Subject: Funding for Forensic Genetic Genealogy Testing

Comment:

Lorraine Bieze, was a 21 year-old mother who was raped and murdered August 31, 1982. The body of Lorraine was found near Pratt Wayne Woods (District 6) and has been under the investigative responsibility of the DuPage County Sheriff Police.

The recovered DNA from the murder scene was last reviewed in 2013. We are

pleased that the Sheriff has reopened the case and is reviewing the DNA within the framework of new technology that may include locating a suspect using newly developed science such as Forensic Genetic Genealogy.

I am asking that the Judicial and Public Safety Committee, specifically elected representatives Jim Zay and Greg Schwarze fully support fully funding expanded forensic testing that could solve this long unsolved Cold Case.
