Grant Proposal Notification

1. Justify the department’s need for this grant.

The prevalence of brain injury among justice-involved individuals is staggering, to the point where the CDC identifies it as an important public health problem. The incidence of Traumatic Brain Injury (TBI) history is as high as 82% in this population. Research indicates those with TBI have a higher number of prior arrests, increases risk of recidivism and increases vulnerability to substance use disorder, mental illness, violent victimization and suicide attempts. Veterans experience higher rates of justice involvement and brain injury compared to civilians. More than 2.5 million veterans serving post 9/11 have sustained a TBI. With this grant, DuPage County Veterans Treatment Court will partner with the National Association of Head Injury Administrators to improve outcomes for veterans and other probationers with brain injury through the development of a brain injury informed workforce and the implementation of systematic screening, support and referral protocol.

2. Based on the County’s Strategic Plan, which strategic imperative(s) correlate with funding opportunity. Provide a brief explanation.

1. Quality of Life 3. Excellence in Customer Service 6. Diversity and Inclusion
1.1.1; 1.2.1; 1.2.3; 3.1; 6.1- With this grant we will assist those with TBI to lead fuller and more productive lives. We will screen, assess and identify those who have suffered a TBI and link them to appropriate evidence-based resources in their natural communities. We will increase the quality of life for our Veterans Court participants by creating an Online Brain Injury Screening and Support System, increasing access to trained behavioral health providers and addressing their individualized needs. By focusing on these aspects we expect to enhance neighborhood safety by increasing participant's ties to their communities and minimizing future court involvement. By receiving this grant, we will be providing direct services to a diverse and often over-looked segment of the population.
