RE: Sourcing Information for CA Technologies Products

Dear Ms. Thompson,

CA, Inc. (CA) is the owner or licensee of the proprietary mainframe and distributed software products indicated below. While the products and technical support/maintenance may be purchased from CA or its authorized resellers, new releases and enhancements for the products are developed exclusively by CA employees, its licensors and contractors. Only CA employees, its licensors and contractors have access to the source code of these proprietary products (other than typical industry source code escrow arrangements). Typically, resellers do not have access to the CA source code.
