

Emergency Telephone System Board Of DuPage County Policy and Procedures

Appendix G: Network Systems Access Request Form

TO: Emergency Telephone System Board 9-1-1 System Manager
FROM:
SUBJECT: Interface Request Form

Type of Interface (select one)

☒ Real Time Interface
The current CAD system utilizes <i>Edge Frontier (Xalt Interface)</i> , which is designed to handle these types of interfaces. <i>Edge Frontier (Xalt Interface)</i> allows the applications to receive information without impacting the security and performance of the 9-1-1 System. An <i>Edge Frontier (Xalt Interface)</i> interface would be developed and maintained by Hexagon for all non-9-1-1 interfaces at the cost of the requesting agency.
☐ Other 9-1-1 System Component
This will require development and maintenance by a vendor for all non-ETSB 9-1-1 interfaces at the cost of the requesting agency. Requestor should list the type of interface needed (real time, API etc).
☐ Asynchronous Interface
For this type of interface, a secondary archive server will be utilized to provide the data requested. This data provided is not real time.

With the submission of this form, I confirm that I reviewed and understand the DuPage ETSB Information Technology and Network Security Policy, Policy No: 911-013, [the "Policy"]. I understand that an MOU will be required and there may be fees and costs involved for any interface that is not 9-1-1 related.

Please include a short description or attach a copy to this request for the following:

- **Technical Requirements:** (will also be reviewed by Tech Focus Group)
- **Desired Project Implementation Schedule:** (include/attach a go-live goal or schedule)
- **Vendor Service Level Agreement (SLA)** (It is important that ETSB know the hours of work)
