DEDIR System February Maintainer Report

Ms. Zerwin referenced page 12 of the packet in the Motorola System Manager Report that talks about firmware releases. She outlined Mr. Saucedo's recommendation to update the firmware in April when Motorola does a cumulative release, noting there is nothing within the smaller releases that needs to be addressed now. With a project plan and updated training slides in place for the agencies, the April update would be more efficient and less impactful to the system and users.

On voice vote, all Members voted "Aye", motion carried.

7.A.2. HB4339 Update

Chair Dina asked Member Rivas if the police chiefs had discussed this item. Member Rivas replied yes, that they have been watching the item but it does not seem there is action to be taken at this time. Ms. Zerwin said she spoke to the State Police liaison and the County lobbyist and that HB4339 is status quo in Executive Committee as of last week Friday.

7.B. **Fire**

7.B.1. NFPA Update

Chair Dina said the NFPA Committee would be meeting later this afternoon and that Mr. Connolly and Mr. Sullivan will be attending the meeting to discuss the proposed changes as shown in the following Sections:

11.2.1.2: The minimum volume of the RF device in the hazard zone mode shall be configurable by the AHJ (Authority Having Jurisdiction), but not more than 53 dB, +0/-6 dB, below the sound pressure level (SPL) as specified in 11.4.2.

11.2.2: All RF devices shall have the capability to enable the nonhazard zone mode via programmable switch activation, long press of a button, voice command, or by being programmed to a channel talkgroup or talk path.

The elimination of, excluding any sub-sections, Section 11.2.3: When initially powered on, the RF device shall default to the hazard zone mode.

11.12.2.2.3.1: The RF device shall attempt to repeat overridden announcements a minimum of one time.

11.17.2: The following functions shall be tested in self-check:

(1) RSM connectivity to the RF device

(2) Loss of antenna connection to the RF device

(3) Temperature exposure over manufacturer recommended overheat temperature

The elimination of (4) Battery with at least 50 percent of the total capacity available (power-up only)

New Section 11.17.4: On power up the RF device shall by default voice announce the battery level percentage or the battery level range (high, medium, low, critical) consistent with 11.1.4.2.

New Section 11.17.5: The RF device shall support the ability to voice announce the battery level thresholds as defined in 11.1.4.2.

8. OLD BUSINESS

Ms. Zerwin reminded Members Benjamin, Johl and Rivas that their PAC appointments expire May 12 and that their respective agencies should be submitting a letter of nomination to renew their appointments on the April ETS Board agenda. Member Benjamin asked to whom the letters should be addressed. Ms. Zerwin said they would be addressed to the Chair and that the ETSB office be copied for administrative purposes.

9. NEW BUSINESS

Chair Dina asked if the PAC should develop a policy or a plan in place for when the current radios become end of life or end of support and need to be replaced. Discussion ensued on the benefits of working on policy now to plan for the future in order to maintain interoperability and what the policy might look like.

10. ADJOURNMENT**10.A. Next Meeting: Monday, April 1 at 8:15am in Room 3-500A**

This chart is a portion of the state-wide report pertaining to the site used by DEDIR System. The state-wide report has complete data with the exception of perhaps a day or two during some of the timeframes when the core upgrade was being performed on Zone 1. Zone 2 did have a connection issue from the upgrade, which caused a couple days of outage, which has been resolved as well. In terms of the data for the month of February, there was a total of 14 sites that had higher than average busy rates for the month which is less than the previous month's total. The areas affected are still in the Northwest portion of the state along with the Southern portion of the state. Motorola is still working with the state to resolve these issues. Some of these issues should be resolved here with the work that has been done in the Northwest and one of the sites in the South in the month of March.
