023, she said it was concerning that a policy in place since December 2023 had been ignored. Ms. Zerwin said tabling the policy would not remove the DUCALL language from the current policy. Vice Chair Clark said he preferred to move forward with the changes they had discussed and address additional amendments later, rather than holding up improvements to sharing talk groups. Member Benjamin maintained his motion to table because he had not had time to review thoroughly.

Chair Selvik called for a roll call vote on the motion to recommend approval to the ETS Board as discussed and amended. On roll call with four "Ayes" and one "Nay" to recommend approval to the ETS Board, motion carried. Member Benjamin expressed appreciation for the discussion, and Chair Selvik thanked everyone for their comments and indicated willingness to entertain further concerns in the future.

7.B.     [ETS-R-0021-25](#)

Resolution to repeal Policy 911-005.3: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) Encrypted Talk Groups. (PAC Recommendation to repeal: 5 Ayes, 0 Nays, 1 Absent)

Member Benjamin made a motion to recommend approval to the ETS Board, seconded by Vice Chair Clark. Chair Selvik opened the item for discussion.

Ms. Zerwin said repealing this policy was necessary because encryption was now incorporated into Policy 911-005.2.

On voice vote, all Members voted “Aye” to recommend approval to the ETS Board, motion carried.

7.C.     [ETS-R-0022-25](#)

Resolution to amend and approve Policy 911-005.9: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) Non-Public Safety Schools. (PAC Recommendation to approve as amended: 5 Ayes, 0 Nays, 1 Absent)

Member Burmeister made a motion to recommend approval to the ETS Board, seconded by Member Benjamin. Chair Selvik opened the item for discussion.

Vice Chair Clark said there were concerns about the language encouraging schools to hire retired police officers for security. He said he was unsure if the ETS Board should be involved in employment decisions and said that recommendation seemed outside their role. Chair Selvik said there could be value in having radio users familiar with proper etiquette to avoid unnecessary radio traffic, but he agreed they should not dictate employment choices. He said it might be better to require some level of radio understanding instead.

Vice Chair Clark said that the required training should cover radio use and said it seemed odd to imply only retired police officers had that knowledge. He said the training was simple and questioned why the policy focused on this point. He also said there were concerns about language recommending schools install a BDA (Bi-Directional Antenna) for building coverage, saying it was a complex technical issue and questioned if the ETS Board should regulate it. Chair Selvik said they could amend the language to make clear that providing coverage was the school's responsibility, not ETS Board's. Ms. Zerwin said the policy already stated the ETS Board was not responsible for coverage issues. Vice Chair Clark said that language might be enough, and Ms. Zerwin said the policy was written to help schools understand coverage limitations and possible solutions, like using FirstNet for LTE coverage.

Ms. Zerwin said another issue was whether to update the policy to define a retired police officer as someone with 10 or 15 years of service. Member Benjamin said that current law used 10 years, and Chair Selvik agreed that was correct and supported changing the policy language to 10 years. Chief Selvik said the motion should be to recommend approval to the ETS Board as amended. Vice Chair Clark said yes.

On voice vote, all Members voted "Aye" to recommend approval to the ETS Board as amended, motion carried.

7.D.     [ETS-R-0023-25](#)

Resolution to amend and approve Policy 911-005.10: Metropolitan Emergency Response and Investigation Team (MERIT) Designated Talk Groups. (PAC Recommendation to approve as amended: 5 Ayes, 0 Nays, 1 Absent)

Vice Chair Clark made a motion to recommend approval to the ETS Board, seconded by Member Burmeister. Chief Selvik opened the item for discussion.

Ms. Zerwin said the changes were mostly cleanup, like updating naming conventions and

removing things not relevant to the statute. She said they could also consider removing references to interoperability if needed. Member Benjamin said he did not have a strong opinion about interoperability but said he was concerned about patching higher encryption to lower and said he preferred to remove the DUCALL line from the policy. Ms. Zerwin said DUCALL was related to hailing channels but agreed it could be removed since it did not really affect the merit policy. Chief Selvik said he agreed. Member Benjamin said just to remove the DUCALL line. Chief Selvik confirmed and asked if there was any further discussion. Ms. Zerwin confirmed Vice Chair Clark had made the motion, and Chief Selvik said they were good to go. Vice Chair Clark said yes.

On voice vote, all Members voted “Aye” to recommend approval to the ETS Board as amended, motion carried.

Resolution to amend and approve Policy 911-005.12: Flash Message Talk Group. (PAC Recommendation to approve as amended: 5 Ayes, 0 Nays, 1 Absent)

Member Burmeister made a motion to recommend approval to the ETS Board, seconded by Member Jansen. Chief Selvik opened the item for discussion.

Ms. Zerwin said this change was just a little bit of cleanup, adding the new naming convention and adjacent agencies for flash. Chief Selvik said it seemed to make sense and asked if there were any questions.

On voice vote, all Members voted “Aye” to recommend approval to the ETS Board, motion carried.

Resolution to approve access to the DuPage Emergency Dispatch Interoperable Radio System talk groups pursuant to Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System), and 911-005.9: Access to DEDIR System Non-Public Safety / School Security, as requested by Lake Park High

School District 108. (PAC Recommendation to approve: 5 Ayes, 0 Nays, 1 Absent)

Member Benjamin made a motion to recommend approval to the ETS Board, seconded by Member Burmeister. Chief Selvik opened the item for discussion.

Vice Chair Clark said the policy should reference Policy 911-005.9 since it involved a school. Ms. Zerwin said the initial Policy 911-005.2 was the parent policy and they could amend the resolution. She explained the district had completed paperwork for both current and amended policies. She said the school had done both forms and needed both for compliance.

On voice vote, all Members voted “Aye” to recommend approval to the ETS Board, motion carried.

## 8. DEDIR SYSTEM

### 8.A. [25-1225](#)

May DEDIR System Update

Ms. Zerwin said they were down to three radios left for firmware update, naming Bensenville PD, Lombard PD, and Bartlett PD. Ms. Zerwin said she was down to four encryption keys. She said most agencies had filled out the new MOU forms and said most would just re-execute. Chief Selvik said the Police Focus Group met, updated all the templates, and took care of any pending issues. Vice Chair Clark said the Fire Focus Group met and said they pushed out the proposed template to some test radios. He said members were testing the template, especially for outside agencies, to ensure everything worked.

### RESOLUTION TO APPROVE POLICY 911-005.2: ACCESS TO THE DU PAGE EMERGENCY DISPATCH INTEROPERABLE RADIO SYSTEM (DEDIR SYSTEM)

WHEREAS, the DuPage County Emergency Telephone System Board ("DU PAGE ETSB") is an emergency telephone system board, established pursuant to Section 15.4 of the Local Government Emergency Telephone System Act, 50 ILCS 750/15.4 ("Act"); and

WHEREAS, the DU PAGE ETSB is authorized and empowered, pursuant to Section 15.4 (b) of the Act to plan, implement, upgrade, and maintain an Emergency 9-1-1 System for citizens of the County of DuPage and portions of Cook, Kane and Will counties; and

WHEREAS, the DU PAGE ETSB shall develop policies in order to plan, implement, upgrade, and maintain the DuPage ETSB 9-1-1 System; and

WHEREAS, the purpose of this resolution is to approve the language of Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System), initially adopted by the DU PAGE ETSB on May 7, 2013, and amended on April 10, 2018, December 13, 2023, and on May 14, 2025; and

WHEREAS, Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) has been reviewed by the DU PAGE ETSB Policy Advisory Committee ("PAC") as Section 5.3.B.; and

WHEREAS, the Board members of DU PAGE ETSB have reviewed Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) which allows for access to DEDIRS talk groups as detailed in Attachment A of this resolution.

NOW, THEREFORE BE IT RESOLVED, that the DU PAGE ETSB Policy 911-005.2: Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System), be, and it is hereby adopted.

Enacted and approved this 11th day of June, 2025 at Wheaton, Illinois.

# Emergency Telephone System Board Of DuPage County Policy and Procedures

Policy #: 911-005.2

Previous Policy(s): 8.0.2, 8.0.3, 8.0.4, 8.0.5

Effective Date: May 7, 2013

Revised: April 10, 2018, December 13, 2023, May 14, 2025, June 11, 2025

---

## Access to the DuPage Emergency Dispatch Interoperable Radio System (DEDIR System)

---

### Purpose:

The purpose of this policy is to ensure compliance with State of Illinois STARCOM21 and DEDIR System requirements for use and access of DEDIR System talk groups for the purpose of interoperability for emergency communications.

### Goal:

It is the goal of the Emergency Telephone System Board of DuPage County (DuPage ETSB) to provide one seamless method of interoperable communication for use by agencies on DuPage Emergency Dispatch Interoperable Radio System (DEDIR System) or for non-member agencies for the delivery of the 9-1-1 dispatch.

### Scope:

This policy shall apply to all Public Safety Answering Points (PSAPs) in the DuPage ETSB 9-1-1 System, including all Telecommunicators and other employees of the PSAP, user agencies or DuPage ETSB staff, contracted vendors or other authorized agents, DEDIR System users and agencies receiving approval to access DEDIR System talk groups.

---

## I. Policy Statement

DuPage ETSB leases a portion of the Motorola Solutions, Inc. STARCOM21 network in Illinois as an integrated component of its emergency dispatch telephone system. The system permits communication between telecommunicators and the first responding personnel they dispatch in response to calls placed to 9-1-1. The system also permits personnel from public safety agencies throughout the County to communicate with each other during emergency joint response situations.

The Policy Advisory Committee has determined which talk groups within the DEDIR System will be available for access by DEDIR System members based on assignment and for non-DEDIR System members based on policy and desired interoperability in various emergency communication scenarios. A guidance chart incorporated as 911-005.2 DEDIR System Talk Group Chart shows the current talk group name and the planned talk group name. The chart also shows which talk groups are available for access.

The PAC will review the use of the talk groups annually and determine if there should be any changes made to the chart. The PAC has the authority to make changes to the chart for operational purposes without bringing the chart to the ETS Board so long as there is a majority vote for the changes. If there is not a majority vote carried, the changes will be brought to the ETS Board. Changes can include eliminating and combining talk groups for lack of use or consolidation. An increase in talk groups must be approved by STARCOM and the ETS Board.

# Emergency Telephone System Board Of DuPage County Policy and Procedures

## II. InterOp Talk Groups

DEDIR System will maintain nine (9) multi-use talk groups for the purpose of interoperability with outside agencies who meet the access requirements, herein referred to as "InterOp Talk Groups." This designation of "InterOP Talk Groups" will be changed at a time to be determined by the PAC in 2025 and will thenceforth be referred to as *DUINOP* talk groups. The first eight talk groups within the InterOp will be labeled InterOp 1 through 8 for operational use. The ninth talk group will be labeled DUCALL. This talk group will be monitored by ACDC for radio traffic from adjacent agencies requesting access to DEDIR System requests made to ACDC agencies for interoperability with ACDC talk groups. Outside agencies will also be provided 10-digit dial telephone numbers for both PSAPs as a form of communication for such requests. ACDC will also utilize DUCALL as a point-to-point channel between DEDIR System and non-DEDIR System PSAPs.

The InterOp Talk Groups will be patched by PSAP staff during an event in which interoperability is required. Once the event is completed, the patch will be disabled by the PSAP Telecommunicator and staff.

## III. Application Procedure

Any agency that determines it has a need to communicate with an existing DEDIR System member for public safety purposes may apply to DuPage ETSB for use of InterOp (or *DUINOP* once that name change has been accomplished) Talk Groups 1-8. DUCALL will be a "hailing talk group" that can be monitored by ACDC for requests for interoperability with ACDC agencies only on ACDC talk groups. Generally, ACDC will utilize InterOp (or *DUINOP*) 1-4 and DU-COMM will utilize InterOp (or *DUINOP*) 5-8. Agencies requesting patching with DU-COMM will utilize the 10-digit dial telephone number provided to make contact with DU-COMM during the event to request interoperability with DU-COMM agencies only for patching to an InterOp (or *DUINOP*) talk group utilized by DU-COMM.

InterOp (or *DUINOP*) talk groups 2, 4, 6, and 8 will be AES encrypted and InterOp (or *DUINOP*) talk Groups 1, 3, 5, and 7 will be clear for the purposes of interoperability with requesting agencies that do not have AES encryption.

### 911-005.12: Flash Message Talk Group (DPSOTAC5 or DUP FLASH)

Agencies making an application for DEDIR System talk groups may also have access to the Flash message talk group, if they are an adjacent/border agency. This Applicants will be subject to the conditions of 911-005.2 and 911-005.12.

### Special Use:

911-005.10 MERIT Talk Groups. Applicants who become members of MERIT qualify for access to MERIT talk groups under this policy and will complete the access paperwork for grade of service (GoS) and record keeping. This Applicants will be subject to the conditions of 911-005.2 and 911-005.10.

911-005.9 Access to DEDIR System School Safety. Applicants who qualify for access under this policy will complete the access paperwork for GoS and appropriate approval. These Applicants will be subject to the conditions of 911-005.2 and 911-005.9.

# Emergency Telephone System Board Of DuPage County Policy and Procedures

The PAC and DuPage ETSB will consider applications for specific operational talk groups on a case-by-case basis for adjacent agencies that are non-DEDIR System Members that have daily operational assignments with DEDIRS users (mutual aid, auto aid, task force assignments etc.).

The PAC and DuPage ETSB will consider applications for specific operational talk groups on a case-by-case basis for adjacent agencies that are non-DEDIR System Members based on the DEDIR System member's Static 205 plan and the use of talk groups in that plan to promote successful communicate in an active incident. Sponsors of an Applicant should provide or make available the 205 plan for the PAC during the review process.

## Applicant Responsibilities

Application: The applicant must make application to the ETSB and supply the following documents with the application:

1. A completed DuPage ETSB DEDIR System Access Application, including the confidentiality agreement;
2. Obtain a sponsoring member signature from a DEDIR System agency;
3. A completed and executed DuPage Emergency Dispatch Interoperable Radio System Access Talk Group Agreement;
4. Proof of STARCOM21 Membership;
5. The ETSB and DEDIR System sponsoring agency will ensure that the applicant has access to DEDIR System rules and policies and completes relevant DEDIRS training.

The Applicant understands and accepts that any fees or cost incurred will be the responsibility of the Applicant.

The Applicant will agree to provide access to STARCOM21 talk groups to DEDIR System members which the Applicant currently has direct access for the purpose of interoperability for mutual aid and emergency communications and according to their own policies. Such access will be reviewed by the PAC for use and distribution.

The rights of the Applicant and the ability to utilize the DEDIR System will rest with the Applicant and DuPage ETSB and is neither transferable nor can it be expanded upon without a written modification request to the Policy Advisory Committee (PAC).

The Applicant will have authority to program only the talk groups approved by ETSB on its own subscriber units. The Applicant may not program any other DEDIR System member's subscriber units owned by DuPage ETSB. The Applicant may not program any other STARCOM21 user subscriber unit with DEDIR System talk groups, unless a contractual arrangement is in place between the Applicant and the third party and the third party has DuPage ETSB's permission to use certain talk groups.

The Applicant shall train their agency members on any ETSB policies and training pertinent to access of use of DEDIR System.

# Emergency Telephone System Board Of DuPage County Policy and Procedures

## DuPage ETSB Responsibilities

Before an Applicant is approved for use of any DEDIR System talk groups, all member police and fire agencies shall be notified with a fourteen (14) day notification window. The process of notification will be outlined below.

Only subscriber units and accessories which the ETSB has previously authorized for such use on the DEDIR System may be utilized on the system. Those subscriber units or accessories or information may be obtained from the ETSB or from an ETSB authorized radio vendor.

The ETSB, or its authorized vendor, shall provide the hexadecimal ID and program all subscriber units authorized to operate on the DEDIR System. The Applicant shall supply the serial number, radio identification number, and STARCOM21 identifier to the ETSB prior to the radio becoming operational on DEDIR System.

DuPage ETSB and/or Motorola may disable a subscriber unit or units at any time with or without notice to the requesting agency. DuPage ETSB may disable any subscriber unit or units which adversely impact the performance of the DEDIRS or suspend or revoke the agreement with the Applicant if, in DuPage ETSB's opinion, the Applicant's continued usage on DEDIRS adversely impacts the system or safety of the public safety personnel.

## Application Process

The application shall be processed as follows:

- The application, sponsor signature, proof of STARCOM21 membership shall be submitted to DuPage ETSB at the following electronic mail address: [ETSB911@dupagecounty.gov](mailto:ETSB911@dupagecounty.gov)
- DuPage ETSB staff shall review the application with the ETSB-approved radio vendor to assess the type of equipment the Applicant proposes to use with DEDIR System, its load potential on the system, and other technical items associated with the application, including the code plug development. The approved vendor will provide a recommendation whether to approve or deny the application based solely on operational issues. If the vendor believes that the application should be denied, the vendor shall provide a brief written explanation for PAC and ETS Board consideration.
- DuPage ETSB staff will post the application on Monday.com which will start the fourteen (14) day notification window for member review.
- If there are no objections or if there are any objections to the application or recommendations within fourteen (14) days of receipt of the application, the objection, comment or recommendation must be uploaded to Monday.com within the allotted fourteen (14) calendar days. A nonresponse shall be deemed an affirmation of the application.
- DuPage ETSB staff shall prepare the application paperwork for the next PAC and ETS Board agendas.

The PAC shall review any application for access. During that review process the PAC shall:

- Ensure that all associated paperwork is complete;
- Hear a report from DuPage ETSB staff and maintainer on the status of the fourteen (14) day notification, approvals/objections/recommendations from members and vendor

# Emergency Telephone System Board Of DuPage County Policy and Procedures

- recommendations for the application; and
- Discuss the application and vote to make a recommendation to the ETS Board to either approve or deny the application and forward the application and recommendation to the ETS Board for its next regular meeting.

PAC may recommend approval of the application pending the completion of the 14 day notification period if an objection has not been filed. If an objection has been filed, PAC will address the objection and forward their recommendation to the ETS Board.

In the event the PAC recommends denial of the application, the application and brief written explanation by the PAC Chair, or their designee, shall be forwarded to the ETS Board for their information and discussion. In the event the PAC cannot reach a consensus vote, that fact shall be reported to the ETS Board in writing for their information and discussion.

The ETS Board may approve the application pending completion of the 14 notification period if no objection has been filed. If there is an objection within the fourteen (14) day period, the application shall be sent back to PAC for review of the objection and further recommendation to the ETS Board.

## Application Modification

An approved application is not a blanket permission for any Applicant to expand its own fleet in the future. If an Applicant acquires additional subscriber units and desires interoperability for the new units, the Applicant must request authorization to expand the number of subscriber units utilizing the InterOp (or *DUINOP*) Talk Groups beyond Applicant's initial application. If additional subscriber units are added without prior approval, DuPage ETSB has the right to disable the unit without notice. ETSB will make reasonable attempts to notify the Applicant of units disabled pursuant to this policy but is under no obligation to do so.

An application modification must be submitted to PAC. The Applicant should submit a Form A and check modification to ETSB staff. The PAC shall have the authority to allow additional units without bringing the modification to the ETS Board so long as the additions do not impact DEDIR System functionality and the application is approved.

Each Applicant will be responsible for those fees incurred on its behalf. All subscriber fees charged by Motorola for an Applicant's radio maintenance or operations are the responsibility of the Applicant. The PAC, DuPage ETSB, or any of its member agencies are not responsible for any equipment or losses directly or indirectly associated with this system or agreement.

## IV. Implementation

The Applicant will be notified of the DuPage ETS Board's final decision. If approved, the Applicant may then proceed to program its subscriber units with Access Talk Groups and access to other talk groups, as specified by the ETSB.

# Emergency Telephone System Board Of DuPage County Policy and Procedures

The Executive Director is authorized to make amendments to the Access Application and Confidentiality Agreement so long as the amendments do not alter the substance of the attached Agreement.

The Executive Director is authorized to sign MOUs for access agreements on behalf of the Chair so long as the request is within the policy of the ETSB and furthers the interoperability of the DEDIR System. New agreements and changes will be reported in the monthly report and affirmed by ETS Board resolution.

Policy adopted: June 11, 2025

---

Greg Schwarze, Chair

## DuPage ETSB DEDIR System Access Application

DUPAGE ETSB  
CONFIDENTIALITY AGREEMENT FOR USE ON  
DU PAGE EMERGENCY DISPATCH INTEROPERABLE RADIO SYSTEM (DEDIR SYSTEM)  
ON STARCOM 21

As the authorized agent of this agency, I certify that any members of the applicant agency have been:

1. Understand the confidentiality of information that they may learn or have access to over encrypted talk groups of the DEDIR System which is of personal, safety-sensitive or otherwise confidential in nature. Such information includes, but is not limited to incident report information, NCIC/LEADS information, Computer Aided Dispatch/RMS information, and other law enforcement or police related information.
2. Trained that the restrictions of the Confidentiality Agreement regarding disclosure and use of information gained using the DEDIR System shall continue to apply after termination of this relationship with the DEDIR System.
3. Understand that they are prohibited from using any of this information for personal use or benefit or for any other non-Police/public safety business related purposes.
4. Understand that the failure to comply with the confidentiality requirement set forth in this Confidentiality Agreement is actionable, up to and including termination of access to encrypted talk groups.

I have read and understand the access agreement and attest that the members of this agency have been trained and understand they must comply with it in every respect. A list of employees who are party to this agreement is attached to this application.

## Emergency Telephone System Board Of DuPage County

---

### **DuPage Emergency Dispatch Interoperable Radio System (DEDIR System)**

#### **CommandCentral Aware**

On the May 20 Podcast, Motorola gave a presentation on Command Central Aware. Agencies that are interested in learning more or in purchasing a license, should submit a Zendesk ticket.

#### **APXNext Firmware Updates – Multi- Chargers**

Now that the multi-chargers have been updated, ETSB will be seeking performance feedback.

#### **APXNext Firmware Updates: Police Only**

Firmware Update APXNext/Police: Of the 274 radios from the March report there are 2 police radios that have not completed the firmware updates. Those agencies have not been able to locate those radios. The migration to the new platform has been completed.

Bensenville BAP JENKINS and Bartlett BEP CARRERA

#### **Agency Owned/Legacy Radios in the System For Encryption**

On the May 20 Podcast there was a last call for any agency owned radios. In order for the encryption plan to work, all radios on the system need to be accounted for. This includes any agency purchased radios. ETSB pays for airtime for radios that are allowable under surcharge. Examples: EOC radios, Command Bus Vehicles, MERIT Vehicles.

### **PAC DEDIR System Monthly Summary**

#### **Motorola Wednesday Morning Status Call – May 7, 2025**

##### **AXS Console Installation Complete**

At the end of the day on 5/7 there were a total of 25 consoles fully installed at DU-COMM. Due to Motopatching occurring at the end of next week (week of 5/12) ChiComm and Motorola is pushing to get the remaining consoles prior to the Motopatch taking place and installation needing to be postponed. Once all consoles are installed Motorola will schedule the Acceptance Testing for the consoles at DU-COMM. At the end of the day on 5/13 ChiComm completed AXS Console Installation at DU-COMM

#### **DFSI**

Currently Motorola is continuing to work with the Motorola Lab and ABeep to configure Tait base stations and Motorola equipment. Dave Gossage from ABeep will be at the lab this week for additional testing and then we are working to schedule a Tait representative to come to the lab to assist in further testing.

#### **Encryption**

Motorola has gathered enough information at this time to start the recommendation write up. Motorola Field Engineer Matt Downer, and Managers Steve Fiedler and Pete Bach are collaborating to create documentation. Once completed a meeting with DuPage ETSB will be scheduled to discuss. The last key to collect is Hodgkins and will be collected the week of May 26.

**Motorola Wednesday Morning Status Call May 14, 2025 - no call ETSB Board meeting.**

## Emergency Telephone System Board Of DuPage County

---

### **Motorola Wednesday Morning Status Call – May 21, 2025**

#### **AXS**

All consoles have been installed at both centers. There are some audio issues at a couple of the positions at each center that we are working with our field engineers and FSO to get resolved. Once they have been addressed, we will conduct Acceptance Testing.

#### **DFSI**

We have been working with Dave Gossage from ABeep on configuring the Tait equipment to work with the Motorola DFSI equipment. We are about 80% complete on addressing the needs for ACDC. There are still some issues with regards to the Purvis system integrating with the DFSI, but we are working with Dave G and Tait as it is an issue with the Tait equipment. We will continue to work with Dave, Jim Connolly and ACDC to implement this solution.

#### **Encryption**

Matt Downer has completed his write up and we are converting this into a presentation to give to DuPage County. A meeting invitation will be sent as soon as this is prepared.

### **Motorola Wednesday Morning Status Call – May 28, 2025**

#### **AXS**

All consoles are installed at both dispatch centers. DU-COMM has been having auto-mute issues at one of the positions and some minor items popping up. We have Matt Downer and Ted Romanansky on site to troubleshoot and hopefully resolve. At the current time no solution has been found, but we will continue to look. Additionally, there has been a logging out issue at ACDC. We are working that issue as well and Ted Romananski with our FSO is leading that currently.

#### **DFSI**

All work in the lab has been complete and I spoke with Dave Gossage this morning about the status. The base stations are now able to communicate with the DFSI equipment and programming has been resolved there. We are still waiting to see if Tait will have a solution that will allow Purvis to utilize the DFSI, but at this time according to Dave and the conversation he had with Jim Connolly, we are ready to move forward with implementing the solution at ACDC. From the Motorola side, we are waiting for our engineer Matt Cragg to finish his networking design so we are good from a design perspective on our side. More information to come and scheduling.

#### **Encryption**

Matt Downer has his write up complete. He and I are currently converting it into a presentable document that we can provide to DuPage. We will schedule that meeting in the near future.

### **Radio Alias List and Templates Updates March 2025**

The March 2025 update outlines the progress in gathering essential documents from agencies, including Alias Lists, template selections, and sign-off memos. This overview captures the ongoing collaboration and systematic efforts to ensure all submissions align with the required standards. The following data provides a detailed breakdown of the current stages and distribution within the collection process.

## Emergency Telephone System Board Of DuPage County

---

### Documents Submission Status as of May 28

|                            |           |
|----------------------------|-----------|
| Awaiting Template Review   | 5         |
| Pending Sign Off Memo      | 1         |
| Ready for configuration    | 2         |
| Configuration Completed    | 19        |
| Waiting on Agency Response | 2         |
| <b>Total Agencies</b>      | <b>29</b> |

### Template Selection

|   |           |
|---|-----------|
| Pending Selection                       | 1         |
| Option 1 Current Template No HZ         | 1         |
| Option 2 with HZ in Selectable Channels | 6         |
| Option 2 NO HZ in Selectable Channels   | 21        |
| <b>Total</b>                            | <b>29</b> |

### Encryption KVL update: **Complete**

ETSB finished collecting all keys for the KVL. ETSB received an email from Oaklawn dispatch on behalf of the Hodgkins Police Department on May 29, 2025. The email said that they have elected to not continue interoperability at this time. ETSB will move forward with the encryption project leaving space for this key. Fire Chief Argast has indicated he will reach out to Chief Carrasquillo for further discussions.
