ZHO Recommendation to Approve

FINDINGS OF FACT:

- A. That petitioner testified that the subject zoning relief is for a Conditional Use for an existing pond to be located less than 10 feet from the rear property line (approximately 2 feet), where the pond has existed for at least 5 years.
- B. That petitioner testified that the subject pond has existed on the subject property for approximately thirty (30) years.
- C. That petitioner testified that the pond is approximately two (2) feet in depth and includes a small bridge, as well as electrical service to operate an aerator and filtration system for water circulation.
- D. That petitioner testified that the rear yard is enclosed by a six (6) foot tall fence with a locked gate, restricting access to the pond area.
- E. That petitioner testified that generalized flooding has occurred in rear yards throughout the neighborhood in recent years; however, because the pond has existed for over twenty-five (25) years, it is not the cause of the reported flooding.
- F. That the Zoning Hearing Officer finds that the Petitioner has presented sufficient evidence to satisfy the Standards for a Conditional Use to allow the existing pond to remain located less than ten (10) feet

from the rear property line (approximately two (2) feet). The Zoning Hearing Officer further finds that the pond does not adversely impact adjacent properties or roadways, does not negatively affect drainage patterns in the area, and does not impede adequate light or ventilation to the subject property or neighboring properties.

STANDARDS FOR CONDITIONAL USES:

1. That the Zoning Hearing Officer finds that petitioner **has demonstrated** that the granting of the Conditional Use is in harmony with the general purpose and intent of the Zoning Ordinance, and will not be injurious to the neighborhood, detrimental to the public welfare, or in conflict with the County's comprehensive plan for development; and specifically, that the granting of the Conditional Use will not:
 - a. Impair an adequate supply of light and air to the adjacent property as petitioner **has demonstrated** that the existing pond is located at ground level and does not impact or impair the supply of light and air to adjacent properties.
 - b. Increase the hazard from fire or other dangers to said property as petitioner **has demonstrated** that they will receive a building permit from the County for the existing pond.
 - c. Diminish the value of land and buildings throughout the County as petitioner **has demonstrated** that the existing pond does not diminish the value of land throughout the County.
 - d. Unduly increase traffic congestion in the public streets and highways as petitioner **has demonstrated** that the existing pond is located behind the front wall of the home and does not impact traffic congestion in the public streets and highways.
 - e. Increase the potential for flood damages to adjacent property as petitioner **has demonstrated** that the existing pond has not increased the potential for flood damages to the adjacent property.
 - f. Incur additional public expense for flood protection, rescue or relief as petitioner **has demonstrated** that the existing pond does not incur additional public expense for flood protection, rescue, or relief.
 - g. Otherwise impair the public health, safety, comfort, morals, or general welfare of the inhabitants of DuPage County as petitioner **has demonstrated** that the existing pond does not have any impact on adjacent properties and roadways, does not impact on drainage, and does not impede ventilation and light to the subject property or adjacent properties.
